NEW YORK, NY, August 6, 2026 – Fox Corporation (Nasdaq: FOXA, FOX; “FOX” or the “Company”) today reported financial results for the three and twelve months ended June 30, 2026.

Commenting on the results, Executive Chair and Chief Executive Officer Lachlan Murdoch said:

“Fiscal 2026 was an exceptional year for FOX, capped by our broadcast of a remarkable FIFA Men’s World Cup. We successfully launched our direct-to-consumer streaming service, FOX One, continued to keep America informed across a dynamic news cycle, enhanced Tubi’s position as a leading streaming service, and announced the acquisition of Roku which will transform the scope and growth profile of our company. Financially, these milestones were underpinned by the delivery of record top-line revenue which converted into record EBITDA. With strong momentum across our portfolio, we enter fiscal 2027 exceptionally well positioned to drive sustained growth and long-term shareholder value.”

FOURTH QUARTER COMPANY RESULTS

The Company reported total quarterly revenue of \$4.21 billion, an increase of \$925 million or 28% from the amount reported in the prior year quarter. Distribution revenue increased 5%, driven by 7% growth at the Cable Network Programming segment. Advertising revenue increased 78%, primarily due to the current year broadcast of the FIFA Men’s *World Cup* (“World Cup”), and continued digital growth led by the Tubi AVOD service. Content and other revenue was \$262 million as compared to the \$269 million reported in the prior year quarter, primarily due to the timing of sports sublicensing revenue.

The Company reported quarterly net income of \$696 million as compared to the \$719 million reported in the prior year quarter. Net income attributable to Fox Corporation stockholders was \$691 million (\$1.61 per share) as compared to the \$717 million (\$1.57 per share) reported in the prior year quarter. Adjusted net income attributable to Fox Corporation stockholders¹ was \$765 million (\$1.79 per share) as compared to the \$581 million (\$1.27 per share) reported in the prior year quarter.

Quarterly Adjusted EBITDA² was \$1.20 billion, an increase of \$256 million or 27% from the amount reported in the prior year quarter, as the revenue increase noted above was partially offset by higher expenses. The increase in expenses was primarily due to higher sports programming rights amortization and production costs, led by the current year broadcast of the *World Cup*, and costs associated with the launch of FOX One.

¹ Excludes net income effects of Restructuring, impairment and other corporate matters, adjustments to Equity earnings (losses) of affiliates, Non-operating other, net, Tax provision and Noncontrolling interest adjustments. See Note 1 for a description of adjusted net income attributable to Fox Corporation stockholders and adjusted earnings per share attributable to Fox Corporation stockholders, which are considered non-GAAP financial measures, and a reconciliation of reported net income attributable to Fox Corporation stockholders and earnings per share attributable to Fox Corporation stockholders to adjusted net income attributable to Fox Corporation stockholders and adjusted earnings per share attributable to Fox Corporation stockholders.
² Adjusted EBITDA is considered a non-GAAP financial measure. See Note 2 for a description of Adjusted EBITDA and a reconciliation of net income to Adjusted EBITDA.

Distribution revenue increased 4%, driven by 5% growth at the Cable Network Programming segment. Advertising revenue increased 7%, primarily due to the current year broadcast of the *World Cup* and continued digital growth led by the Tubi AVOD service, partially offset by the absence of the prior year broadcast of *Super Bowl LIX and* lower political advertising revenue. Content and other revenue increased 4%, primarily due to higher sports sublicensing revenue.

The Company reported full year net income of \$1.73 billion as compared to the \$2.29 billion reported in the prior year. Full year Adjusted EBITDA was \$3.91 billion, an increase of \$282 million or 8% from the amount reported in the prior year, as the revenue increase noted above was partially offset by higher expenses. The increase in expenses was primarily due to costs associated with the launch of FOX One and higher digital content costs.

NOTE 1 – ADJUSTED NET INCOME AND ADJUSTED EPS

The Company uses net income attributable to Fox Corporation stockholders and earnings per share (“EPS”) attributable to Fox Corporation stockholders excluding net income effects of Restructuring, impairment and other corporate matters, adjustments to Equity earnings (losses) of affiliates, Non-operating other, net, Tax provisions and Noncontrolling interest adjustments (“Adjusted Net Income” and “Adjusted EPS” respectively) to evaluate the performance of the Company’s operations exclusive of certain items that impact the comparability of results from period to period.

Adjusted Net Income and Adjusted EPS may not be comparable to similarly titled measures reported by other companies. Adjusted Net Income and Adjusted EPS are not measures of performance under GAAP and should be considered in addition to, and not as substitutes for, net income attributable to Fox Corporation stockholders and EPS as reported in accordance with GAAP. However, management uses these measures in comparing the Company’s historical performance and believes that they provide meaningful and comparable information to management, investors and equity analysts to assist in their analysis of the Company’s performance relative to prior periods and the Company’s competitors.

The following table reconciles net income attributable to Fox Corporation stockholders and EPS attributable to Fox Corporation stockholders to Adjusted Net Income and Adjusted EPS for the three months ended June 30, 2026 and 2025:

NOTE 2 – ADJUSTED EBITDA

Adjusted EBITDA is defined as Revenues less Operating expenses and Selling, general and administrative expenses. Adjusted EBITDA does not include: Depreciation and amortization, Restructuring, impairment and other corporate matters, Equity earnings (losses) of affiliates, Interest expense, net, Non-operating other, net and Income tax expense. Effective July 1, 2025, the Company no longer removes the impact of amortization of cable distribution investments when calculating Adjusted EBITDA. Prior periods were not restated as the impact of the change is immaterial to the calculation.

Management believes that information about Adjusted EBITDA assists all users of the Company's Unaudited Consolidated Financial Statements by allowing them to evaluate changes in the operating results of the Company's portfolio of businesses separate from non-operational factors that affect Net income, thus providing insight into both operations and the other factors that affect reported results. Adjusted EBITDA provides management, investors and equity analysts a measure to analyze the operating performance of the Company's business and its enterprise value against historical data and competitors' data, although historical results, including Adjusted EBITDA, may not be indicative of future results (as operating performance is highly contingent on many factors, including customer tastes and preferences).

Adjusted EBITDA is considered a non-GAAP financial measure and should be considered in addition to, not as a substitute for, net income, cash flow and other measures of financial performance reported in accordance with GAAP. In addition, this measure does not reflect cash available to fund requirements and excludes items, such as depreciation and amortization and impairment charges, which are significant components in assessing the Company's financial performance. Adjusted EBITDA may not be comparable to similarly titled measures reported by other companies.

The following table reconciles net income to Adjusted EBITDA for the three and twelve months ended June 30, 2026:
