

Q1 2027

Investor Presentation

August 5, 2026

Legal Disclaimer

This presentation consists of these slides and the associated remarks and comments, which are related and intended to be presented and understood together. Please refer to the appendix of these slides for definitions of certain terms.

Cautionary Language Concerning Forward-Looking Statements

This presentation includes certain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our future growth prospects, industry trends related to cloud, AI, and software, the expected and current benefits that we believe organizations receive from using the Dynatrace platform, and our financial and business outlook, including our financial guidance for the full year and second quarter of fiscal 2027. These forward-looking statements include, but are not limited to, plans, objectives, expectations and intentions and other statements contained in this presentation that are not historical facts and statements identified by words such as “will,” “expects,” “anticipates,” “intends,” “plans,” “believes,” “seeks,” “estimates” or words of similar meaning. These forward-looking statements reflect our current views about our plans, intentions, expectations, strategies and prospects, which are based on the information currently available to us and on assumptions we have made. Although we believe that our plans, intentions, expectations, strategies and prospects as reflected in or suggested by those forward-looking statements are reasonable, we can give no assurance that the plans, intentions, expectations or strategies will be attained or achieved. Furthermore, actual results may differ materially from those described in the forward-looking statements and will be affected by a variety of risks and factors that are beyond our control including, without limitation, our ability to maintain our revenue growth rates in future periods; overall demand for and market adoption of our solutions; our ability to compete; our ability to innovate and develop and effectively market solutions that meet customer needs, including with AI capabilities and functionalities; our ability to acquire new customers and retain and expand our relationships with existing customers; our ability to expand our sales and marketing capabilities; our ability to maintain successful relationships with partners; the ability of our platform and solutions to effectively interoperate with customers’ IT infrastructures; our ability to hire and retain necessary qualified employees to grow our business and expand our operations; our ability to successfully complete acquisitions and integrate newly acquired businesses and offerings; our use of new and evolving technologies, including AI, in our offerings and business; security breaches, computer malware, computer hacking attacks, and other security incidents or compromises; real or perceived errors, failures, defects, or vulnerabilities in our solutions; our ability to protect and enforce our proprietary technology and intellectual property rights; the effect on our business of uncertainty in the U.S. and global economies, along with uncertain geopolitical conditions; and other risks set forth under the caption “Risk Factors” in our most recent Annual Report on Form 10-K, subsequent Quarterly Reports on Form 10-Q, and our other SEC filings. We assume no obligation to update any forward-looking statements contained in this document as a result of new information, future events or otherwise.

Non-GAAP Financial Measures

In addition to disclosing financial measures prepared in accordance with GAAP, this presentation contains certain non-GAAP financial measures as defined by Regulation G, including non-GAAP income from operations, non-GAAP operating margin, non-GAAP net income, non-GAAP net income per diluted share, adjusted free cash flow (adjusted FCF), adjusted FCF margin, pre-tax adjusted FCF, and pre-tax adjusted FCF margin. We also use or discuss non-GAAP financial measures in earnings releases, conference calls, other slide presentations and webcasts. We use these non-GAAP financial measures for financial and operational decision-making purposes, and as a means to evaluate period-to-period comparisons and liquidity. We believe that these non-GAAP financial measures provide useful information about our operating results, enhance the overall understanding of past financial performance and allow for greater transparency with respect to metrics used by our management in its financial and operational decision-making. The presentation of the non-GAAP financial measures is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. Our non-GAAP financial measures may not provide information that is directly comparable to similarly titled metrics provided by other companies. Non-GAAP financial measures are defined in our press release dated August 5, 2026 and in this presentation and the tables included in that press release and this presentation include reconciliations of historical non-GAAP financial measures to their most directly comparable GAAP measures. Please also see the Data Trends Table on the Investor Relations page of our website.

Dynatrace presents constant currency (CC) amounts for Annual Recurring Revenue (ARR), Total Revenue and Subscription Revenue to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency rate fluctuations.

In this presentation, YoY (year over year) compares our financial performance to the applicable period in the previous fiscal year.

Total ARR growth

QUARTERLY TOTAL ARR (\$M)¹

As Reported YoY Growth %

Constant Currency YoY Growth %²

1. Quarterly Total ARR amounts shown in bar graphs are 'As Reported' metrics.
2. Constant currency growth rates reflect YoY growth when using exchange rates from the same period in the prior year. See the Appendix for definitions.

Net New ARR growth

QUARTERLY & LAST TWELVE MONTHS (LTM) NET NEW ARR @ CC (\$M)¹
Constant Currency YoY Growth %²

Quarterly Y/Y Growth	13%	16%	11%	9%	66% / 41% ³
LTM Y/Y Growth	(2)%	1%	5%	12%	23% / 17% ³

1. Net New ARR amounts shown in bar graphs represent Total Net New ARR at Constant Currency. See the Appendix for definition.
2. Defined as quarterly increase in Net New ARR in Constant Currency compared to the year-ago quarter Net New ARR in Constant Currency.
3. Represent organic growth, excluding \$13 million dollars of contribution from Bindplane acquisition.

Subscription & Total Revenue growth

Total Revenue Constant Currency YoY Growth²

Subscription Revenue Constant Currency YoY Growth²

1. Total Revenue includes Subscription and Services Revenue.
2. Constant currency growth rates reflect YoY growth when using exchange rates from the same period in the prior year. See Appendix for definition.

Efficient model with best-in-class gross margins¹

GAAP GROSS PROFIT MARGIN

NON-GAAP GROSS PROFIT MARGIN²

1. Our reference to "best-in-class" is in relation to other public companies that focus on observability.
2. These are non-GAAP financial measures. See the Appendix for reconciliations of GAAP to non-GAAP financial measures.

Highly efficient operating model

GAAP OPEX \$'S & AS % OF REVENUE (\$M)

NON-GAAP OPEX \$'S & AS % OF REVENUE (\$M)¹

1. These are non-GAAP financial measures. See the Appendix for reconciliations of GAAP to non-GAAP financial measures.
2. Other OpEx includes amortization of intangibles and impairment of long-lived assets.

FY27 guidance summary

Based on information available as of August 5th, 2026, Dynatrace is issuing guidance for the second quarter and updating its prior guidance for full year fiscal 2027 in the tables below. This guidance is based on the average foreign exchange rates for the month of June 30, 2026. We expect foreign exchange to be a headwind of approximately \$14 million on ARR and approximately \$4 million on revenue for fiscal 2027 compared to ARR and revenue at constant currency. This represents an incremental headwind of approximately \$23 million to ARR and \$19 million to revenue compared to our prior guidance. This guidance also excludes the impact of any share repurchases after June 30, 2026. Growth rates for ARR, Total revenue, and Subscription revenue are presented in constant currency to provide better visibility into the underlying growth of the business.

(in millions, except per share data)	Current FY 2027 Guidance	Prior FY 2027 Guidance	Guidance Change at Midpoint
ARR	\$2,359 - \$2,379	\$2,382 - \$2,402	\$(23)
As reported	15% - 16%	16% - 17%	(100) Bps
Constant currency	15.5% - 16.5%	15.5% - 16.5%	-
Total revenue	\$2,306 - \$2,320	\$2,317 - \$2,335	\$(13)
As reported	14% - 15%	15% - 16%	(100) bps
Constant currency	14.5% - 15%	14% - 15%	25 bps
Subscription revenue	\$2,206 - \$2,220	\$2,217 - \$2,235	\$(13)
As reported	14% - 15%	15% - 16%	(100) bps
Constant currency	14.5% - 15%	14% - 15%	25 bps
Non-GAAP income from operations	\$682 - \$690	\$682 - \$690	\$-
Non-GAAP Operating Margin	29.5% - 29.75%	29.5%	13 bps
Non-GAAP net income	\$581 - \$591	\$584 - \$594	\$(3)
Non-GAAP net income per diluted share	\$1.97 - \$1.99	\$1.93 - \$1.95	\$0.04
Diluted weighted average shares outstanding	295 - 297	302 - 304	(7)
Adjusted free cash flow*	\$610 - \$615	\$613 - \$620	\$(4)
Adjusted free cash flow margin*	26.5%	26.5%	-

*Beginning in the first quarter of fiscal 2027, we updated our non-GAAP liquidity measure from free cash flow to adjusted free cash flow (with a corresponding update to the related margin). For additional information, please see the appendix for definition. Our prior guidance for fiscal 2027 issued on May 13, 2026 (as set forth in this table) reflected our previous definition of free cash flow and the related margin and there were no "below the line" items contemplated at the time to be adjusted (as set forth in our current definition of adjusted free cash flow).

(in millions, except per share data)	Q2 Fiscal 2027 Guidance
Total revenue	\$565 - \$570
As reported	14% - 15%
Constant currency	15% - 16%
Subscription revenue	\$540 - \$545
As reported	14% - 15%
Constant currency	15% - 16%
Non-GAAP income from operations	\$166 - \$170
Non-GAAP Operating Margin	29.5% - 30%
Non-GAAP net income	\$141 - \$145
Non-GAAP net income per diluted share	\$0.48 - \$0.49
Diluted weighted average shares outstanding	293 - 294

All growth rates are compared to the second quarter and full year of fiscal 2026.

Reconciliations of non-GAAP income from operations, non-GAAP net income, non-GAAP net income per diluted share and adjusted free cash flow guidance to the most directly comparable GAAP measures are not available without unreasonable efforts on a forward-looking basis due to the high variability, complexity and low visibility with respect to the charges excluded from these non-GAAP measures; in particular, the measures and effects of share-based compensation expense, employer taxes and tax deductions specific to equity compensation awards that are directly impacted by future hiring, turnover and retention needs, as well as unpredictable fluctuations in our stock price. We expect the variability of the above charges to have a significant, and potentially unpredictable, impact on our future GAAP financial results.

Definitions & Non-GAAP Reconciliations

Appendix – Definitions

- 1) Annual Recurring Revenue (ARR) is defined as the daily revenue of all subscription agreements that are actively generating revenue as of the last day of the reporting period multiplied by 365. We exclude from our calculation of Total ARR any revenues derived from month-to-month agreements and/or product usage overage billings.
- 2) Constant Currency (CC) amounts for ARR, Total Revenue and Subscription Revenue are presented to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign exchange rate fluctuations. To present this information, current and comparative prior period results for entities reporting in currencies other than United States dollars are converted into United States dollars using the average exchange rates from the comparative period rather than the actual exchange rates in effect during the respective periods. All growth comparisons relate to the corresponding period in the last fiscal year.
- 3) Dollar-Based Gross Retention Rate is defined as the ARR from all customers as of one year prior, less contraction and customer churn, divided by the total ARR from one year prior. This metric reflects the percentage of ARR from all customers as of the year prior that has been retained.
- 4) Dollar-Based Net Retention Rate is defined as the ARR at the end of a reporting period for the cohort of Dynatrace accounts as of one year prior to the date of calculation, divided by the ARR one year prior to the date of calculation for that same cohort. Our dollar-based net retention rate reflects customer renewals, expansion, contraction and churn. Dollar-based net retention rate is presented on a constant currency basis.
- 5) Dynatrace Customers are defined as accounts, as identified by a unique account identifier, that generate at least \$10,000 of Dynatrace ARR as of the reporting date. In infrequent cases, a single large organization may comprise multiple customer accounts when there are distinct divisions, departments or subsidiaries that operate and make purchasing decisions independently from the parent organization. In cases where multiple customer accounts exist under a single organization, each customer account is counted separately based on a mutually exclusive accounting of ARR.
- 6) Adjusted Free Cash Flow ("Adjusted FCF") is defined as the net cash provided by or used in operating activities less capital expenditures, reflected as purchase of property and equipment and capitalized software additions in our financial statements, plus cash paid for acquisition-related, restructuring, and other non-recurring and unusual items. The related margin is adjusted free cash flow expressed as a percentage of total revenue.
- 7) Pre-Tax Adjusted Free Cash Flow is defined as adjusted free cash flow excluding the impact of cash paid for or received from taxes. The related margin is pre-tax adjusted free cash flow expressed as a percentage of total revenue.
