(74% in Q324)

>70%
of Group income by 2026

c.40% of Group income in USD³

¹ Global Markets Financing includes income related to client financing in both FICC and Equities. In FICC this includes fixed income securities repurchase agreements, structured credit, warehouse and asset backed lending. In Equities this includes prime brokerage margin lending, securities lending, quantitative prime services, futures clearing and settlement, synthetic financing, and equity structured financing. All other items are considered intermediation | ² Retail & Corporate consists of income from Barclays UK, Barclays UK Corporate Bank, Barclays Private Bank and Wealth Management, the International Corporate Bank within the Investment Bank, Barclays US Consumer Bank and Head Office | ³ Based on an average of FY23, FY24 and H125 income currency mix. Percentage may vary depending on business mix and macroeconomic environment and historical outcomes may not be indicative of future currency mix | Note: Charts may not sum due to rounding |

Group NII of £3.3bn, up 16% YoY¹; FY25 guidance revised to >£12.6bn

Net interest income (£bn)

2025 Group NII (excl. IB and HO) guidance: >£12.6bn
Previously >£12.5bn

2025 Barclays UK NII guidance: >£7.6bn

Q325 NII performance	YoY (%)	QoQ (%)
BUK	+18%	+6%
UKCB	+24%	+7%
PBWM	+1%	-6%
USCB	+12%	+13%

Drivers of NII upgrade

- Sustained structural hedge momentum
- Continued Group deposit stability
- Lending momentum in all divisions

¹ Excludes NII from the Investment Bank and Head Office | Note: Charts may not sum due to rounding |

Structural hedge expected to deliver multiyear income growth beyond 2026

Average hedge duration increased from 3 to 3.5 years

2025/26 planning assumptions	○ c.£100bn maturing
	○ Broadly stable notional
2027	○ GBP swap rate: 5 yr c.3.5%
	○ Maturing yield of 2.1%

Notional stable since Q424

¹ UK Pound Sterling SONIA OIS Zero 5 Year Point (Refinitiv: GBPOIS5YZ=R) | ² Gross hedge income divided by period end hedge notional | ³ £11.8bn of gross structural hedge income locked in across 2025 and 2026, up from £11.1bn last quarter | ⁴ Refers to the contribution to NII of hedges that have already been executed | ⁵ Q325 YTD proportion of average divisional allocated tangible equity | ⁵ Product structural hedge income is allocated to the International Corporate Bank within the Investment Bank

Performance of the structural hedge over time

The structural hedge smooths income and protects against sharp downwards movement in interest rates

¹ UK Pound Sterling SONIA OIS Zero 5 Year Point (Refinitiv: GBPOIS5YZ=R). Series starts 30/07/2008 | ² Trailing average of the last 6-month end yields |

Mortgage portfolio

- 54.1% average balance weighted LTV of mortgage stock
 - 40.6% average valuation weighted LTV
- Increased HLT¹ mix: 23% in Q325 vs 14% in Q324
- 10% of total balances are BTL² mortgages
- Consistently low 90-day arrears rate (Q325: 0.1%)
- Well-established affordability assessments in place

Total mortgage portfolio

Kensington adding capabilities to Barclays UK

Ability to lend to high-yield, low risk customers with complex incomes

- **Diversification:** deploying the Kensington brand into the overall mortgage portfolio, reaching new customer segments
- **Specialist expertise:** including knowledge of securitisation markets, supporting efficient funding structures
- **Risk/reward discipline:** proven capability in balancing customer growth with risk management

¹ High loan-to-value mortgages reflecting 85%+. Based on residential flow completions | ² Buy to Let (BTL) |

Purpose

- The banking book has inherent credit risk, driving risk weight density and impairment
- Risk transfer transactions are a tool used to manage this risk in a returns accretive manner
- We transfer credit risk to investors through a variety of structures. This benefits Barclays by:
 - Providing credit protection
 - Reducing required provisions
 - Reducing capital requirements
- The Group is typically required to retain at least 5% of the risk in the securitised assets
- This is RoTE accretive for the Group. The benefits of releasing capital is greater than the returns we forego

Q225: Barclays transfers c.£50bn¹ risk via a variety of structures

Synthetic	Corporate loans c.£47bn ^{1,2}	UK Corporate Bank and Investment Bank • Credit linked notes (CLNs) sold to investors • The CLNs reference junior risk of underlying pool of corporate loans and RCFs (i.e. on and off balance sheet exposures) • Loans remain on balance sheet and investors receive a coupon on the CLNs
	UK social housing c.£2bn ¹	Barclays UK • CLNs sold to investors • The CLNs reference junior risk of underlying pool of social housing loans • Loans remain on balance sheet and investors receive a coupon on the CLNs
Cash	UK residential mortgages c.£1bn ¹	Barclays UK • Outright sale in public RMBS transactions • Mortgages derecognised from balance sheet, with cash flows passed onto the investors • Barclays remains the lender of record and receives servicing fees
	US cards c.\$1bn ¹	US Consumer Bank • Outright sale of c.\$1bn of US credit card receivables to Blackstone • Receivables derecognised from the balance sheet, with cash flows passed onto Blackstone • Barclays remains the lender of record and receives servicing fees

¹ Total notional referenced. Includes the first loss position transferred. c.£50bn across major risk transfer portfolios | ² GBP equivalent, calculated using FX rates on 30/6/25 |

Q225: Corporate loans

- Colonnade programme established in 2016
- Deployed against exposure in the UK Corporate Bank and Investment Bank
- Programme is fully funded, resulting in no counterparty credit risk
- CLNs are reissued on a regular basis in a deep and active market
 - In 2025, 6 deals executed by Barclays, hedging £5.3bn of exposure
 - ≤£2.0bn RWAs amortisation profile per quarter
- Programme size and hedge proportion at a broadly steady state

£47bn of
notional
referenced¹

c.£270m of
credit losses
claimed since
2016²

Q225: US credit cards

- Initiated risk transfer in Q124 to help optimise capital consumption for USCB in light of IRB model migration headwind
- Aim to continue to execute risk transfers on a selective basis

Full
impairment
relief on an
ongoing basis

c.\$1bn RWA
relief (post
IRB
migration)

¹ Includes the first loss position transferred. GBP equivalent, calculated using FX rates on 30/6/25 | ² Total loss claims to FY24. IFRS 9 reimbursement asset P&L c. £270m since 2020 |

Private Credit exposures well managed

Committed exposure c.6% of loans and advances

- Private Credit: Lending conducted outside of banks or public debt markets
 - Barclays provides senior financing on a secured basis against diversified portfolios of private credit loans
-
- Financing predominantly to large, proven, top tier managers
 - Financing entails strict limits on borrower and sector concentrations
 - Financed portfolios skewed toward larger cap corporates with lower LTVs ensuring strong first loss protection
 - Weighted average EBITDA of >\$200m
 - Average LTV of <60%
 - Active exposure management:
 - Revaluation rights retained by Barclays and enforce maintenance of LTVs
 - Collateral additions are individually approved

¹ Barclays PLC loans and advances at amortised cost to customers per the consolidated balance sheet (Q325 results announcement, page 41). Excludes debt securities. Comprises of on balance sheet exposures only | ² Comprises of on and off Group balance sheet exposures. On balance sheet US Private Credit exposure captured within [BBPLC New York Branch disclosures](#) under "loans to other financial institutions" |

Capital and leverage

Robust capital position with 14.1% CET1 ratio

Q325 CET1 ratio movements

Note: Charts may not sum due to rounding

CET1 ratio in relation to our minimum requirements

Q325: CET1 minimum requirements

- Plan to operate towards the upper half of our 13-14% CET1 target range, as we have been doing
- Continue to have flexibility to manage these requirements
- >11% RoTE in 2025 expected to generate >170bps of CET1
- We expect the Pillar 2A capital to reduce once the USCB IRB model is implemented¹ and upon implementation of Basel 3.1²

¹ In 2026 or 2027 | ² PRA expected to review to address double counting | Note: Charts may not sum due to rounding |

Group RWAs increased by £4.3bn QoQ, of which £2.5bn is FX

Risk weighted assets (£bn)

Note: Charts may not sum due to rounding

Q325: AT1 and T2 needs managed on a total capital basis

Balanced total capital structure

- Operating with prudent buffers at each part of the capital stack to manage FX and RWA movements
- Have flexibility in the management of AT1 due to the deliberate decision to deploy funding into liquid leverage balance sheet opportunities (e.g. Financing)
- Expect AT1 issuance and redemptions to be broadly balanced over time

Barclays PLC remaining capital call and maturity profile (£bn)¹

¹ Prepared on nominal basis which will not reconcile with regulatory or accounting bases due to adjustments Note: Charts may not sum due to rounding

Leverage ratio above regulatory requirements

Q325: leverage minimum requirements

Balance sheet management

MREL position well established

Q325: MREL minimum requirements

HoldCo issuance

- c.£14bn issuance plan for 2025, of which c.£13bn has been issued year-to-date
- Pre-funding may be considered subject to the completion of 2025 plan and prevailing market conditions
- MREL issuance plan continues to be dynamic and is driven by a combination of factors, such as balance sheet needs, regulatory requirements and the impact of FX and interest rates

Note: Charts may not sum due to rounding

c.£14bn issuance plan for 2025, of which c.£13bn has been issued YTD

Important Notice

The terms Barclays or Group refer to Barclays PLC together with its subsidiaries. The information, statements and opinions contained in this presentation do not constitute a public offer under any applicable legislation, an offer to sell or solicitation of any offer to buy any securities or financial instruments, or any advice or recommendation with respect to such securities or other financial instruments.

Information relating to:

- regulatory capital, leverage, liquidity, resolution and related regimes is based on Barclays' interpretation of applicable rules and regulations as in force and implemented in the UK as at the reporting date, including, but not limited to: CRR; the PRA Rulebook; and any applicable delegated acts, implementing acts or technical standards; in each case as amended and, where applicable, as such rules and regulations form part of domestic law by virtue of the European Union (Withdrawal) Act 2018. All such regulatory requirements are subject to change and disclosures made by the Group will be subject to any resulting changes. The Pillar 2A requirement is also subject to at least annual review;
- MREL is based on Barclays' understanding of the Bank of England's Statement of Policy on "The Bank of England's approach to setting a minimum requirement for own funds and eligible liabilities (MREL)" published in December 2021, and its MREL requirements communicated to Barclays by the Bank of England. MREL requirements remain subject to change, as determined by the Bank of England, taking into account a number of factors as described in the policy, along with international developments;
- future regulatory capital, leverage, liquidity, funding and/or MREL, including forward-looking illustrations, are provided for illustrative purposes only and are not forecasts of Barclays' results of operations or capital position or otherwise. Illustrations regarding the capital flight path, end-state capital evolution and expectations and MREL build are based on certain assumptions applicable at the date of publication only which cannot be assured and are subject to change.

Non-IFRS performance measures

Barclays' management believes that the non-IFRS performance measures included in this presentation provide valuable information to the readers of the financial statements as they enable the reader to identify a more consistent basis for comparing the businesses' performance between financial periods and provide more detail concerning the elements of performance which the managers of these businesses are most directly able to influence or are relevant for an assessment of the Group. They also reflect an important aspect of the way in which operating targets are defined and performance is monitored by Barclays' management. However, any non-IFRS performance measures in this presentation are not a substitute for IFRS measures and readers should consider the IFRS measures as well. Refer to the appendix of the Barclays PLC Results Announcement for each of the periods ended 30 September 2019, 30 September 2021, 30 September 2023, 30 September 2024, 31 December 2024, 31 March 2025, 30 June 2025 and 30 September 2025 and the Group Reporting Changes 2023 Results Resegmentation Document, respectively, which are available at [Barclays.com](https://www.barclays.com), for further information and calculations of non-IFRS performance measures included throughout this presentation, and the most directly comparable IFRS measures.

Forward-looking statements

This document contains certain forward-looking statements within the meaning of Section 21E of the US Securities Exchange Act of 1934, as amended, and Section 27A of the US Securities Act of 1933, as amended, with respect to the Group. Barclays cautions readers that no forward-looking statement is a guarantee of future performance and that actual results or other financial condition or performance measures could differ materially from those contained in the forward-looking statements. Forward-looking statements can be identified by the fact that they do not relate only to historical or current facts. Forward-looking statements sometimes use words such as 'may', 'will', 'seek', 'continue', 'aim', 'anticipate', 'target', 'projected', 'expect', 'estimate', 'intend', 'plan', 'goal', 'believe', 'achieve' or other words of similar meaning. Forward-looking statements can be made in writing but also may be made verbally by directors, officers and employees of the Group (including during management presentations) in connection with this document. Examples of forward-looking statements include, among others, statements or guidance regarding or relating to the Group's future financial position, business strategy, income levels, costs, assets and liabilities, impairment charges, provisions, capital leverage and other regulatory ratios, capital distributions (including policy on dividends and share buybacks), return on tangible equity, projected levels of growth in banking and financial markets, industry trends, any commitments and targets (including environmental, social and governance ("ESG") commitments and targets), plans and objectives for future operations, International Financial Reporting Standards ("IFRS") and other statements that are not historical or current facts. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances. Forward-looking statements speak only as at the date on which they are made. Forward-looking statements may be affected by a number of factors, including, without limitation: changes in legislation, regulations, governmental and regulatory policies, expectations and actions, voluntary codes of practices and the interpretation thereof; changes in IFRS and other accounting standards, including practices with regard to the interpretation and application thereof and emerging and developing sustainability reporting standards (including emissions accounting methodologies); changes in tax laws and practice; the outcome of current and future legal proceedings and regulatory investigations; the Group's ability along with governments and other stakeholders to measure, manage and mitigate the impacts of climate change effectively or navigate inconsistencies and conflicts in the manner in which climate policy is implemented in the regions where the Group operates, including as a result of the adoption of anti-ESG rules and regulations, or other forms of governmental and regulatory action against ESG policies; environmental, social and geopolitical risks and incidents and similar events beyond the Group's control; financial crime; the impact of competition in the banking and financial services industry; capital, liquidity, leverage and other regulatory rules and requirements applicable to past, current and future periods; UK, US, Eurozone and global macroeconomic and business conditions, including inflation; volatility in credit and capital markets; market related risks such as changes in interest rates and foreign exchange rates; reforms to benchmark interest rates and indices; higher or lower asset valuations; changes in credit ratings of any entity within the Group or any securities issued by it; changes in counterparty risk; changes in consumer behaviour; changes in trade policy, including the imposition of tariffs or other protectionist measures; the direct and indirect consequences of the conflicts in Ukraine and the Middle East on European and global macroeconomic conditions, political stability and financial markets; changes in US legislation and policy following the US elections in 2024; developments in the UK's relationship with the European Union; the risk of cyberattacks, information or security breaches, technology failures or operational disruptions and any subsequent impact on the Group's reputation, business or operations; the Group's ability to access funding; and the success of acquisitions (including the acquisition of Tesco Bank completed in November 2024), disposals, joint ventures and other strategic transactions. A number of these factors are beyond the Group's control. As a result, the Group's actual financial position, results, financial and non-financial metrics or performance measures or its ability to meet commitments and targets may differ materially from the statements or guidance set forth in the Group's forward-looking statements. In setting its targets and outlook for the period 2024-2026, Barclays has made certain assumptions about the macroeconomic environment, including, without limitation, inflation, interest and unemployment rates, the different markets and competitive conditions in which Barclays operates, and its ability to grow certain businesses and achieve costs savings and other structural actions. Additional risks and factors which may impact the Group's future financial condition and performance are identified in Barclays PLC's filings with the US Securities and Exchange Commission ("SEC") (including, without limitation, Barclays PLC's Annual Report on Form 20-F for the financial year ended 31 December 2024), which are available on the SEC's website at www.sec.gov.

Subject to Barclays PLC's obligations under the applicable laws and regulations of any relevant jurisdiction (including, without limitation, the UK and the US) in relation to disclosure and ongoing information, we undertake no obligation to update publicly or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
