Additionally, the enclosed information does not purport to disclose all items required under U.S. Generally Accepted Accounting Principles (“GAAP”). The information provided in this supplemental is unaudited and includes non-GAAP measures (as discussed herein), and there can be no assurance that the information will not vary from the final information in the Company's Form 10-Q for the quarter ended September 30, 2025. Forward-Looking Statements Disclaimer

Forward-Looking Statements in this supplemental, which are not historical facts, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on the current beliefs and expectations of InvenTrust's management and are subject to significant risks and uncertainties. Actual results may differ materially from those described in the forward-looking statements. Any statements made in this supplemental that are not statements of historical fact, including statements about our beliefs and expectations, are forward-looking statements. Forward-looking statements include information concerning possible or assumed future results of operations, including our guidance and descriptions of our business plans and strategies. These statements often include words such as "may," "should," “could,” "would," "expect," "intend," "plan," "seek," "anticipate," "believe," "estimate," "target," "project," "predict," "potential," "continue," "likely," "will," "forecast," "outlook," "guidance," "suggest," and variations of these terms and similar expressions, or the negative of these terms or similar expressions.

The following factors, among others, could cause actual results, financial position and timing of certain events to differ materially from those described in the forward-looking statements: interest rate movements; local, regional, national and global economic performance; the impact of inflation on the Company and on its tenants; competitive factors; the impact of e-commerce on the retail industry; future retailer store closings; retailer consolidation; retailers reducing store size; retailer bankruptcies; government policy changes, including the effects of recent new tariffs and changes in global trade policies on the overall state of the economy; and any material market changes and trends that could affect the Company's business strategy. For further discussion of factors that could materially affect the outcome of management's forward-looking statements and IVT's future results and financial condition, see the Risk Factors included in the Company's most recent Annual Report on Form 10-K, as updated by any subsequent Quarterly Report on Form 10-Q, in each case as filed with the SEC. InvenTrust intends that such forward-looking statements be subject to the safe harbors created by Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, except as may be required by applicable law.

IVT cautions you not to place undue reliance on any forward-looking statements, which are made as of the date of this supplemental. IVT undertakes no obligation to update publicly any of these forward-looking statements to reflect actual results, new information or future events, changes in assumptions or changes in other factors affecting forward-looking statements, except to the extent required by applicable laws. If IVT updates one or more forward-looking statements, no inference should be drawn that IVT will make additional updates with respect to those or other forward-looking statements.

Notice Regarding Non-GAAP Financial Measures

In addition to GAAP measures, this supplemental contains and refers to certain non-GAAP measures. Management does not consider the Company's non-GAAP measures included in the Glossary of Terms to be alternatives to measures required in accordance with GAAP. Certain non-GAAP measures should not be viewed as an alternative measure of IVT's financial performance as they may not reflect the operations of the entire portfolio, and they may not reflect the impact of general and administrative expenses, depreciation and amortization, interest expense, other income (expense), or the level of capital expenditures and leasing costs necessary to maintain the operating performance of IVT's properties that could materially impact IVT's results from operations. Additionally, certain non-GAAP measures should not be considered as an indication of IVT's liquidity, nor as an indication of funds available to cover IVT's cash needs, including IVT's ability to fund distributions, and may not be a useful measure of the impact of long-term operating performance on value if management does not continue to operate the business in the manner currently contemplated. Accordingly, non-GAAP measures should be reviewed in connection with other GAAP measurements, and should not be viewed as more prominent measures of performance than net income (loss) or cash flows from operations prepared in accordance with GAAP. Other REITs may use different methodologies for calculating similar non-GAAP measures, and accordingly, IVT's non-GAAP measures may not be comparable to other REITs. Reconciliations of the Company's non-GAAP measures to the most directly comparable GAAP financial measures are included on pages 6 and 7 and definitions of the Company's non-GAAP measures are included in the Glossary of Terms on page 21.

Terms	Definitions
ABR Per Square Foot (ABR PSF)	ABR PSF is the ABR divided by the occupied square footage as of the end of the period.
Adjusted EBITDA	Adjusted EBITDA is an additional supplemental non-GAAP financial measure of the Company's operating performance. In particular, Adjusted EBITDA provides an additional measure to compare the operating performance of different REITs without having to account for certain remaining amortization assumptions within EBITDA, certain gains or losses remaining within EBITDA, and other unique revenue and expense items which some may consider not pertinent to measuring a particular company's ongoing operating performance.
Annualized Base Rent (ABR)	Annualized Base Rent (ABR) is the base rent for the last month of the period multiplied by twelve. Base rent is inclusive of ground rent and any abatement concessions and exclusive of Specialty Lease rent.
Anchor Tenant	Tenants with square footage greater than or equal to 10,000 square feet are considered Anchor Tenants.
Community Center	Community Centers are generally open air and designed for tenants that offer a larger array of apparel and other soft goods. Typically, community centers contain anchor stores and other national retail tenants.
Comparable Lease	A Comparable Lease meets all of the following criteria: terms greater than or equal to one year, unit was vacant less than one year prior to executed lease, square footage of unit remains unchanged or within 10% of prior unit square footage, and has a rent structure consistent with the previous tenant.
Earnings Before Interest, Taxes, Depreciation, and Amortization (EBITDA)	The Company's non-GAAP measure of Earnings Before Interest, Taxes, Depreciation, and Amortization (EBITDA) is net income (or loss) in accordance with GAAP, excluding interest expense, net, income tax expense (or benefit), and depreciation and amortization.
Economic Occupancy	Upon Rent Commencement Date, the percentage of occupied GLA divided by total GLA. For purposes of calculating occupancy, Specialty Lease GLA is deemed vacant.
GAAP Rent Adjustments	GAAP Rent Adjustments consist of amortization of market lease intangibles, amortization of lease incentives, and straight-line rent adjustments.
Gross Leasable Area (GLA)	Measure of the total amount of leasable space at a property in square feet.
Leased Occupancy	Economic Occupancy plus the percentage of signed and not yet commenced GLA divided by total GLA.
Lifestyle Center	Lifestyle Centers consist of upscale national-chain specialty stores with dining and entertainment in an outdoor setting.
Nareit Funds From Operations (Nareit FFO) and Core FFO	The Company's non-GAAP measure of Nareit Funds from Operations ("Nareit FFO"), based on the National Association of Real Estate Investment Trusts ("Nareit") definition, is net income (or loss) in accordance with GAAP, excluding gains (or losses) resulting from dispositions of properties, plus depreciation and amortization and impairment charges on depreciable real property. Core Funds From Operations ("Core FFO") is an additional supplemental non-GAAP financial measure of the Company's operating performance. In particular, Core FFO provides an additional measure to compare the operating performance of different REITs without having to account for certain remaining amortization assumptions within Nareit FFO and other unique revenue and expense items which some may consider not pertinent to measuring a particular company's ongoing operating performance.
Neighborhood Center	Neighborhood Centers are convenience oriented with tenants such as a grocery store anchor, a drugstore, and other small retailers.
Net Debt-to-Adjusted EBITDA	Net Debt-to-Adjusted EBITDA is net debt divided by trailing twelve month Adjusted EBITDA.
Net Operating Income (NOI)	NOI excludes general and administrative expenses, depreciation and amortization, other income and expense, net, impairment of real estate assets, gains (losses) from sales of properties, gains (losses) on extinguishment of debt, interest expense, net, lease termination income and expense, and GAAP Rent Adjustments.
New Lease	New Leases are leases where a new tenant will be occupying a unit or an existing tenant is relocating from one unit to another (unless the tenant is moving from a temporary space back to the original unit).
NOI from other investment properties	NOI from other investment properties consists of properties which do not meet the Company's Same Property criteria and includes adjustments for the Company's captive insurance company.
Power Center	Power Centers consist of category-dominant anchors, such as discount department stores, off-price stores, or wholesale clubs, with only a few small shop tenants.
Prior Contractual Rent	Base rent charged for a particular unit, prior to the current term's first year rent. If the prior lease terminated prior to the contractual expiration date, the prior contractual rent amount is the rent charged in the final month of occupancy.
Renewal Lease	Terms have been extended on an existing lease in the same unit. This may happen via an amendment, extension agreement or exercised option.
Same Property	Information provided on a same property basis includes the results of properties that were owned and operated for the entirety of both periods presented.
Shadow Anchor Tenant	Shadow Anchor Tenant represents tenants that are situated on parcels which are owned by unrelated third parties, but, due to their location within or immediately adjacent to a property, appear to the consumer as a retail tenant of the property and, as a result, attract additional consumer traffic to the property.
Small Shop Tenant	Tenants with square footage less than 10,000 square feet are considered Small Shop Tenants.
Specialty Lease	Specialty leasing represents leases of less than one year in duration for inline space and includes any term length for a common area space, and is excluded from the ABR and leased square footage figures when computing the ABR per square foot.
