Third Quarter 2026 Earnings Call

October 29, 2026

Bluestone Gathering Lateral Pipeline

DT Midstream | NYSE: DTM

Safe Harbor Statement

This presentation contains statements which, to the extent they are not statements of historical or present fact, constitute "forward-looking statements" under the securities laws. These forward-looking statements are intended to provide management's current expectations or plans for our future operating and financial performance, business prospects, outcomes of regulatory proceedings, market conditions, and other matters, based on what we believe to be reasonable assumptions and on information currently available to us.

Forward-looking statements can be identified by the use of words such as "believe," "expect," "expectations," "plans," "strategy," "prospects," "estimate," "project," "target," "anticipate," "will," "would," "could," "should," "see," "guidance," "outlook," "confident," "may," "continue," "intend," "goal," "potential," and other words of similar meaning. The absence of such words, expressions or statements, however, does not mean that the statements are not forward-looking. In particular, express or implied statements relating to future earnings, cash flow, results of operations, uses of cash, tax rates and other measures of financial performance, future actions, conditions or events, potential future plans, strategies or transactions of DT Midstream, and other statements that are not historical facts, are forward-looking statements.

Forward-looking statements are not guarantees of future results and conditions, but rather are subject to numerous assumptions, risks, and uncertainties that may cause actual future results to be materially different from those contemplated, projected, estimated, or budgeted. Many factors may impact forward-looking statements of DT Midstream including, but not limited to, the following: changes in general economic conditions, including increases in interest rates and associated Federal Reserve policies, a potential economic recession, and the impact of inflation on our business; industry changes, including the impact of consolidations, alternative energy sources, technological advances, infrastructure constraints and changes in competition; changes in global trade policies and tariffs; global and domestic supply chain disruptions; actions taken by third-party operators, producers, processors, transporters and gatherers; changes in expected production from Expand Energy and other third parties in our areas of operation; demand for natural gas gathering, transmission, storage, transportation, sand mining, and water services; the availability and price of natural gas to the consumer compared to the price of alternative and competing fuels; our ability to successfully and timely implement our business plan; our ability to complete organic growth projects on time and on budget; our ability to finance, complete, or successfully integrate acquisitions; our ability to realize the anticipated benefits from acquisitions and our ability to manage the risks associated with acquisition activity; the price and availability of debt and equity financing; restrictions in our existing and any future credit facilities and indentures; the effectiveness of our information technology and operational technology systems and practices to detect and defend against evolving cyber attacks on United States critical infrastructure; changing laws regarding cybersecurity and data privacy, and any cybersecurity threat or event; operating hazards, environmental risks, and other risks incidental to gathering, storing and transporting natural gas; geologic and reservoir risks and considerations; natural disasters, adverse weather conditions, casualty losses and other matters beyond our control; the impact of outbreaks of illnesses, epidemics and pandemics, and any related economic effects; the impacts of geopolitical events, including the conflicts in Ukraine and the Middle East; labor relations and markets, including the ability to attract, hire and retain key employee and contract personnel; large customer defaults; changes in tax status, as well as changes in tax rates and regulations; the effects and associated cost of compliance with existing and future laws and governmental regulations, such as the Inflation Reduction Act and the One Big Beautiful Bill Act; changes in environmental laws, regulations or enforcement policies, including laws and regulations relating to pipeline safety, climate change and greenhouse gas emissions; changes in laws and regulations or enforcement policies, including those relating to construction and operation of new interstate gas pipelines, ratemaking to which our pipelines may be subject, or other non-environmental laws and regulations; our ability to qualify for federal income tax credits; our ability to develop low carbon business opportunities and deploy greenhouse gas reducing technologies; changes in insurance markets impacting costs and the level and types of coverage available; the timing and extent of changes in commodity prices; the success of our risk management strategies; the suspension, reduction or termination of our customers' obligations under our commercial agreements; disruptions due to equipment interruption or failure at our facilities, or third-party facilities on which our business is dependent; the effects of future litigation; and the risks described in our Annual Report on Form 10-K for the year ended December 31, 2025 and our reports and registration statements filed from time to time with the SEC.

The above list of factors is not exhaustive. New factors emerge from time to time. We cannot predict what factors may arise or how such factors may cause actual results to vary materially from those stated in forward-looking statements, see the discussion under the section entitled "Risk Factors" in our Annual Report for the year ended December 31, 2025, filed with the SEC on Form 10-K and any other reports filed with the SEC. Given the uncertainties and risk factors that could cause our actual results to differ materially from those contained in any forward-looking statement, you should not place undue reliance on any forward-looking statements.

Any forward-looking statements speak only as of the date on which such statements are made. We are under no obligation to, and expressly disclaim any obligation to, update or alter our forward-looking statements, whether as a result of new information, subsequent events or otherwise.

Third Quarter 2026 Accomplishments

Solid financial performance

- ✓ Third quarter 2026 net income of $118 million and Adjusted EBITDA[1] of $301 million
- ✓ Raising 2026 Adjusted EBITDA guidance midpoint and narrowing range to $1,185 - $1,225 million; updated midpoint represents 7% year-over-year growth[2]
- ✓ Reaffirming 2027 Adjusted EBITDA early outlook of $1,225 - $1,295 million

Executing new organic growth opportunities

- ✓ Advanced over $0.4 billion of new organic projects to FID[3], increasing the total committed backlog to 70%
- ✓ Reached FID on Midwestern pipeline "MIST S1" mainline expansion of ~300 MMcf/d
- ✓ Reached FID on pipeline lateral off Midwestern to serve new 900 MW power plant in Indiana
- ✓ Reached FID on Guardian Phase 2 Modernization

Advancing construction projects

- ✓ Received FERC approval for Guardian's rate case settlement, which recovers Guardian Phase 1 modernization investment
- ✓ Guardian "G3" pipeline expansion remains on track, with the FERC certificate order scheduled for 1H 2027

DT Midstream

1. Definition and reconciliation of Adjusted EBITDA (non-GAAP) to net income included in the appendix
2. From prior year Adjusted EBITDA original guidance midpoint
3. Final Investment Decision

DTM Provides a Distinctive Investment Opportunity

Premium, high-quality, pure play natural gas attributes compared to peers

Leading Organic Growth
$3.4B project backlog

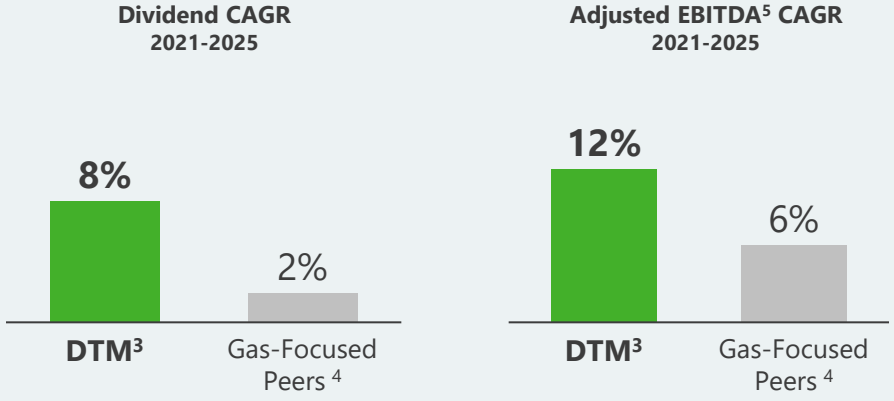

High-Quality Portfolio Mix
~70% Pipeline segment

Premier Geographic Presence
Growing power and LNG demand

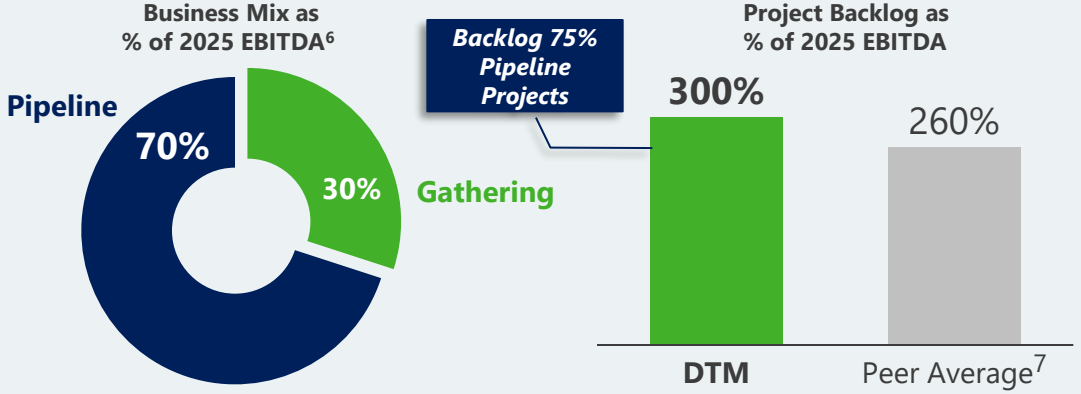

Durable Contracting
~95% demand-based contracts[1], ~8-year average[2] contract tenor

Investment Grade
2.8x on-balance sheet / 3.4x proportional 2026E YE leverage

Peer-leading Dividend and Adjusted EBITDA Growth

Differentiated Business Mix and Backlog

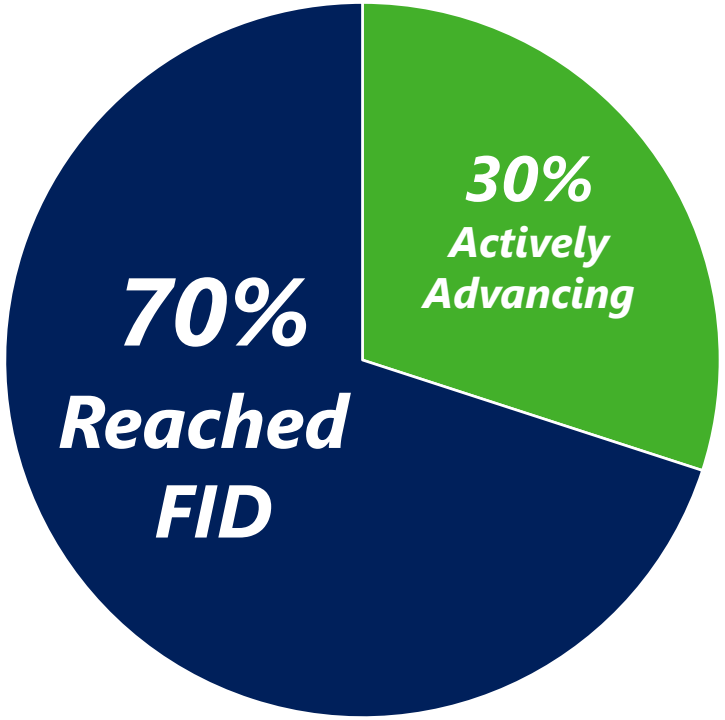

1. Represents % of 2025 revenue contribution comprised of demand, Minimum Volume Commitments (MVCs) or flowing gas/proved developed producing reserves
2. Overall portfolio weighted average contract tenor as of 12/31/2025
3. DTM 2025 dividend based on annualized Q1 2025 Board-approved dividend ($0.82/share); DTM 2021-2025 Adjusted EBITDA CAGR based on 2021 original guidance to 2025 actual
4. Peer average of gas-focused peers (WMB, KMI, AM, TRP, ENB)
5. Definition and reconciliation of Adjusted EBITDA (non-GAAP) to net income included in the appendix
6. Represents 2025 Pipeline and Gathering segment Adjusted EBITDA contributions
7. Peer average includes WMB, KMI, TRP, ENB; Source: Peer company filings as of 2/13/2026

Executing on ~$3.4 billion Organic Project Backlog over 2026-2030

Reached FID on ~70% of project backlog with $0.8 billion committed in nine months

~$3.4 billion[1]

Capital Project Backlog

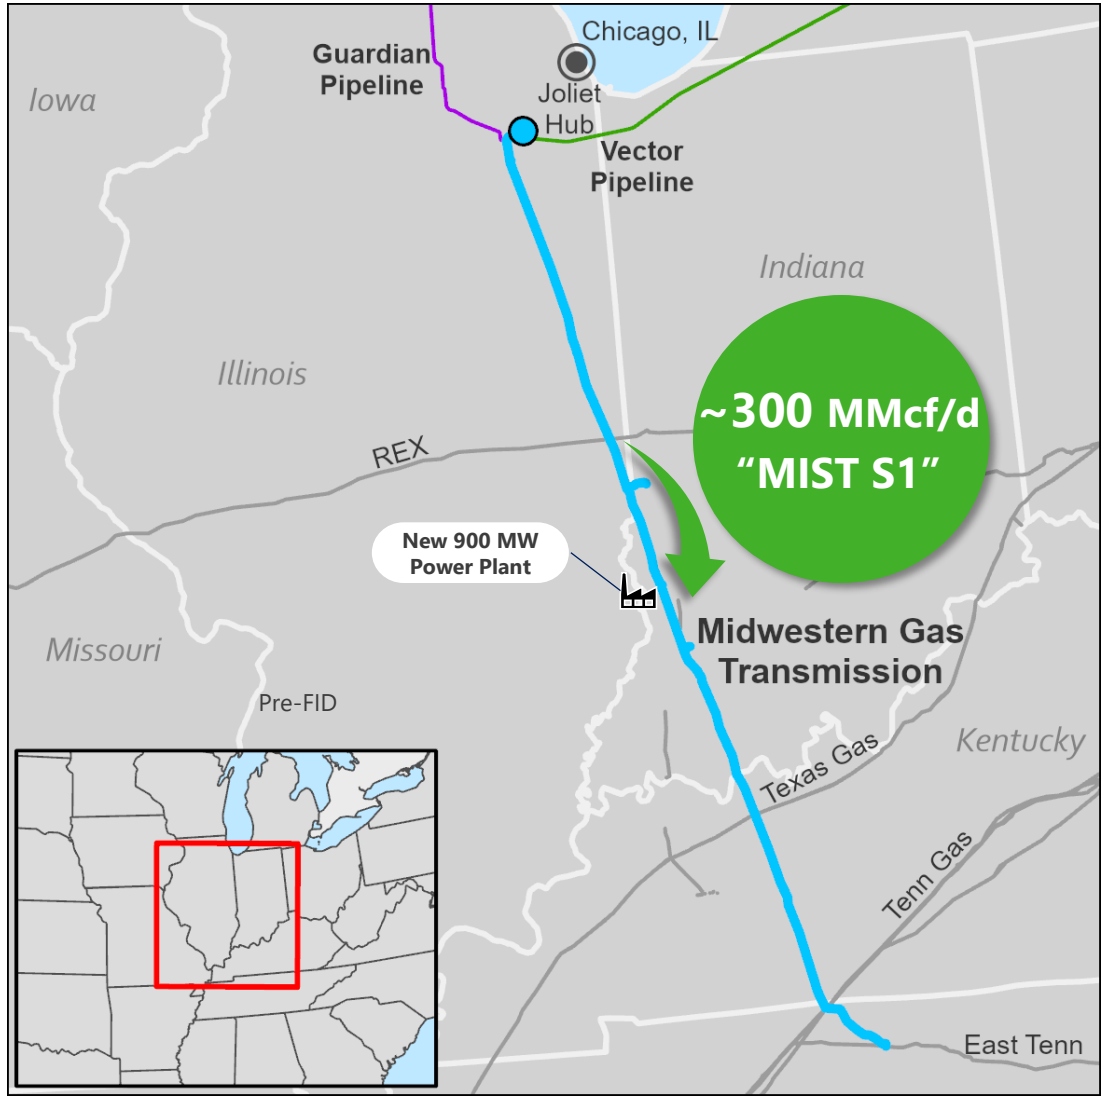

Projects at 5-8x build multiples

- **~$2.4 billion total committed**
- **~$0.4 billion committed in Q3 2026**
- **>80% of total commitments in pipeline segment**

1. Represents 2026-2030 probability-weighted capex

Reached FID on Midwestern MIST S1 Expansion and New Lateral

Serving incremental power generation demand in southern Indiana

MIST S1 Mainline Expansion

- ~300 MMcf/d expansion with expected Q4 2029 in-service date
- Expansion will be completed via a combination of compression and looping
- Anchored by precedent agreements with investment-grade utilities
  - 20-year contract terms
  - Negotiated rates

Power Plant Lateral

- Pipeline lateral serving new 900 MW power plant in Indiana
  - 1H 2028 expected lateral pipeline in-service date
- Supported by 20-year, demand-based contract with a utility offtaker

$275 to $325 million combined capital investment[1] at ~5.5-6.5x build multiple

1. Includes Allowance for Funds Used During Construction (AFUDC)

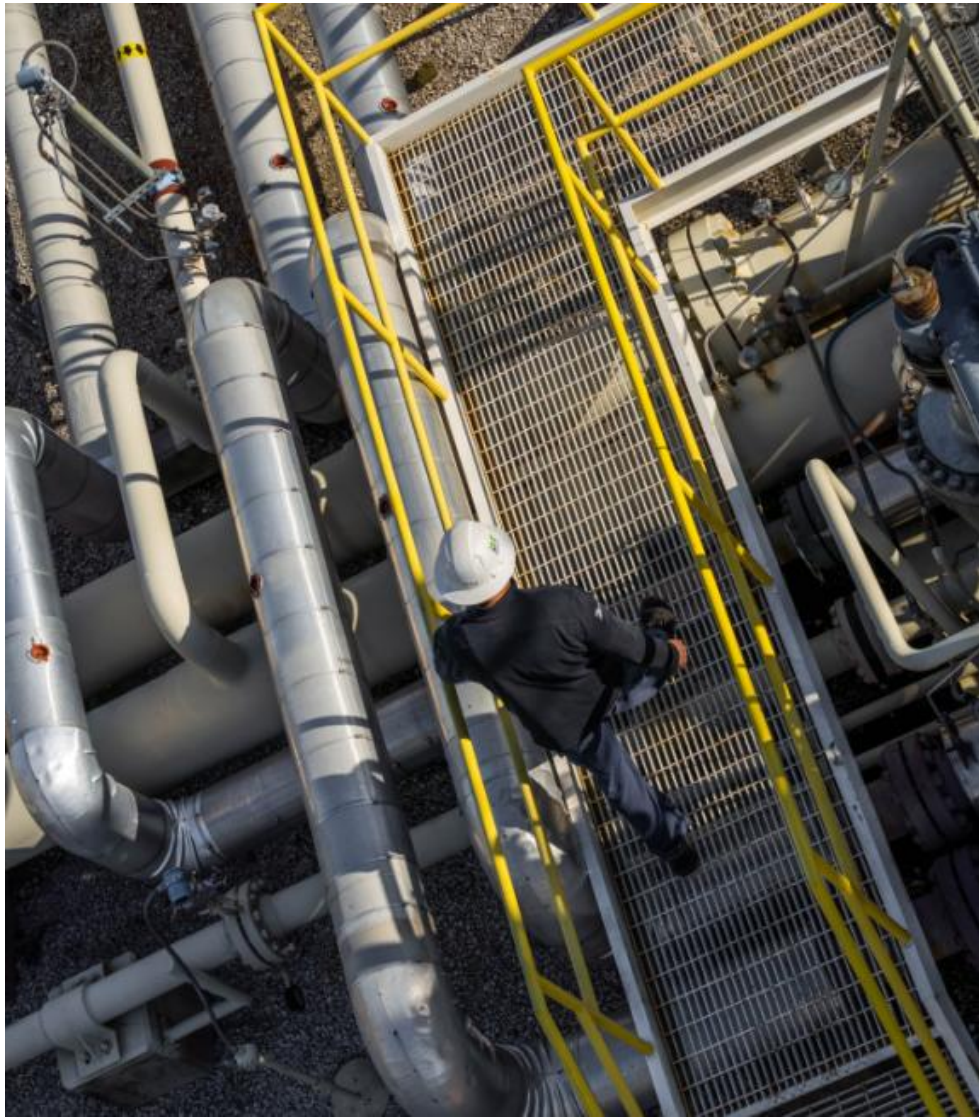

Guardian Phase 2 Modernization Reaches FID

Continuing investment in modernization projects to enhance system efficiency and reliability

Disciplined investment supports long-term pipeline performance

Project	Capital investment	Expected in service
Guardian Phase 1	$130 - $150M	2H 2027
Midwestern Phase 1	$140 - $160M	1H 2028
Viking Phase 1	$140 - $160M	Q4 2028
Guardian Phase 2	**$130 - $150M**	**Q3 2030**

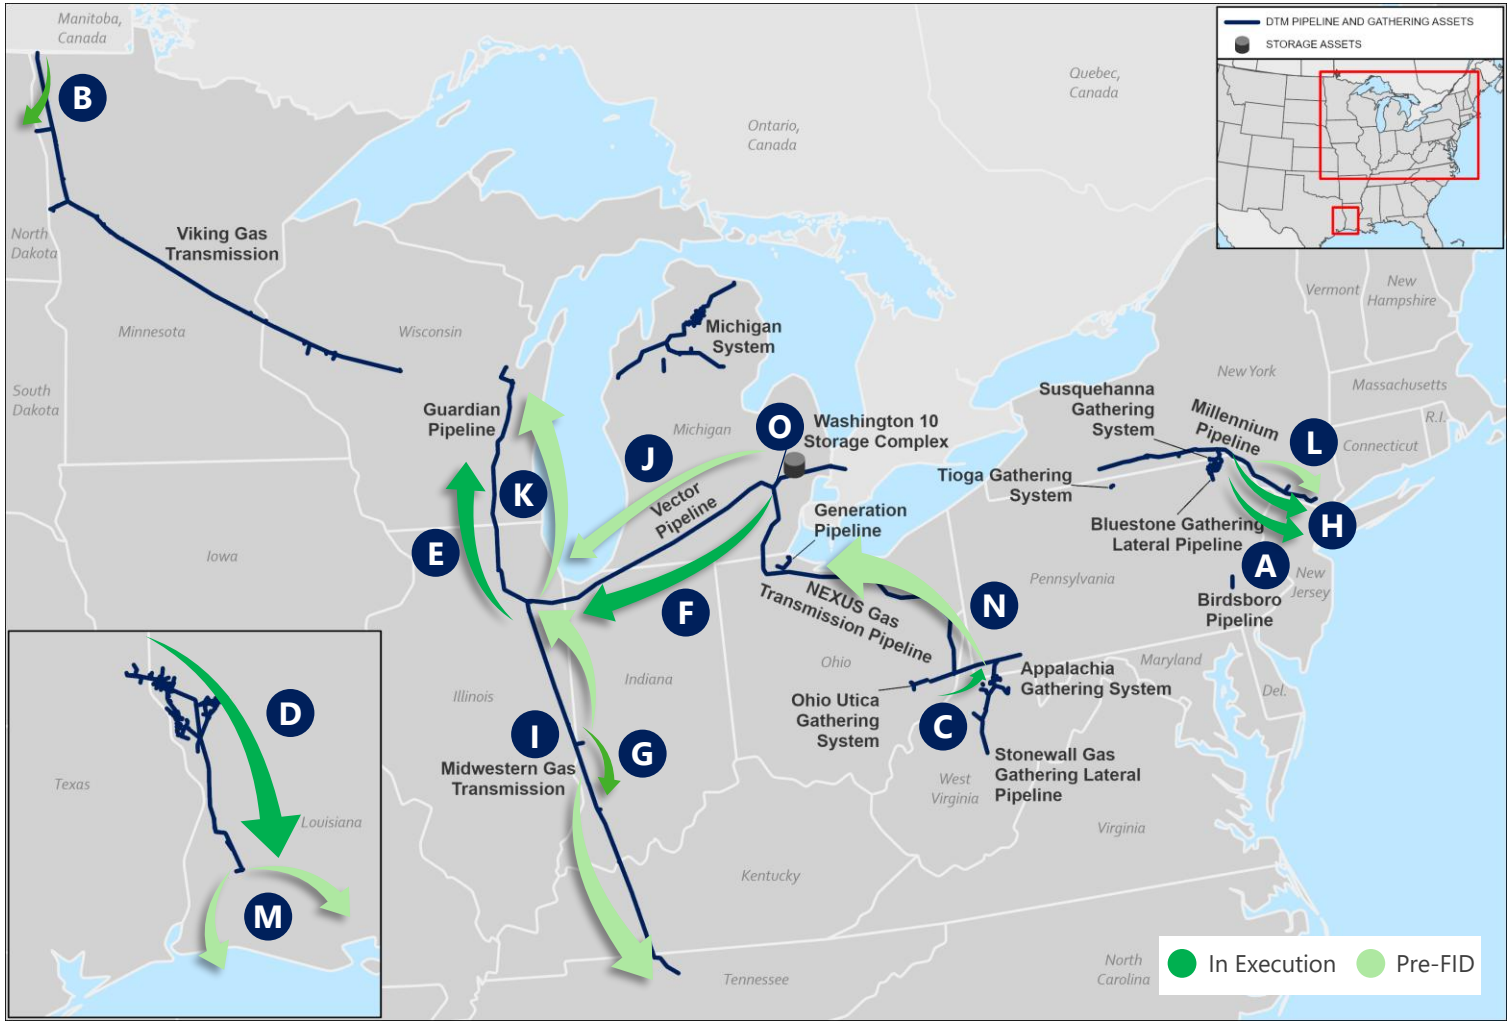

- Capital investment will be recovered in pipeline rate cases
- Received FERC approval for Guardian's rate case settlement, which recovers Guardian Phase 1 modernization investment

Guidance Updates Reflect Strong Year-to-Date Performance

Raising 2026 Adjusted EBITDA and Distributable Cash Flow guidance

(millions, except EPS)	Prior Guidance	Updated Guidance
2026 Adjusted EBITDA[1]	$1,155 - $1,225	**$1,185 - $1,225** ↑
2026 Operating Earnings[2]	$455 - $495	**$460 - $490**
2026 Operating EPS[2]	$4.42 - $4.82	**$4.47 - $4.77**
2026 Distributable Cash Flow[3]	$830 - $890	**$860 - $890** ↑
2026 Capital Investment[4]	$490 - $570	**$450 - $510** ↓
Growth Capital	$420 - $480	**$375 - $425** ↓
Maintenance Capital	$70 - $90	**$75 - $85**
2027 Adjusted EBITDA (early outlook)	$1,225 - $1,295	$1,225 - $1,295

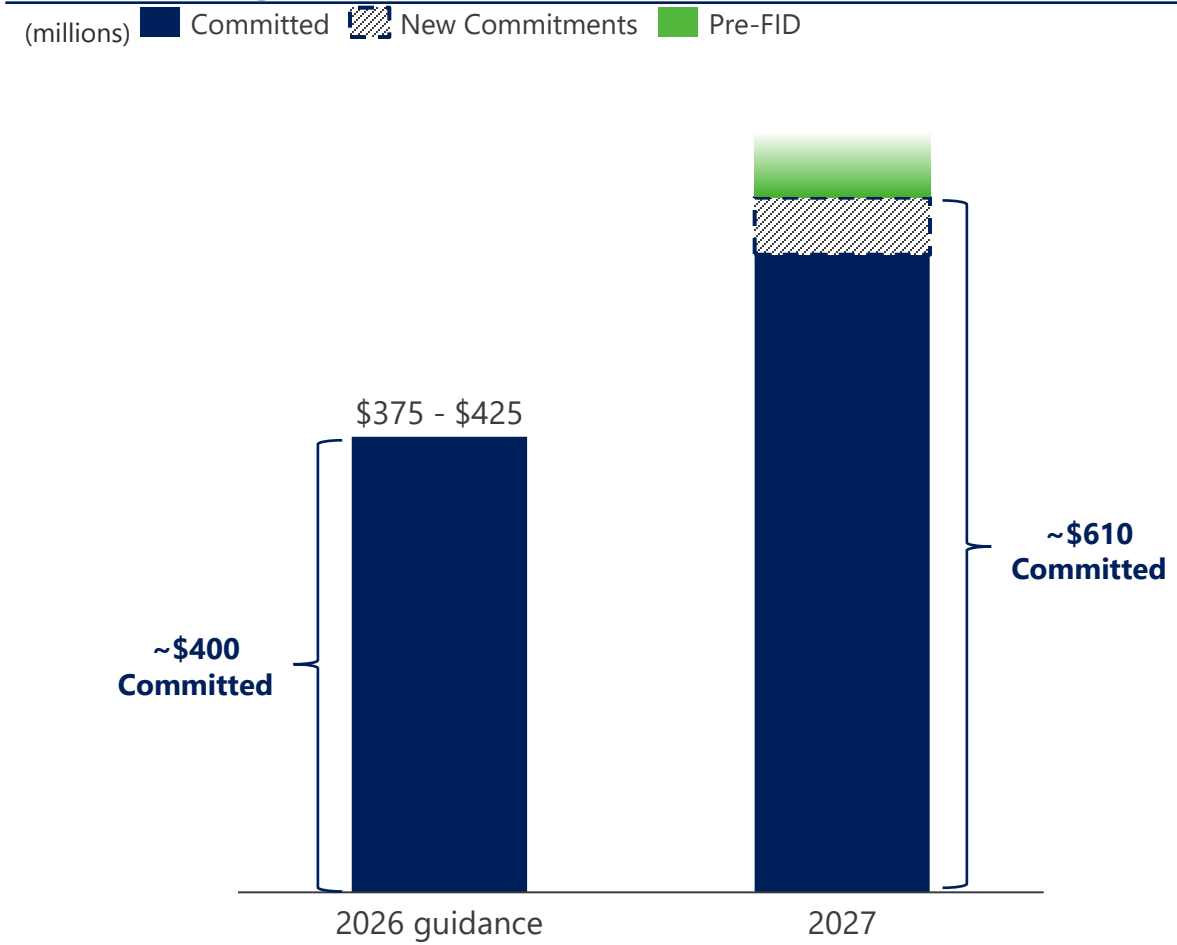

1. Definition and reconciliation of Adjusted EBITDA (non-GAAP) to net income included in the appendix
2. Definition and reconciliation of Operating Earnings and Operating Earnings per Share (non-GAAP) to reported earnings included in the appendix; EPS calculation based on average share count of approximately 103 million shares outstanding - diluted
3. Definition and reconciliation of Distributable Cash Flow (non-GAAP) to net income included in the appendix
4. Includes contribution to equity method investees

DT Midstream

2026 Capital Plan is Committed and 2027 is Advancing

Capital efficiency lowering 2026 Growth Capital guidance by over 10%

Growth capex

Organic, demand-driven, capital investments

- Increasing 2027 committed capital to reflect new investments
- Total committed investments of ~$1.0 billion over 2026 and 2027
- ~$2.4 billion of projects have reached FID through 2030

Quarterly Financial Results

(millions, except EPS)	Three months ended		Key drivers
	September 30, 2026	**June 30, 2026**	
Adjusted EBITDA[1]	**$301**	$305	
Pipeline segment	**$202**	$200	• Higher revenue on joint venture pipelines
Gathering segment	**$99**	$105	• Lower Northeast volumes in Q3
Operating Earnings[2]	**$118**	$112	• Higher one-time income tax expense in Q2
Operating EPS[2]	**$1.16**	$1.09	
Distributable Cash Flow[3]	**$270**	$174	• Cash interest expense in Q2
Growth Capital[4]	**$79**	$86	
Maintenance Capital	**$19**	$24	

1. Definition and reconciliation of Adjusted EBITDA (non-GAAP) to net income included in the appendix
2. Definition and reconciliation of Operating Earnings and Operating Earnings per Share (non-GAAP) to reported earnings included in the appendix; EPS calculation based on average share count of approximately 103 million shares outstanding – diluted on September 30, 2026 and June 30, 2026
3. Definition and reconciliation of Distributable Cash Flow (non-GAAP) included in the appendix
4. Includes contribution to equity method investees and excludes equity AFUDC

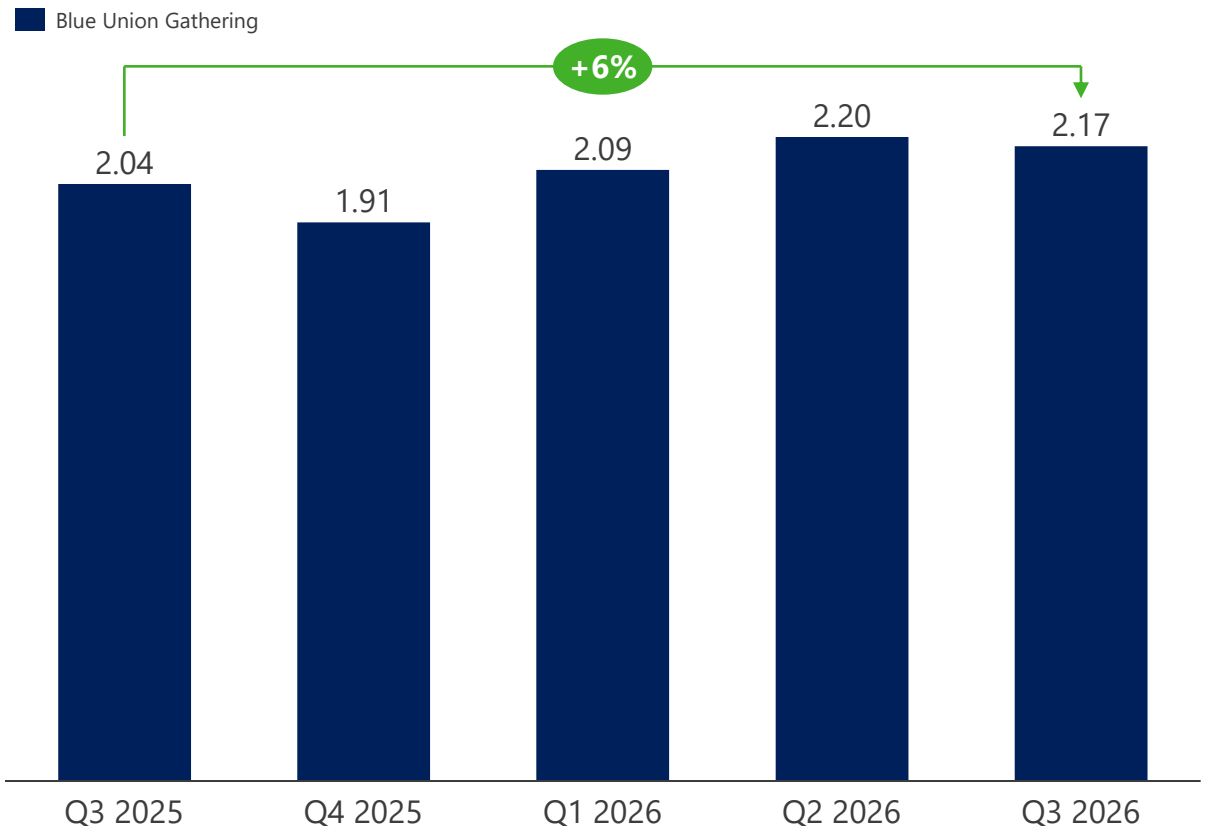

Appendix

Gathering Volume Summary

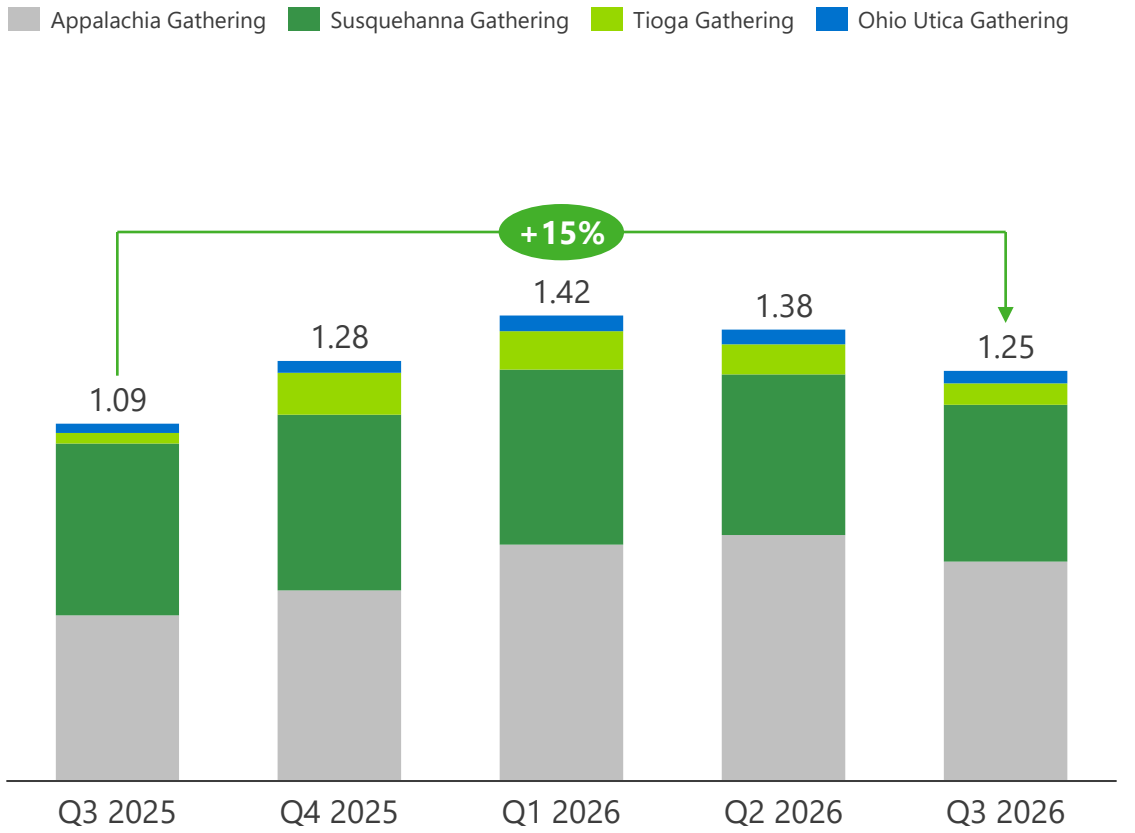

Strong year-over-year volume growth across Haynesville and Appalachia in Q3

(bcf/d)

Haynesville throughput

Northeast throughput

- Producer curtailments driving lower expected volumes for Q4 2026 compared to Q3 2026

Key Growth Investment Projects in Progress

Continuing track record of completing growth investments on time and on budget

Projects in Execution[1]	Expected in-service dates
Millennium Pipeline R2R	Q1 2027
Guardian Pipeline Phase 1 Modernization	2H 2027
Viking Gas Transmission expansion	Q4 2027
Appalachia Gathering System expansion	Q4 2027
Midwestern Gas Transmission Phase 1 Modernization	1H 2028
Midwestern Gas Transmission power plant lateral – **New**	1H 2028
LEAP Phase 5 expansion	2H 2028
Viking Gas Transmission Phase 1 Modernization	Q4 2028
Guardian Pipeline "G3" expansion	Q4 2028
Vector Pipeline 2028 expansion	Q4 2028
Midwestern Gas Transmission "MIST S1" expansion – **New**	Q4 2029
Guardian Pipeline Phase 2 Modernization – **New**	Q3 2030

In progress project updates

- Reached FID on MIST S1, Midwestern power plant lateral, and Guardian Phase 2 Modernization
- Received FERC approval for Guardian's rate case settlement, which recovers Guardian Phase 1 modernization investment
- Guardian "G3" FERC certificate order scheduled for 1H 2027
- All other projects remain on schedule and on budget

1. Key growth projects that have reached FID

Executing Haynesville System Expansion

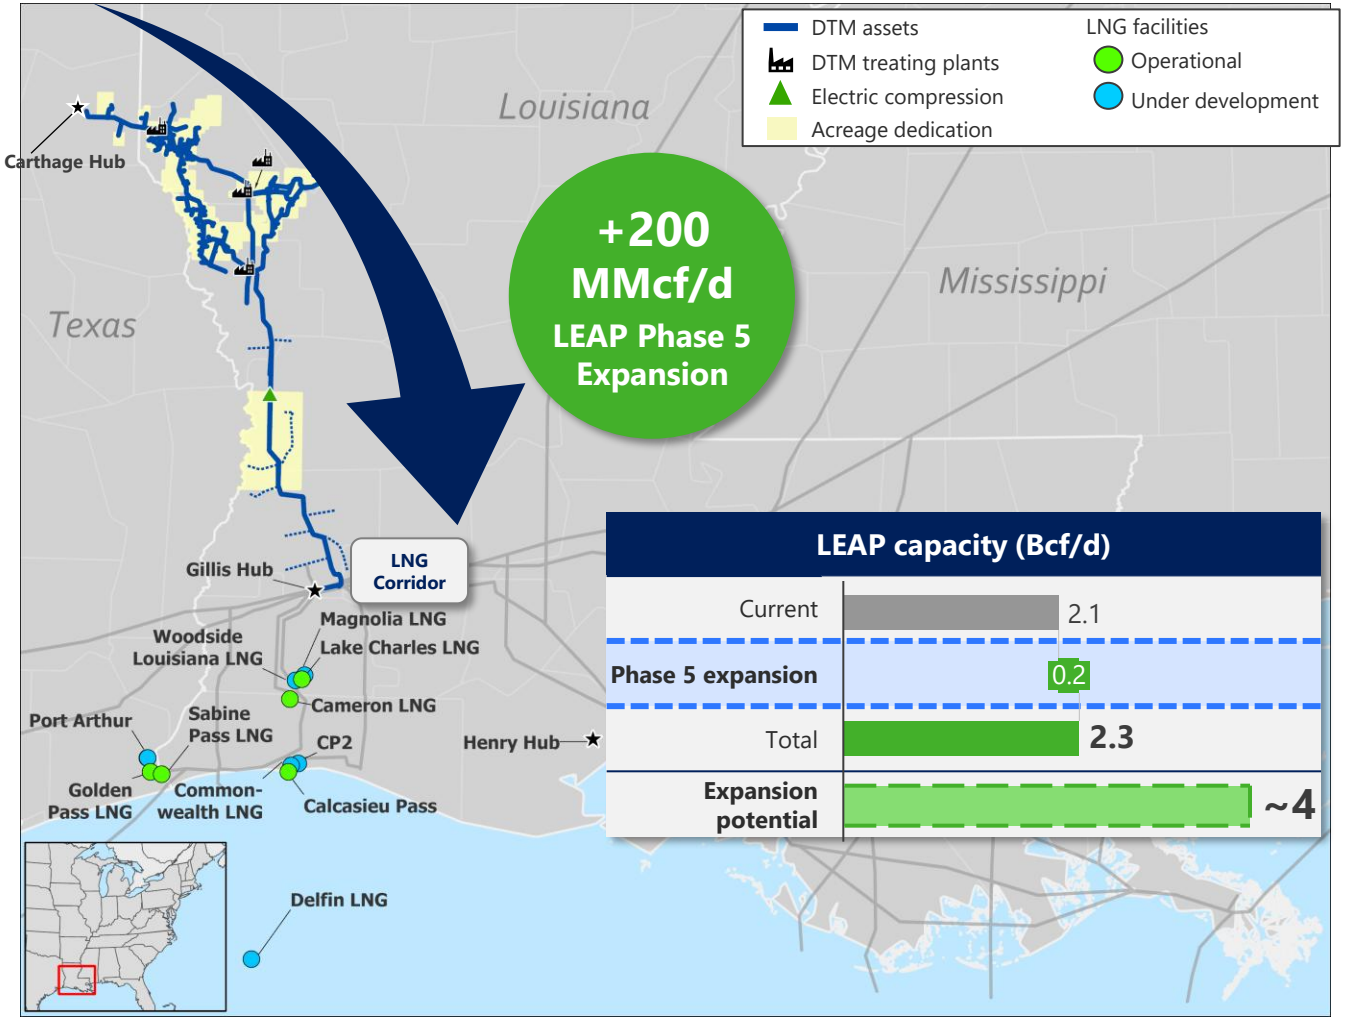

Premier supply optionality and Gulf Coast market access drive continued expansions

Increasing Haynesville System supply access

- Long-term agreements with two producers
- Incremental East Texas connectivity in Carthage area expands access to growing producer activity

LEAP Phase 5 expansion increases total capacity to 2.3 Bcf/d

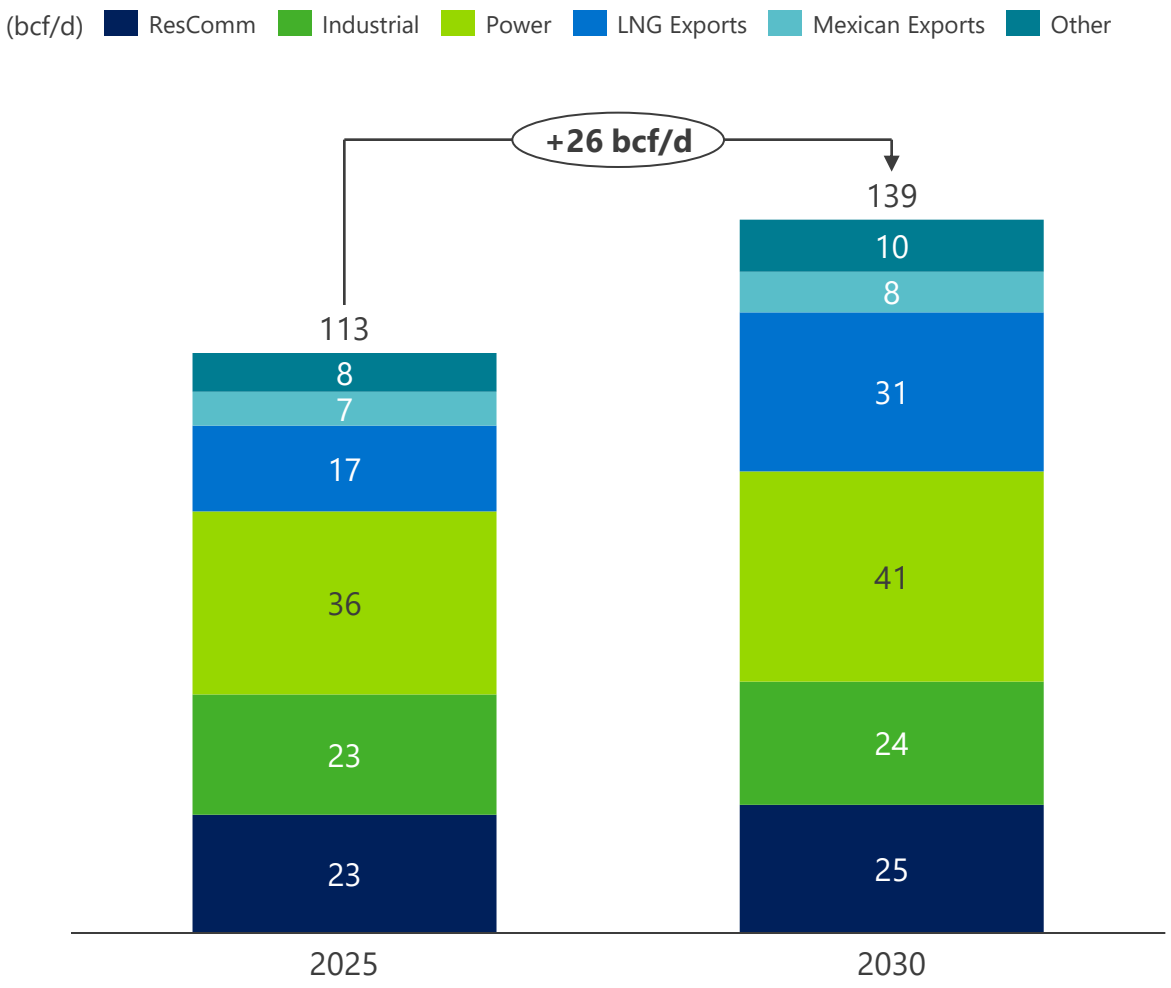

- 200 MMcf/d expansion with expected 2H 2028 in-service date
- Project entails incremental compression and looping
- Underpinned by long-term, demand-based contract
- LEAP can be further expanded to ~4 Bcf/d to serve growing Gulf Coast LNG and industrial corridor demand

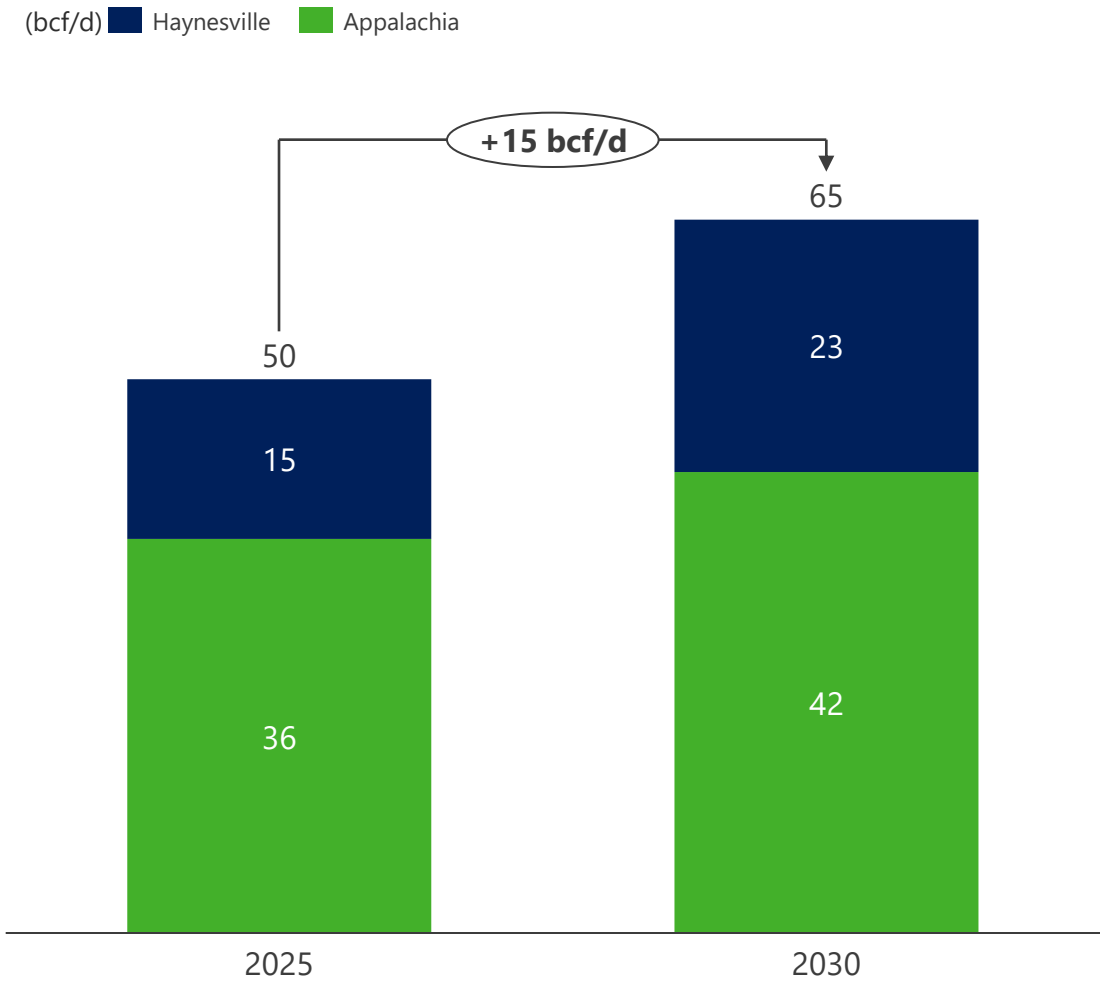

Strong U.S. Demand and Production Fundamentals

Over half of demand growth will be served by Haynesville and Appalachia production

DT Midstream

Non-GAAP Definitions

Adjusted EBITDA and Distributable Cash Flow (DCF) are non-GAAP measures

Adjusted EBITDA is defined as GAAP net income attributable to DT Midstream before expenses for interest, taxes, depreciation and amortization, and gains or losses from financing activities, further adjusted to include our proportional share of net income from our equity method investees (excluding interest, taxes, depreciation and amortization), and to exclude certain items we consider non-routine. We believe Adjusted EBITDA is useful to us and external users of our financial statements in understanding our operating results and the ongoing performance of our underlying business because it allows our management and investors to have a better understanding of our actual operating performance unaffected by the impact of interest, taxes, depreciation, amortization and non-routine charges noted in the table below. We believe the presentation of Adjusted EBITDA is meaningful to investors because it is frequently used by analysts, investors and other interested parties in our industry to evaluate a company's operating performance without regard to items excluded from the calculation of such measure, which can vary substantially from company to company depending on accounting methods, book value of assets, capital structure and the method by which assets were acquired, among other factors. We use Adjusted EBITDA to assess our performance by reportable segment and as a basis for strategic planning and forecasting.

Distributable Cash Flow (DCF) is calculated by deducting earnings from equity method investees, depreciation and amortization attributable to noncontrolling interests, cash interest expense, maintenance capital investment (as defined below), and cash taxes from, and adding interest expense, income tax expense, depreciation and amortization, and dividends and distributions from equity method investees to, Net Income Attributable to DT Midstream, further adjusted for certain items we consider non-routine and other non-cash items. Maintenance capital investment is defined as the total capital expenditures used to maintain or preserve assets or fulfill contractual obligations that do not generate incremental earnings. We believe DCF is a meaningful performance measurement because it is useful to us and external users of our financial statements in estimating the ability of our assets to generate cash earnings after servicing our debt, paying cash taxes and making maintenance capital investments, which could be used for discretionary purposes such as common stock dividends, retirement of debt or expansion capital expenditures.

Adjusted EBITDA and DCF are not measures calculated in accordance with GAAP and should be viewed as a supplement to and not a substitute for the results of operations presented in accordance with GAAP. There are significant limitations to using Adjusted EBITDA and DCF as a measure of performance, including the inability to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss. Additionally, because Adjusted EBITDA and DCF exclude some, but not all, items that affect net income and are defined differently by different companies in our industry, Adjusted EBITDA and DCF do not intend to represent net income attributable to DT Midstream, the most comparable GAAP measure, as an indicator of operating performance and are not necessarily comparable to similarly titled measures reported by other companies.

Reconciliation of net income attributable to DT Midstream to Adjusted EBITDA or DCF as projected for full-year 2026 or 2027 is not provided. We do not forecast net income as we cannot, without unreasonable efforts, estimate or predict with certainty the components of net income. These components, net of tax, may include, but are not limited to, impairments of assets and other charges, divestiture costs, acquisition costs, or changes in accounting principles. All of these components could significantly impact such financial measures. At this time, management is not able to estimate the aggregate impact, if any, of these items on future period reported earnings. Accordingly, we are not able to provide a corresponding GAAP equivalent for Adjusted EBITDA or DCF.

Non-GAAP Definitions

Operating Earnings and Operating Earnings per share are non-GAAP measures

Use of Operating Earnings Information – Operating Earnings exclude non-recurring items, certain mark-to-market adjustments and discontinued operations. DT Midstream management believes that Operating Earnings provide a more meaningful representation of the company's earnings from ongoing operations and uses Operating Earnings as the primary performance measurement for external communications with analysts and investors. Internally, DT Midstream uses Operating Earnings to measure performance against budget and to report to the Board of Directors.

In this presentation, DT Midstream provides guidance for future period Operating Earnings. It is likely that certain items that impact the company's future period reported results will be excluded from operating results. A reconciliation to the comparable future period reported earnings is not provided because it is not possible to provide a reliable forecast of specific line items (i.e., future non-recurring items, certain mark-to-market adjustments and discontinued operations). These items may fluctuate significantly from period to period and may have a significant impact on reported earnings.

Non-GAAP Reconciliations
