HOUSTON – August 4, 2026 – Corebridge Financial, Inc. ("Corebridge" or the "Company") (NYSE: CRBG) today reported financial results for the second quarter ended June 30, 2026.

"We are pleased with our performance in the second quarter, having executed across the organization to deliver strong earnings, resilient sales, and consistent cash generation," said Marc Costantini, President and Chief Executive Officer. "Operationally, we continue to advance our commitment to becoming the easiest company to do business with—a strategy that is foundational to our customer success."

"Regarding our merger with Equitable, we have reached a pivotal milestone with shareholder approval. We are now focused on the roadmap to final execution, having further refined our combined leadership to ensure we have the right team to win. We are more confident than ever that this merger will create a combined company with the right attributes to drive profitable growth and create significant shareholder value."

Net loss available to common shareholders was \$16 million, compared to a loss of \$660 million in the prior year quarter. The variance largely was a result of lower realized losses, partially offset by unfavorable changes in the fair value of market risk benefits and higher interest credited to policyholder account balances than in the prior year period.

Adjusted pre-tax operating income ("APTOI") was \$664 million, or a 21% decrease from the prior year quarter. Excluding variable investment income ("VII"), APTOI decreased 2% from the same period,

driven by higher policyholder benefits, interest credited to policyholder account balances and other expenses, partially offset by higher premiums and net investment income.

Core sources of income was \$1.6 billion, a 5% increase from the prior year quarter largely due to higher fee and base spread income, partially offset by lower underwriting margin.

Premiums and deposits were \$9.1 billion, a 13% decrease from the prior year quarter primarily due to lower fixed and fixed indexed annuity sales, partially offset by an increase in GIC issuances, efficiently allocating capital toward businesses with the highest risk adjusted returns.

Cautionary Statement Regarding Forward-Looking Information

This press release includes statements, which, to the extent they are not statements of historical or present fact, constitute “forward-looking statements” within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements, and any related oral statements, can be identified by the use of terms such as “believes,” “expects,” “may,” “will,” “shall,” “should,” “would,” “could,” “seeks,” “aims,” “projects,” “forecasts,” “intends,” “targets,” “plans,” “assumes,” “enable,” “estimates,” “anticipates,” “goals,” “guidance,” “formidable,” “preliminary,” “objective,” “continue,” “drive,” “improve,” “superior,” “robust,” “positioned,” “resilient,” “vision,” “potential,” “immediate,” “on track,” “progress”, “is optimistic,” and similar expressions or the negative of those expressions or verbs. We caution you that forward-looking statements are not guarantees of future performance or outcomes. Forward-looking statements are not historical facts but instead represent only our beliefs regarding future events, which may by their nature be inherently uncertain, and some of which may be outside our control. These statements include, but are not limited to, statements about the potential repurchases of shares of common stock, statements about the expected timing and completion of the proposed transaction between the Company and Equitable Holdings, Inc. (“Equitable”) (the “Proposed Transaction”), the anticipated benefits of the Proposed Transaction, including estimated synergies and projected cost savings, and plans and expectations for the Company, Equitable or their new parent company after completion of the Proposed Transaction.

Such forward-looking statements are subject to known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, level of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking statements. Key factors include, among others, the ability to repurchase shares (if the Company decides to do so) within the expected timing or at all; the ability to complete the Proposed Transaction on the timeframe or on the terms currently anticipated or at all, including due to a failure to obtain requisite, stock exchange, regulatory, governmental or other approvals; risks related to difficulties, inabilities or delays in integrating the parties' businesses; the ability to realize the anticipated benefits of the Proposed Transaction, including estimated run-rate expense synergies and projected cost savings at the times, and to the extent, anticipated, as well as expected operating earnings and cashflow generation; the occurrence of any event, change or other circumstance that could give rise to the right of either or both parties to terminate the merger agreement; the potential impact of the announcement or consummation of the Proposed Transaction on the Company or Equitable's stock price and on their respective business, contractual and

operational relationships (including with regulatory bodies, employees, suppliers, clients and competitors); risks related to business disruptions from the Proposed Transaction that may harm the business or current plans and operations of either or both parties, including diversion of management time from ongoing business operations; the risk that the Proposed Transaction and its announcement could have an adverse effect on the ability of either or both parties to hire and retain key personnel; the parties’ ability to raise debt on favorable terms or at all; the outcome of any legal proceedings that may be instituted against the Company, Equitable, their new parent company or their respective directors; restrictions on the conduct of the Company and Equitable’s respective businesses prior to the closing of the Proposed Transaction and on each of their ability to pursue alternatives to the Proposed Transaction; the possibility that the Proposed Transaction may be more expensive to complete than anticipated, including as a result of unexpected factors or events, or unforeseen or unknown liabilities; the deterioration of economic conditions; geopolitical tensions; the potential impact of a downgrade in the Company or Equitable’s Insurer Financial Strength ratings or credit ratings or of the new parent company of the Company and Equitable following completion of the Proposed Transaction; other factors that may affect future results of the Company and Equitable; and management’s response to any of the aforementioned factors.

Any forward-looking statements included herein are not a guarantee of future performance and involve risks and uncertainties, and there are certain important factors that could cause actual results to differ, possibly materially, from expectations or estimates reflected or implied in such forward-looking statements, including, among others, risks related to:

- changes in interest rates and changes to credit spreads;
- the deterioration of economic conditions, an economic slowdown or recession, changes in market conditions, weakening in capital markets, volatility in equity markets, inflationary pressures, the rise of pressures on the commercial real estate market, and geopolitical tensions;
- the unpredictability of the amount and timing of insurance liability claims;
- unavailable, uneconomical or inadequate reinsurance or recaptures of reinsured liabilities;
- uncertainty and unpredictability related to our reinsurance agreements and the reinsurers’ performance of their obligations under these agreements;
- our limited ability to access funds from our subsidiaries;
- our ability to incur indebtedness, our potential inability to refinance all or a portion of our indebtedness or our ability to obtain additional financing on favorable terms or at all;
- our ability to maintain sufficient eligible collateral to support business and funding strategies requiring collateralization;
- our inability to generate cash to meet our needs due to the illiquidity of some of our investments;
- the inaccuracy of the methodologies, estimations and assumptions underlying our valuation of investments and derivatives;
- a downgrade in our Insurer Financial Strength (“IFS”) ratings or credit ratings;
- exposure to credit risk due to non-performance or defaults by our counterparties or our use of derivative instruments to hedge market risks associated with our liabilities;
- our ability to adequately assess risks and estimate losses related to the pricing of our products;
- the failure of third parties that we rely upon to provide and adequately perform certain business, operations, investment advisory, functional support and administrative services on our behalf;
- the impact of risks associated with our arrangement with Blackstone ISG-I Advisors LLC or any affiliates thereof (“Blackstone”), BlackRock Financial Management, Inc. (“BlackRock”) or any other asset manager we retain, including their historical performance not being indicative of the future results of our investment portfolio and the exclusivity of certain arrangements with Blackstone;

- our inability to maintain the availability of critical technology systems and the confidentiality, integrity and availability of our data, including challenges associated with a variety of privacy and information security laws;
- scrutiny and evolving expectations from investors, regulators, customers and other stakeholders regarding environmental, social and governance matters;
- the ineffectiveness of our risk management policies and procedures;
- significant legal, governmental or regulatory proceedings;
- business or asset acquisitions and dispositions that may expose us to certain risks;
- our ability to protect our intellectual property;
- our ability to operate efficiently and compete effectively in a heavily regulated industry in light of new domestic or international laws and regulations or new interpretations of current laws and regulations;
- impact on sales of our products and taxation of our operations due to changes in U.S. federal income or other tax laws or the interpretation of tax laws;
- differences between actual experience and the estimates used in the preparation of financial statements and modeled results used in various areas of our business;
- our inability to attract and retain key employees and highly skilled people needed to support our business;
- our relationships with Nippon Life Insurance Company, a mutual company organized under the laws of Japan (“Nippon”) and Blackstone and conflicts of interests arising due to such relationships;
- the indemnification obligations we have to American International Group, Inc. (“AIG”);
- potentially higher U.S. federal income taxes due to our inability to file a single U.S. consolidated federal income tax return for five years following our initial public offering (“IPO”) and our separation from AIG causing an “ownership change” for U.S. federal income tax purposes caused by our separation from AIG;
- risks associated with the Tax Matters Agreement with AIG and our potential liability for U.S. income taxes of the entire AIG Consolidated Tax Group for all taxable years or portions thereof in which we (or our subsidiaries) were members of such group;
- the risk that anti-takeover provisions could discourage, delay, or prevent our change in control, even if the change in control would be beneficial to our shareholders; and
- other factors discussed in “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2025, as well as our Quarterly Reports on Form 10-Q.

The foregoing list of factors is not exhaustive. You should carefully consider these factors and the other risks and uncertainties described in the “Risk Factors” section of the new parent company’s Registration Statement on Form S-4 and other documents filed or furnished by the Company and Equitable from time to time with the Securities and Exchange Commission (the “SEC”), including their Annual Reports on Form 10-K for the year ended December 31, 2025 and Quarterly Reports on Form 10-Q. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements. If any of these risks materialize or our assumptions prove incorrect, actual events and results could differ materially from those contained in the forward-looking statements. There may be additional risks that neither the Company nor Equitable presently know or that the Company and Equitable currently believe are immaterial that could also cause actual events and results to differ materially from those contained in the forward-looking statements. In addition, forward-looking statements reflect the Company and Equitable’s expectations, plans or forecasts of future events and views as of the date of this press release. The Company and Equitable anticipate that subsequent events and developments will cause the Company and Equitable’s assessments to change. While the Company and Equitable may elect to update these forward-looking statements at some point in the future, the Company and Equitable specifically disclaim any obligation to do so, unless required by applicable law. Neither the Company nor Equitable gives any assurance that the Company, Equitable or their new parent company will achieve the results or other matters set forth in the forward-looking

statements.

Non-GAAP financial measures

Throughout this release, we present our financial condition and results of operations in the way we believe will be most meaningful and representative of our business results. Some of the measurements we use are “non-GAAP financial measures” under SEC rules and regulations. We believe presentation of these non-GAAP financial measures allows for a deeper understanding of the profitability drivers of our business, results of operations, financial condition and liquidity. These measures should be considered supplementary to our results of operations and financial condition that are presented in accordance with GAAP and should not be viewed as a substitute for GAAP measures. The non-GAAP financial measures we present may not be comparable to similarly named measures reported by other companies.

Adjusted pre-tax operating income (“APTOI”) is derived by excluding the items set forth below from income (loss) before income tax expense (benefit). These items generally fall into one or more of the following broad categories: legacy matters having no relevance to our current businesses or operating performance; adjustments to enhance transparency to the underlying economics of transactions; and recording adjustments to APTOI that we believe to be common in our industry. We believe the adjustments to pre-tax income are useful for gaining an understanding of our overall results of operations.

APTOI excludes the impact of the following items:

FORTITUDE RE RELATED ADJUSTMENTS:

The modified coinsurance (“modco”) reinsurance agreements with Fortitude Re transfer the economics of the invested assets supporting the reinsurance agreements to Fortitude Re. Accordingly, the net investment income on Fortitude Re funds withheld assets and the net realized gains (losses) on Fortitude Re funds withheld assets are excluded from APTOI. Similarly, changes in the Fortitude Re funds withheld embedded derivative are also excluded from APTOI.

The ongoing results associated with the reinsurance agreement with Fortitude Re have been excluded from APTOI as these are not indicative of our ongoing business operations.

INVESTMENT RELATED ADJUSTMENTS:

APTOI excludes “Net realized gains (losses)”, except for gains (losses) related to the disposition of real estate investments. Net realized gains (losses), except for gains (losses) related to the disposition of real estate investments, are excluded as the timing of sales on invested assets or changes in allowances depend largely on market credit cycles and can vary considerably across periods. In addition, changes in interest rates may create opportunistic scenarios to buy or sell invested assets. Our derivative results, including those used to economically hedge insurance liabilities, or those recognized as embedded derivatives at fair value, are also included in Net realized gains (losses) and are similarly excluded from APTOI except earned income (periodic settlements and changes in settlement accruals) on derivative instruments used for non-qualifying (economic) hedges or for asset replication. Earned income on such economic hedges is reclassified from Net realized gains and losses to specific APTOI line items based on the economic risk being hedged (e.g., Net investment income and Interest credited to policyholder account balances).

MARKET RISK BENEFIT ADJUSTMENTS (“MRBs”):

Certain of our variable annuity, fixed annuity and fixed index annuity contracts contain GMWBs and/or GMDBs which are accounted for as MRBs. Changes in the fair value of these MRBs (excluding changes related to our own credit risk), including certain rider fees attributed to the MRBs are excluded from APTOI. MRBs related to the variable annuity business subject to the reinsurance agreements with Corporate Solutions Life Reinsurance Company (“CSLR”) are reported in the “Businesses exited through reinsurance” line item.

BUSINESSES EXITED THROUGH REINSURANCE:

Represents the results of businesses that have been or will be economically exited through reinsurance. This includes MRBs, along with changes in the fair value of derivatives used to hedge MRBs which are recorded through “Change in the fair value of MRBs, net.” The results of operations from these businesses have been excluded from APTOI as they are not indicative of our ongoing business operations.

OTHER ADJUSTMENTS:

Other adjustments represent all other adjustments that are excluded from APTOI and includes the net pre-tax operating income (losses) from noncontrolling interests related to consolidated investment entities. The excluded adjustments include, as applicable:

- restructuring and other costs related to initiatives designed to reduce operating expenses, improve efficiency and simplify our organization;
- non-recurring costs associated with the implementation of non-ordinary course legal or regulatory changes or changes to accounting principles;
- separation costs;
- non-operating litigation reserves and settlements;
- loss (gain) on extinguishment of debt, if any;
- losses from the impairment of goodwill, if any; and
- income and loss from divested or run-off business, if any.

[Adjusted After-tax Operating Income Available to Corebridge Common Shareholders \(“Adjusted After-tax Operating Income” or “AATOI”\)](#) is derived by excluding the tax effected APTOI adjustments described above and preferred stock dividends, as well as the following tax items from net income attributable to us:

- reclassifications of disproportionate tax effects from AOCI, changes in uncertain tax positions and other tax items related to legacy matters having no relevance to our current businesses or operating performance; and
- deferred income tax valuation allowance releases and charges.

[Adjusted Book Value Available to Corebridge Common Shareholders](#) is derived by excluding preferred stock as well as AOCI, adjusted for the cumulative unrealized gains and losses related to Fortitude Re’s funds withheld assets. We believe this measure is useful to investors as it eliminates the asymmetrical impact resulting from changes in fair value of our available-for-sale securities portfolio for which there is largely no offsetting impact for certain related insurance liabilities that are not recorded at fair value with changes in fair value recorded through OCI. It also eliminates asymmetrical impacts where our own credit non-performance risk is recorded through OCI. In addition, we adjust for the cumulative unrealized gains and losses related to Fortitude Re’s funds withheld assets since these fair value movements are economically transferred to Fortitude Re.

[Adjusted Return on Average Equity Available to Common Shareholders \(“Adjusted ROAE”\)](#) is derived by dividing

AATOI by average Adjusted Book Value available to Common Shareholders and is used by management to evaluate our recurring profitability and evaluate trends in our business. We believe this measure is useful to investors as it eliminates the asymmetrical impact resulting from changes in fair value of our available-for-sale securities portfolio for which there is largely no offsetting impact for certain related insurance liabilities that are not recorded at fair value with changes in fair value recorded through OCI. It also eliminates asymmetrical impacts where our own credit non-performance risk is recorded through OCI. In addition, we adjust for the cumulative unrealized gains and losses related to Fortitude Re's funds withheld assets since these fair value movements are economically transferred to Fortitude Re.

Adjusted revenues exclude Net realized gains (losses) except for gains (losses) related to the disposition of real estate investments, revenues from businesses exited through reinsurance, and income from non-operating litigation settlements (included in Other income for GAAP purposes).

Net investment income (APTOI basis) is the sum of base portfolio income and variable investment income. We believe that presenting net investment income on an APTOI basis is useful for gaining an understanding of the main drivers of investment income.

Operating Earnings per Common Share ("Operating EPS") is derived by dividing AATOI by weighted average diluted shares.

Premiums and deposits is a non-GAAP financial measure that includes direct and assumed premiums received and earned on traditional life insurance policies and life-contingent payout annuities, as well as deposits received on universal life insurance, investment-type annuity contracts and GICs. We believe the measure of premiums and deposits is useful in understanding customer demand for our products, evolving product trends and our sales performance period over period.

Key operating metrics and key terms

Assets Under Management and Administration

- **Assets Under Management ("AUM")** include assets in the general and separate accounts of our subsidiaries that support liabilities and surplus related to our life and annuity insurance products.
- **Assets Under Administration ("AUA")** include Group Retirement mutual fund assets and other third-party assets that we sell or administer and the notional value of Stable Value Wrap ("SVW") contracts.
- **Assets Under Management and Administration ("AUMA")** is the cumulative amount of AUM and AUA.

Base net investment spread means base yield less cost of funds, excluding the amortization of deferred sales inducement assets.

Base spread income means base portfolio income less interest credited to policyholder account balances, excluding the amortization of deferred sales inducement assets.

Base yield means the returns from base portfolio income including accretion and impacts from holding cash and short-term investments.

Core sources of income means the sum of base spread income, fee income and underwriting margin, excluding variable investment income, in our Individual Retirement, Group Retirement, Life Insurance and Institutional Markets segments.

Cost of funds means the interest credited to policyholders excluding the amortization of deferred sales inducement assets.

Fee and Spread Income and Underwriting Margin

- **Fee income** is defined as policy fees plus advisory fees plus other fee income. For our Institutional Markets segment, its SVW products generate fee income.
- **Spread income** is defined as net investment income less interest credited to policyholder account balances, excluding the amortization of deferred sales inducement assets. Spread income is comprised of both base spread income and variable investment income. For our Institutional Markets segment, its structured settlements, PRT and GIC products generate spread income, which includes premiums, net investment income, less interest credited and policyholder benefits and excludes the annual assumption update.
- **Underwriting margin** for our Life Insurance segment includes premiums, policy fees, other income and net investment income, less interest credited to policyholder account balances and policyholder benefits, and excludes the annual assumption update. For our Institutional Markets segment, its Corporate Markets products generate underwriting margin, which includes premiums, net investment income, policy and advisory fee income, less interest credited and policyholder benefits and excludes the annual assumption update.

Financial leverage ratio means the ratio of financial debt to the sum of (i) financial debt, (ii) Adjusted Book Value available to Common Shareholders, (iii) preferred stock, and (iv) non-redeemable noncontrolling interests.

Life Fleet RBC Ratio

- **Life Fleet** means American General Life Insurance Company (“AGL”), The United States Life Insurance Company in the City of New York (“USL”) and The Variable Annuity Life Insurance Company (“VALIC”).
- **Life Fleet RBC Ratio** is the risk-based capital (“RBC”) ratio for the Life Fleet. RBC ratios are quoted using the Company Action Level.

Net Investment Income

- **Base portfolio income** includes interest, dividends and foreclosed real estate income, net of investment expenses and non-qualifying (economic) hedges.
- **Variable investment income** includes call and tender income on bonds, commercial mortgage loan prepayments, changes in market value of investments accounted for under the fair value option, interest received on defaulted investments (other than foreclosed real estate), income from alternative investments and other miscellaneous investment income, including income on certain partnership entities that are required to be consolidated. Alternative investments include private equity and real estate equity funds which are generally reported on a one-quarter lag.
