CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

The financial results in this document reflect preliminary, unaudited results, which are not final until the Company's Quarterly Report on Form 10-Q is filed. With the exception of historical information, certain statements contained or incorporated by reference herein may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), such as those pertaining to our guidance, our capital resources and liquidity, our pursuit of growth opportunities, the timing of transaction closings and investment spending, our ongoing negotiations to exit from certain joint ventures or the ultimate terms of any such exit, our expected cash flows, the performance of our customers, our expected cash collections and our results of operations and financial condition. Forward-looking statements involve numerous risks and uncertainties, and you should not rely on them as predictions of actual events. There is no assurance that the events or circumstances reflected in the forward-looking statements will occur. You can identify forward-looking statements by use of words such as "will be," "intend," "continue," "believe," "may," "expect," "hope," "anticipate," "goal," "forecast," "pipeline," "estimates," "offers," "plans," "would" or other similar expressions or other comparable terms or discussions of strategy, plans or intentions contained or incorporated by reference herein. Forward-looking statements necessarily are dependent on assumptions, data or methods that may be incorrect or imprecise. These forward-looking statements represent our intentions, plans, expectations and beliefs and are subject to numerous assumptions, risks and uncertainties. Many of the factors that will determine these items are beyond our ability to control or predict. For further discussion of these factors see "Item 1A. Risk Factors" in our most recent Annual Report on Form 10-K and, to the extent applicable, our Quarterly Reports on Form 10-Q.

For these statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. You are cautioned not to place undue reliance on our forward-looking statements, which speak only as of the date hereof or the date of any document incorporated by reference herein. All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. Except as required by law, we do not undertake any obligation to release publicly any revisions to our forward-looking statements to reflect events or circumstances after the date hereof.

NON-GAAP INFORMATION

This document contains certain non-GAAP measures. These non-GAAP measures, as calculated by the Company, are not necessarily comparable to similarly titled measures reported by other companies. Additionally, these non-GAAP measures are not measurements of financial performance or liquidity under GAAP and should not be considered alternatives to the Company's other financial information determined under GAAP. See pages 24 through 26 for definitions of certain non-GAAP financial measures used in this document and the reconciliations of certain non-GAAP measures on pages 9 and 10 and in the Appendix on pages 27 through 31.

COMPANY PROFILE

THE COMPANY

EPR Properties ("we," "us," "our," "EPR" or the "Company") is a self-administered and self-managed real estate investment trust. EPR was formed in August 1997 as a Maryland real estate investment trust ("REIT"), and an initial public offering was completed on November 18, 1997.

Since that time, the Company has been a leading Experiential net lease REIT, specializing in select enduring experiential properties. We are focused on growing our Experiential portfolio with properties that offer a variety of enduring, congregate entertainment, recreation and leisure activities. Separately, our Education portfolio is a legacy investment that provides additional geographic and operator diversity.

EXPERIENTIAL PORTFOLIO

- Theatres
- Eat & Play
- Ski
- Attractions
- Experiential Lodging
- Gaming
- Fitness & Wellness
- Cultural
- Live Venues

EDUCATION PORTFOLIO

COMPANY STRATEGY

Our primary business objective is to enhance shareholder value by achieving predictable growth in Funds from Operations As Adjusted ("FFOAA") and dividends per share.

Our strategic growth is focused on acquiring or developing a diversified portfolio of experiential real estate venues which create value by facilitating out-of-home congregate entertainment, recreation and leisure experiences where consumers choose to spend their discretionary time and money. This strategy is driven by the long-term trends of the growing experience economy.

This focus is consistent with our depth of knowledge across each of our property types, creating a competitive advantage that allows us to more quickly identify key market trends. We deliberately apply information and our ingenuity to target properties that represent logical extensions within each of our existing property types or potential future investments.

As part of our strategic planning and portfolio management process we assess new opportunities against the following underwriting principles:

BUILDING THE PREMIER EXPERIENTIAL REAL ESTATE PORTFOLIO

Proforma net debt/Annualized adjusted EBITDAre ratio (1) (5)	4.9	n/a		

(1) See pages 24 through 26 for definitions. See calculation on page 30, as applicable.

(2) Represents proforma adjustment for estimated net proceeds from forward sale agreements that have not settled as if they had been physically settled for cash as of the date presented.

(3) See calculation on page 15.

(4) Adjusted EBITDAre in this calculation is for the three-month period multiplied by four. See pages 24 through 26 for definitions. See calculation on page 30.

(5) Annualized adjusted EBITDAre is adjusted EBITDAre for the quarter further adjusted for in-service and disposed projects, percentage rent and participating interest and other items, which is then multiplied by four. These calculations can be found on page 30 under the reconciliation of Adjusted EBITDAre and Annualized Adjusted EBITDAre. See pages 24 through 26 for definitions.

(2) During the three months ended September 30, 2026, the Company entered into a Fifth Amended, Restated and Consolidated Credit Agreement (the "Amended Credit Agreement") governing its \$1.0 billion senior unsecured revolving credit facility and a new \$600.0 million senior unsecured delayed draw term loan facility. The Amended Credit Agreement, among other things, extended the maturity date of the revolver to July 17, 2030, with two six-month extension options, subject to the payment of additional fees and the satisfaction of customary conditions and generally reduced the interest rate payable on outstanding loans by five basis points. The \$600.0 million senior unsecured delayed draw term loan facility was fully drawn by the Company as of September 30, 2026. The new term loan bears interest based on the Company's credit ratings (SOFR plus 115 basis points at closing) and matures on January 17, 2032. The Amended Credit Agreement also includes a \$1.0 billion accordion feature pursuant to which the maximum borrowing amount under the combined facilities can be increased from \$1.6 billion to \$2.6 billion, in each case, subject to lender consent and customary conditions.

SENIOR NOTES

SENIOR DEBT RATINGS AS OF SEPTEMBER 30, 2026

Moody's	Baa3 (stable)
Fitch	BBB- (stable)
Standard and Poor's	BBB- (stable)

SUMMARY OF COVENANTS

The Company had outstanding public senior unsecured notes with fixed interest rates of 3.60%, 3.75%, 4.50%, 4.75% and 4.95% at September 30, 2026. Interest on these notes is paid semiannually. These public senior unsecured notes contain various covenants, including: (i) a limitation on incurrence of any debt that would cause the Company's debt to adjusted total assets ratio to exceed 60%; (ii) a limitation on incurrence of any secured debt which would cause the Company's secured debt to adjusted total assets ratio to exceed 40%; (iii) a limitation on incurrence of any debt which would cause the Company's debt service coverage ratio to be less than 1.5 times; and (iv) the maintenance at all times of total unencumbered assets of not less than 150% of the Company's outstanding unsecured debt.

The following is a summary of the key financial covenants for the Company's 3.60%, 3.75%, 4.50%, 4.75% and 4.95% public senior unsecured notes, as defined and calculated per the Company's interpretation of the terms of the notes. These calculations, which are not based on U.S. generally accepted accounting principles ("GAAP") measurements, are presented to investors to show the Company's ability to incur additional debt under the terms of the senior unsecured notes only and are not measures of the Company's liquidity or performance. The actual amounts as of September 30, 2026 and June 30, 2026 are:

NOTE COVENANTS	Required	Actual	Actual
		3rd Quarter 2026 (1)	2nd Quarter 2026 (1)
Limitation on incurrence of total debt (Total Debt/Total Assets)	≤ 60%	43%	43%
Limitation on incurrence of secured debt (Secured Debt/Total Assets)	≤ 40%	—%	—%
Limitation on incurrence of debt: Debt service coverage (Consolidated Income Available for Debt Service/Annual Debt Service) - trailing twelve months	≥ 1.5x	4.2x	4.2x
Maintenance of total unencumbered assets (Unencumbered Assets/Unsecured Debt)	≥ 150% of unsecured debt	232%	232%

(1) See page 14 for details of calculations.

AFFO payout ratio (7)	60%	65%	70%	67%	64%	70%

(1) See pages 24 through 26 for definitions. See prior period supplementals for detailed calculations, as applicable.

(2) Adjusted EBITDAre is for the quarter multiplied by four. See calculation on page 30.

(3) Annualized adjusted EBITDAre is adjusted EBITDAre for the quarter further adjusted for in-service and disposed projects, percentage rent and participating interest and other items which is then multiplied by four. These calculations can be found on page 30 under the reconciliation of Adjusted EBITDAre and Annualized Adjusted EBITDAre. See pages 24 through 26 for definitions.

(4) See page 28 for detailed calculation.

(5) FFO payout ratio is calculated by dividing dividends declared per common share by FFO per diluted common share.

(6) FFO as adjusted payout ratio is calculated by dividing dividends declared per common share by FFO as adjusted per diluted common share.

(7) AFFO payout ratio is calculated by dividing dividends declared per common share by AFFO per diluted common share. See pages 25 and 26 for a change to the Company's definition and calculation of AFFO. The Company has recast AFFO for all periods presented to reflect this change.

	MORTGAGE NOTES RECEIVABLE	# OF PROJECTS	4TH QUARTER 2026	1ST QUARTER 2027	2ND QUARTER 2027	3RD QUARTER 2027	THEREAFTER	TOTAL EXPECTED COSTS (2)
Total Build-to-Suit Mortgage Notes	\$ 167,011	3	\$ 18,432	\$ 63,982	\$ —	\$ 18,482	\$ —	\$ 267,907
Non-Build-to-Suit Mortgage Notes	472,607							
Total Mortgage Notes Receivable	\$ 639,618							

(1) This schedule includes only those properties for which the Company has commenced construction as of September 30, 2026.
(2) "Total Expected Costs" and "Total In-Service" each reflect the total capital costs expected to be funded by the Company through completion (including capitalized interest or accrued interest, as applicable).
Note: This schedule includes future estimates for which the Company can give no assurance as to timing or amounts. Development projects have risks. See Item 1A - "Risk Factors" in the Company's most recent Annual Report on Form 10-K and, to the extent applicable, the Company's Quarterly Reports on Form 10-Q.

PORTFOLIO DETAIL AS OF SEPTEMBER 30, 2026

(UNAUDITED)

PROPERTY TYPE	PROPERTIES	OPERATORS	ANNUALIZED BASE REVENUE (ABR) (1)	STRATEGIC FOCUS
Theatres (2) (4)	148	17	34 %	Reduce
Eat & Play	62	8 (3)	25 %	Grow
Attractions	35	10	16 %	Grow
Ski	11	3	7 %	Grow
Experiential Lodging (5)	5	5	1 %	Grow
Fitness & Wellness	32	15	10 %	Grow
Gaming	1	1	2 %	Grow
Cultural	1	1	1 %	Grow
Live Venues	1	1	— %	Grow
EXPERIENTIAL PORTFOLIO	296	61	96 %	
EDUCATION PORTFOLIO	54	4	4 %	Reduce
TOTAL PORTFOLIO	350	65	100 %	

(1) ABR represents annualized base revenue for all leases that have commenced and annualized cash interest for all executed mortgage notes receivable as of the balance sheet date. ABR excludes ground lease base rent paid by the Company's tenants for ground lease payments where the Company is the lessee.

(2) Excludes seven theatres located in Entertainment districts (included in Eat & Play).

(3) Excludes non-theatre operators at Entertainment districts.

(4) Includes one vacant theatre property that the Company intends to sell.

(5) Excludes one experiential lodging property held in unconsolidated joint ventures. The Company is working in good faith with its joint venture partners, the non-recourse debt provider and insurance companies with respect to this property to identify a path forward that the Company expects will result in the eventual removal of this property from the Company's portfolio. Accordingly, the carrying value of the investment in these joint ventures was zero at September 30, 2026.

LEASE EXPIRATIONS

FFO as adjusted (FFOAA) available to common shareholders of EPR Properties	\$4.16	\$5.49	to	\$5.57	

(1) Other income and other expense consist primarily of results from the Company's properties operated through third-party managers.

Note: This schedule includes future estimates for which the Company can give no assurance as to timing or amounts. See cautionary statement concerning forward-looking statements on page 3.

DEFINITIONS - NON-GAAP FINANCIAL MEASURES

EBITDAre

The National Association of Real Estate Investment Trusts (“NAREIT”) developed EBITDAre as a relative non-GAAP financial measure of REITs, independent of a company's capital structure, to provide a uniform basis to measure the enterprise value of a company. Pursuant to the definition of EBITDAre by the Board of Governors of NAREIT, the Company calculates EBITDAre as net income, computed in accordance with GAAP, excluding interest expense (net), income tax expense (benefit), depreciation and amortization, gains and losses on real estate transactions, impairment losses on real estate, costs associated with loan refinancing or payoff and adjustments for unconsolidated partnerships, joint ventures and other affiliates. Management provides EBITDAre herein because it believes this information is useful to investors as a supplemental performance measure because it can help facilitate comparisons of operating performance between periods and with other REITs. The Company's method of calculating EBITDAre may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. EBITDAre is not a measure of performance under GAAP, does not represent cash generated from operations as defined by GAAP and is not indicative of cash available to fund all cash needs, including distributions. This measure should not be considered an alternative to net income or any other GAAP measure as a measurement of the results of the Company's operations or cash flows or liquidity as defined by GAAP.

ADJUSTED EBITDAre AND ANNUALIZED ADJUSTED EBITDAre

Management uses Adjusted EBITDAre in its analysis of the performance of the business and operations of the Company. Management believes Adjusted EBITDAre is useful to investors because it excludes various items that management believes are not indicative of operating performance, and because it is an informative measure to use in computing various financial ratios to evaluate the Company. The Company defines Adjusted EBITDAre as EBITDAre (defined above) for the quarter excluding sale participation income, gain on insurance recovery, retirement and severance expense, transaction costs, provision (benefit) for credit losses, net, impairment losses on operating lease right-of-use assets and prepayment fees. This number for the quarter is then multiplied by four to get an annual amount. Annualized Adjusted EBITDAre is Adjusted EBITDAre further adjusted to reflect (1) in-service and disposed projects (2) property under development that is build-to-suit at the initial cash yields of the projects upon completion (3) removal of other non-recurring items including out-of-period deferrals and stub rent payments and (4) annualization of the following items to ultimately reflect the financial results of the trailing twelve months or midpoint of guidance: (i) percentage rent and participating interest income and (ii) adjusted EBITDAre of managed properties and joint ventures.

The Company's method of calculating Adjusted EBITDAre and Annualized Adjusted EBITDAre may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. Adjusted EBITDAre and Annualized Adjusted EBITDAre are not measures of performance under GAAP, do not represent cash generated from operations as defined by GAAP and are not indicative of cash available to fund all cash needs, including distributions. These measures should not be considered as an alternative to net income or any other GAAP measure as a measurement of the results of the Company's operations or cash flows or liquidity as defined by GAAP.

NET DEBT AND PROFORMA NET DEBT

Net Debt represents debt (reported in accordance with GAAP) adjusted to exclude deferred financing costs, net and reduced by cash and cash equivalents. By excluding deferred financing costs, net, and reducing debt for cash and cash equivalents on hand, the result provides an estimate of the contractual amount of borrowed capital to be repaid, net of cash available to repay it. Proforma Net Debt is presented by subtracting the estimated net proceeds from forward sale agreements under the Company's ATM Program from Net Debt. The Company believes both of these calculations constitute beneficial supplemental non-GAAP financial disclosures to investors in understanding its financial condition. The Company's method of calculating Net Debt and Proforma Net Debt may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

NET DEBT TO ADJUSTED EBITDAre RATIO, PROFORMA NET DEBT TO ADJUSTED EBITDAre RATIO, NET DEBT TO GROSS ASSETS RATIO, PROFORMA NET DEBT TO GROSS ASSETS RATIO AND NET DEBT TO TOTAL MARKET CAPITALIZATION RATIO

Net Debt to Adjusted EBITDAre Ratio, Proforma Net Debt to Adjusted EBITDAre Ratio, Net Debt to Gross Assets Ratio, Proforma Net Debt to Gross Assets Ratio and Net Debt to Total Market Capitalization Ratio are supplemental measures derived from non-GAAP financial measures that the Company uses to evaluate its capital structure and the magnitude of its debt against its operating performance. The Company believes that investors commonly use versions of these ratios in a similar manner. In addition, financial institutions use versions of these ratios in connection with debt agreements to set pricing and covenant limitations. The Company's method of calculating Net Debt to Adjusted EBITDAre Ratio, Proforma Net Debt to Adjusted EBITDAre Ratio, Net Debt to Gross Assets Ratio, Proforma Net Debt to Gross Assets Ratio and Net Debt to Total Market Capitalization Ratio may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

FUNDS FROM OPERATIONS (“FFO”) AND FFO AS ADJUSTED

NAREIT developed FFO as a relative non-GAAP financial measure of performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP and management provides FFO herein because it believes this information is useful to investors in this regard. FFO is a widely used measure of the operating performance of real estate companies and is provided here as a supplemental measure to GAAP net income available to common shareholders and earnings per share. Pursuant to the definition of FFO by the Board of Governors of NAREIT, the Company calculates FFO as net income available to common shareholders, computed in accordance with GAAP, excluding gains and losses on real estate transactions and impairment losses on real estate, plus real estate related depreciation and amortization, and after adjustments for unconsolidated partnerships, joint ventures and other affiliates. Adjustments for unconsolidated partnerships, joint ventures and other affiliates are calculated to reflect FFO on the same basis. The Company has calculated FFO for all periods presented in accordance with this definition. In addition, the Company presents FFO as adjusted. Management believes it is useful to provide FFO as adjusted as a supplemental measure to GAAP net income available to common shareholders and earnings per share. FFO as adjusted is FFO plus retirement and severance expense, transaction costs, provision (benefit) for credit losses, net, costs associated with loan refinancing or payoff, preferred share redemption costs and impairment of operating lease right-of-use assets, and by subtracting sale participation income, gain on insurance recovery and deferred income tax expense (benefit). FFO and FFO as adjusted are non-GAAP financial measures. FFO and FFO as adjusted do not represent cash flows from operations as defined by GAAP and are not indicative that cash flows are adequate to fund all cash needs and are not to be considered an alternative to net income or any other GAAP measure as a measurement of the results of the Company's operations, cash flows or liquidity as defined by GAAP. It should also be noted that not all REITs calculate FFO and FFO as adjusted the same way so comparisons with other REITs may not be meaningful.

ADJUSTED FUNDS FROM OPERATIONS (“AFFO”)

In addition to FFO, the Company presents AFFO by adding to FFO retirement and severance expense, transaction costs, provision (benefit) for credit losses, net, costs associated with loan refinancing or payoff, preferred share redemption costs, impairment of operating lease right-of-use assets, non-real estate depreciation and amortization, deferred financing fees amortization and share-based compensation expense to management and trustees, and by subtracting amortization of above and below market leases, net and tenant allowances, sale participation income, straight-lined rental revenue (removing the impact of straight-line ground sublease expense), non-cash portion of mortgage and other financing income, allocated share of joint venture non-cash items, gain on insurance recovery and deferred income tax (benefit) expense. To be consistent with the definitions used by most other triple-net REITs, the Company revised its definition of AFFO during the third quarter of 2026 to no longer deduct maintenance capital expenditures, and has recast AFFO for all prior periods presented to reflect this change. Reconciliations of AFFO and AFFO per diluted common share calculated under the previous definition to AFFO and AFFO per diluted common share calculated under the revised definition are included in the following table (unaudited, dollars in thousands except per share data):

	3RD QUARTER 2026	2ND QUARTER 2026	1ST QUARTER 2026	4TH QUARTER 2025	3RD QUARTER 2025	2ND QUARTER 2025
Previous AFFO	\$ 120,104	\$ 111,750	\$ 100,131	\$ 101,373	\$ 108,070	\$ 95,834
Add: Maintenance capital expenditures	965	509	211	1,532	564	1,858
Revised AFFO	<u>\$ 121,069</u>	<u>\$ 112,259</u>	<u>\$ 100,342</u>	<u>\$ 102,905</u>	<u>\$ 108,634</u>	<u>\$ 97,692</u>
Previous AFFO per diluted common share	\$ 1.53	\$ 1.43	\$ 1.29	\$ 1.30	\$ 1.39	\$ 1.24
Add: Maintenance capital expenditures per diluted common share	0.01	—	—	0.02	—	0.02
Revised AFFO per diluted common share	<u>\$ 1.54</u>	<u>\$ 1.43</u>	<u>\$ 1.29</u>	<u>\$ 1.32</u>	<u>\$ 1.39</u>	<u>\$ 1.26</u>

AFFO is a widely used measure of the operating performance of real estate companies and is provided here as a supplemental measure to GAAP net income available to common shareholders and earnings per share and management provides AFFO herein because it believes this information is useful to investors in this regard. AFFO is a non-GAAP financial measure. AFFO does not represent cash flows from operations as defined by GAAP and is not indicative that cash flows are adequate to fund all cash needs and is not to be considered an alternative to net income or any other GAAP measure as a measurement of the results of the Company's operations or its cash flows or liquidity as defined by GAAP. It should also be noted that not all REITs calculate AFFO the same way so comparisons with other REITs may not be meaningful.

INTEREST COVERAGE RATIO

The interest coverage ratio is calculated as the interest coverage amount divided by interest expense, gross. The Company calculates the interest coverage amount by adding to net income impairment charges, provision (benefit) for credit losses, net, transaction costs, interest expense, gross (including interest expense in discontinued operations), retirement and severance expense, depreciation and amortization, share-based compensation expense to management and trustees and costs associated with loan refinancing or payoff; subtracting sale participation income, interest cost capitalized, straight-line rental revenue, gain on early extinguishment of debt, gain (loss) on real estate transactions from continuing and discontinued operations, gain on insurance recovery, gain on previously held equity interest, prepayment fees and deferred income tax benefit (expense). The Company calculates interest expense, gross, by adding to interest expense, net, interest income and interest cost capitalized. The Company considers the interest coverage ratio to be an appropriate supplemental measure of a company's ability to meet its interest expense obligations and management believes it is useful to investors in this regard. The Company's calculation of the interest coverage ratio may be different from the calculation used by other companies, and therefore, comparability may be limited. This information should not be considered as an alternative to any GAAP liquidity measures.

FIXED CHARGE COVERAGE RATIO

The fixed charge coverage ratio is calculated in exactly the same manner as the interest coverage ratio, except that interest expense, gross and preferred share dividends are also added to the denominator. The Company considers the fixed charge coverage ratio to be an appropriate supplemental measure of a company's ability to make its interest and preferred share dividend payments and management believes it is useful to investors in this regard. The Company's calculation of the fixed charge coverage ratio may be different from the calculation used by other companies and, therefore, comparability may be limited. This information should not be considered as an alternative to any GAAP liquidity measures.

DEBT SERVICE COVERAGE RATIO

The debt service coverage ratio is calculated in exactly the same manner as the interest coverage ratio, except that interest expense, gross and recurring principal payments are also added to the denominator. The Company considers the debt service coverage ratio to be an appropriate supplemental measure of a company's ability to make its debt service payments and management believes it is useful to investors in this regard. The Company's calculation of the debt service coverage ratio may be different from the calculation used by other companies and, therefore, comparability may be limited. This information should not be considered as an alternative to any GAAP liquidity measures.

Appendix to Supplemental Operating and Financial Data

Reconciliation of Certain Non-GAAP Financial Measures

Third Quarter Ended September 30, 2026

(1) See pages 24 through 26 for definitions.

RECONCILIATION OF INTEREST COVERAGE AMOUNT TO NET CASH PROVIDED BY OPERATING ACTIVITIES

(UNAUDITED, DOLLARS IN THOUSANDS)

The interest coverage amount per the table on page 28 is a non-GAAP financial measure and should not be considered an alternative to any GAAP liquidity measures. It is most directly comparable to the GAAP liquidity measure, “Net cash provided by operating activities,” and is not directly comparable to the GAAP liquidity measures, “Net cash used by investing activities” and “Net cash provided by financing activities.” The interest coverage amount can be reconciled to “Net cash provided by operating activities” per the consolidated statements of cash flows as follows:

	3RD QUARTER 2026	2ND QUARTER 2026	1ST QUARTER 2026	4TH QUARTER 2025	3RD QUARTER 2025	2ND QUARTER 2025
Net cash provided by operating activities	\$ 168,983	\$ 93,169	\$ 113,367	\$ 97,780	\$ 136,483	\$ 87,321
Equity in income (loss) from joint ventures	2,555	(984)	(2,632)	(2,396)	2,934	(1,681)
Distributions from joint ventures	—	(7)	—	—	—	—
Amortization of deferred financing costs	(3,100)	(2,699)	(2,672)	(2,380)	(2,120)	(2,102)
Amortization of above and below market leases and tenant allowances, net	(167)	75	81	81	81	81
Changes in assets and liabilities:						
Operating lease assets and liabilities	73	787	520	532	496	259
Mortgage notes accrued interest receivable	598	312	956	(1,449)	1,824	(1,266)

See footnotes on the following page.						

- (1) See pages 24 through 26 for definitions.
- (2) Adjusted EBITDAre for the quarter is multiplied by four to calculate an annualized amount but does not include the annualization of investments put in service, acquired or disposed of during the quarter, as well as the potential earnings on property under development, the annualization of percentage rent and participating interest and adjustments for other items. These adjustments are considered in the calculation of Annualized Adjusted EBITDAre.
- (3) Adjustments for rental properties commencing or terminating GAAP net operating income during the quarter and adjustments to revenue from mortgage notes receivable to be consistent with end of quarter balance.
- (4) To annualize amounts from the actual latest quarterly amount to the trailing 12-month amount divided by four.
- (5) To add in income for property under development that is build-to-suit at the initial cash yields of the projects upon completion.
- (6) To adjust percentage rents and participating interest income from the actual quarterly amount to the midpoint of the guidance amount shown on page 23, less non-recurring adjustments, divided by four.
- (7) Adjustments for various non-recurring items during the quarter.
- (8) Annualized Adjusted EBITDAre for the quarter is multiplied by four to calculate an annualized amount.
