

DraftKings Reports Second Quarter Results

Boston, MA – August 6, 2026 — DraftKings Inc. (Nasdaq: DKNG) (“DraftKings” or the “Company”) today announced its second quarter 2026 financial results. The Company also posted a second quarter 2026 business update and a slide presentation on the Financials section of its website at ir.aboutdraftkings.com.

Second Quarter 2026 Highlights

For the three months ended June 30, 2026, DraftKings reported Sports Consumer Volume of \$13.1 billion, an increase of \$1.7 billion, or 15%, compared to \$11.5 billion during the same period in 2025. The increase reflects strong customer acquisition and engagement. DraftKings reported revenue of \$1,443 million, a decrease of \$69 million, or 5%, compared to \$1,513 million during the same period in 2025. The decrease in the Company's second quarter 2026 revenue was driven primarily by customer-friendly sport outcomes and increased promotional reinvestment associated with new customer acquisition on our Sportsbook and Predictions offerings.

“We delivered a strong second quarter and enter the back half of the year with real momentum, as our core business grew across handle, users, and engagement,” said Jason Robins, DraftKings' Chief Executive Officer and Co-founder. “Our Super App is now live nationwide, and Predictions is already growing faster than we anticipated. The similarity of Predictions customer metrics to Sportsbook customer metrics, our advantaged LTV position, and our playbook to innovate on a leading Predictions offering all underpin our confidence that we can win the category this NFL season and beyond.”

“Our core business remains on track to generate approximately \$1 billion of Adjusted EBITDA this year, providing us with financial flexibility to invest behind the significant opportunity that we are seeing in Predictions,” said Alan Ellingson, DraftKings' Chief Financial Officer. “Therefore, we are maintaining our fiscal year 2026 guidance for revenue of \$6.5 billion to \$6.9 billion and Adjusted EBITDA of \$700 million to \$900 million.”

Continued Strong Customer Acquisition, Retention, and Engagement

- Monthly Unique Payers (“MUPs”) increased approximately 9% to 3.6 million in the three months ended June 30, 2026, compared to the three months ended June 30, 2025. This increase reflects strong unique payer retention and new customer acquisition across our Sportsbook offering and Predictions offering, which launched in December 2025.
- Average Revenue per MUP (“ARPMUP”) decreased approximately 13%, or \$19, to \$132 for the three months ended June 30, 2026, compared to the three months ended June 30, 2025, primarily due to customer-friendly sport outcomes and new customer promotions impacting revenue across our Sportsbook offering and Predictions offering.
- Detailed financial data and other information for the second quarter of 2026 is available in the financial statements set forth below under the caption “Financial and Operational Results.”

Fiscal Year 2026 Guidance

- DraftKings is maintaining its fiscal year 2026 revenue guidance range of \$6.5 billion to \$6.9 billion and fiscal year 2026 Adjusted EBITDA guidance range of \$700 million to \$900 million, which the Company previously announced on May 7, 2026.

Mobile Sports Betting and iGaming Footprint

- DraftKings is live with mobile sports betting in 27 states, Washington, D.C., and Puerto Rico representing approximately 53% of the U.S. population.
- DraftKings is also live with iGaming in 5 states, representing approximately 11% of the U.S. population.
- Following the launch of our Sportsbook and iGaming offerings in Alberta, Canada, DraftKings is now live with its Sportsbook and iGaming offerings in provinces representing approximately 51% of the Canadian population.

Non-GAAP Financial Measures

This press release includes Adjusted EBITDA and Adjusted Diluted Earnings (Loss) Per Share, which are non-GAAP financial measures that DraftKings uses to supplement its results presented in accordance with U.S. generally accepted accounting principles (“GAAP”). The Company believes Adjusted EBITDA and Adjusted Diluted Earnings (Loss) Per Share are useful in evaluating its operating performance, similar to measures reported by its publicly-listed U.S. competitors, and regularly used by security analysts, institutional investors and other interested parties in analyzing operating performance and prospects. Adjusted EBITDA and Adjusted Diluted Earnings (Loss) Per Share are not intended to be substitutes for any GAAP financial measures, and, as calculated, may not be comparable to other similarly titled measures of performance of other companies in other industries or within the same industry.

DraftKings defines and calculates Adjusted EBITDA as net income (loss) before the impact of interest income or expense (net), income tax provision or benefit, and depreciation and amortization, and further adjusted for the following items: stock-based compensation; transaction-related costs; litigation, settlement and related costs; advocacy and other related legal expenses; gain or loss on remeasurement of warrant liabilities; and other non-recurring and non-operating costs or income, as described in the reconciliation below.

DraftKings defines and calculates Adjusted Diluted Earnings (Loss) Per Share as diluted earnings (loss) per share attributable to common stockholders adjusted for the impact of amortization of acquired intangible assets; discrete tax benefits attributed to acquisitions; stock-based compensation; transaction-related costs; litigation, settlement and related costs; advocacy and other related legal expenses; gain or loss on remeasurement of warrant liabilities; other non-recurring and non-operating costs or income; and the tax impact of adjusting items, as described in the reconciliation below. The weighted-average shares outstanding used in the calculation of diluted earnings (loss) per share are the GAAP weighted-average diluted shares reported in the consolidated financial statements and are not adjusted.

DraftKings includes these non-GAAP financial measures because they are used by management to evaluate the Company’s core operating performance and trends and to make decisions regarding the allocation of capital and new investments. Adjusted EBITDA and Adjusted Diluted Earnings (Loss) Per Share exclude certain expenses that are required in accordance with GAAP because they are non-recurring items (for example, in the case of transaction-related costs and advocacy and other related legal expenses), non-cash expenditures (for example, in the case of depreciation and amortization, remeasurement of warrant liabilities and stock-based compensation), or non-operating items which are not related to the Company’s underlying business performance (for example, in the case of interest income and expense and litigation, settlement and related costs).

The unaudited table below presents the Company's Adjusted EBITDA reconciled to its net income (loss), which is the most directly comparable financial measure calculated in accordance with GAAP, for the periods indicated:

Advocacy and legal expenses incurred in the ordinary course of business have not been adjusted in this measure.
- (6) Beginning in the first quarter of 2025, the Company began applying an estimated non-GAAP effective tax rate, which was 23% in 2025 and is 28% as of the second quarter of 2026. The non-GAAP effective tax rate reflects the non-GAAP tax provision commensurate with the Company's level of non-GAAP profitability, which was determined after adjusting for the non-GAAP adjustments presented above and excluding the impact of changes in the valuation allowance.

Information reconciling forward-looking fiscal year 2026 Adjusted EBITDA guidance to its most directly comparable GAAP financial measure, net income (loss), is unavailable to DraftKings without unreasonable effort due to, among other things, certain items required for such reconciliation being outside of DraftKings' control and/or not being able to be reasonably predicted. Preparation of such reconciliation would require a forward-looking balance sheet, statement of income, and statement of cash flow, prepared in accordance with GAAP, and such forward-looking financial statements are unavailable to the Company without unreasonable effort. DraftKings provides a range for its Adjusted EBITDA forecast that it believes will be achieved; however, the Company cannot provide any assurance that it can predict all of the components of the Adjusted EBITDA calculation. DraftKings provides a forecast for Adjusted EBITDA because it believes that Adjusted EBITDA, when viewed with DraftKings' results calculated in accordance with GAAP, provides useful information for the reasons noted above. However, Adjusted EBITDA is not a measure of financial performance or liquidity under GAAP and, accordingly, should not be considered as an alternative to net income (loss) or cash flow from operating activities or as an indicator of operating performance or liquidity.
