“Financial results in the fourth quarter exceeded our guidance across the board and capped off a year of durable, profitable growth,” said CFO Brian Van Wagener. “As we look ahead, strong momentum and operational discipline give us confidence in our trajectory toward our \$6 billion revenue run rate target by 2030.”

Recent Highlights:

- **Strengthening our Partnership with the Industry in Milestone Year** – Expanding with both new and existing customers, Veeva finished the year with a total of 1,552 customers, including 1,196 in Veeva R&D and Quality Solutions and 767 in Veeva Commercial Solutions. Driven by continued customer success and product excellence, Veeva achieved its \$3 billion revenue run rate in early 2025 – a major milestone that underscores the company’s consistent execution against its goals.⁽²⁾⁽³⁾
- **Driving Innovation with Deeply Integrated, Industry AI** – With core systems of record spanning the industry’s most critical functions, Veeva is uniquely positioned to deliver industry-specific AI integrated into its core applications. Veeva AI utilizes specialized datasets, sophisticated logic, deep process integration, and safeguards to provide high-value AI that ensures compliance and data integrity. Since the December release of the first Veeva AI Agents for CRM and commercial content, several customers have gone live and many more projects are underway. Veeva is on track to release additional agents across its other major application areas throughout 2026.
- **Expanding Leadership in R&D and Quality** – Veeva Development Cloud and Quality Cloud advanced significantly in the quarter, marked by several top 20 biopharma wins and key progress in newer application areas. In clinical, a top 20 biopharma selected Veeva RTSM as their enterprise standard. Safety momentum continued with Veeva’s sixth top 20 win and its first top 20 biopharma live on Workbench and Signal. In Quality, Veeva LIMS made significant progress and remains on track for its first top 20 biopharma go-live at two manufacturing sites in 2026.
- **Leading in Commercial with Innovation and Customer Success Focus** – With Vault CRM, the next generation CRM for life sciences, Veeva is accelerating the industry’s move to agentic CRM. More than 125 customers are live on Vault CRM including 2 top 20 biopharmas in major markets, with many more on track to go live in 2026. Veeva ended the year with 10 top 20 biopharmas committed to Vault CRM globally and expects about 14 of the top 20 to commit as it continues to execute on its commercial vision. Crossix also had a breakout year, with strong growth in Measurement and Audiences.

Financial Outlook:

Veeva is providing guidance for its fiscal first quarter ending April 30, 2026 as follows:

- Total revenues between \$855 and \$858 million.
- Non-GAAP operating income between \$378 and \$381 million.⁽⁴⁾
- Non-GAAP fully diluted net income per share between \$2.13 and \$2.14.⁽⁴⁾

Veeva is providing updated guidance for its fiscal year ending January 31, 2027 as follows:

- Total revenues between \$3,585 and \$3,600 million.
- Non-GAAP operating income of about \$1,590 million.⁽⁴⁾
- Non-GAAP fully diluted net income per share of approximately \$8.85.⁽⁴⁾

⁽¹⁾ This press release uses non-GAAP financial metrics that are adjusted for the impact of various GAAP items. See the section titled “Non-GAAP Financial Measures” and the tables entitled “Reconciliation of GAAP to Non-GAAP Financial Measures” below for details.

⁽²⁾ The combined customer counts for R&D and Quality Solutions and Commercial Solutions exceed the total customer count because some customers subscribe to products in both areas. R&D and Quality Solutions consist of our Veeva Development Cloud and Veeva Quality Cloud solutions. Commercial Solutions consist of our Veeva Commercial Cloud and Veeva Data Cloud solutions.

⁽³⁾ Customer count totals are presented net of customer attrition during the period.

⁽⁴⁾ Veeva is not able, at this time, to provide GAAP targets for operating income and fully diluted net income per share for the first fiscal quarter ending April 30, 2026 or the fiscal year ending January 31, 2027 because of the difficulty of estimating certain items excluded from non-GAAP operating income and non-GAAP fully diluted net income per share that cannot be reasonably predicted, such as charges related to stock-based compensation expense. The effect of these excluded items may be significant.

Forward-looking Statements

This release contains forward-looking statements regarding Veeva's expected future performance and, in particular, includes quotes from management and guidance, provided as of March 4, 2026, about Veeva's expected future financial results. Estimating guidance accurately for future periods is difficult. It involves assumptions and internal estimates that may prove to be incorrect and is based on plans that may change. Hence, there is a significant risk that actual results could differ materially from the guidance we have provided in this release and we have no obligation to update such guidance. There are also numerous risks that have the potential to negatively impact our financial performance, including issues related to the performance, availability, security, or privacy of our products, competitive factors, customer decisions and priorities, developments that impact the life sciences industry (including regulatory, funding, or policy changes), general macroeconomic and geopolitical events (including changes in trade policy or practices, inflationary pressures, currency exchange fluctuations, changes in interest rates, and geopolitical conflicts), and issues that impact our ability to hire, retain and adequately compensate talented employees. We have summarized what we believe are the principal risks to our business in a section titled "Summary of Risk Factors" on pages 33 and 34 in our filing on Form 10-Q for the period ended October 31, 2025 which you can find [here](#). Additional details on the risks and uncertainties that may impact our business can be found in the same filing on Form 10-Q and in our subsequent SEC filings, which you can access at sec.gov. We recommend that you familiarize yourself with these risks and uncertainties before making an investment decision.

Non-GAAP Financial Measures

In Veeva’s public disclosures, Veeva has provided non-GAAP measures, which it defines as financial information that has not been prepared in accordance with generally accepted accounting principles in the United States, or GAAP. In addition to its GAAP measures, Veeva uses these non-GAAP financial measures internally for budgeting and resource allocation purposes and in analyzing its financial results. For the reasons set forth below, Veeva believes that excluding the following items provides information that is helpful in understanding its operating results, evaluating its future prospects, comparing its financial results across accounting periods, and comparing its financial results to its peers, many of which provide similar non-GAAP financial measures.

- Excess tax benefits. Excess tax benefits from employee stock plans are dependent on previously agreed-upon equity grants to our employees, vesting of those grants, stock price, and exercise behavior of our employees, which can fluctuate from quarter to quarter. Because these fluctuations are not directly related to our business operations, Veeva finds it useful to exclude excess tax benefits when assessing the level of cash provided by operating activities. Given the nature of the excess tax benefits, Veeva believes excluding it allows investors to make meaningful comparisons between our operating cash flows from quarter to quarter and those of other companies.
- Stock-based compensation expenses. Veeva excludes stock-based compensation expenses primarily because they are non-cash expenses that Veeva excludes from its internal management reporting processes. Veeva’s management also finds it useful to exclude these expenses when they assess the appropriate level of various operating expenses and resource allocations when budgeting, planning and forecasting future periods. Moreover, because of varying available valuation methodologies, subjective assumptions and the variety of award types that companies can use, Veeva believes excluding stock-based compensation expenses allows investors to make meaningful comparisons between our recurring core business operating results and those of other companies.
- Amortization of purchased intangibles. Veeva incurs amortization expense for purchased intangible assets in connection with acquisitions of certain businesses and technologies. Amortization of intangible assets is a non-cash expense and is inconsistent in amount and frequency because it is significantly affected by the timing, size of acquisitions and the inherent subjective nature of purchase price allocations. Because these costs have already been incurred and cannot be recovered, and are non-cash expenses, Veeva excludes these expenses for its internal management reporting processes. Veeva’s management also finds it useful to exclude these charges when assessing the appropriate level of various operating expenses and resource allocations when budgeting, planning and forecasting future periods. Investors should note that the use of intangible assets contributed to Veeva’s revenues earned during the periods presented and will contribute to Veeva’s future period revenues as well.
- Litigation settlement-related charges. We exclude certain costs related to litigation settlements, including outcome-based payments to the law firms that represented us, because they are non-recurring and outside the ordinary course of business. Because these costs are unrelated to our day-to-day business operations, we believe excluding them enables more consistent evaluation of our operating results.
- Income tax effects on the difference between GAAP and non-GAAP costs and expenses. The income tax effects that are excluded relate to the imputed tax impact on the difference between GAAP and non-GAAP costs and expenses due to stock-based compensation and purchased intangibles for GAAP and non-GAAP measures.

There are limitations to using non-GAAP financial measures because non-GAAP financial measures are not prepared in accordance with GAAP and may be different from non-GAAP financial measures provided by other companies. The non-GAAP financial measures are limited in value because they exclude certain items that may have a material impact upon our reported financial results. In addition, they are subject to inherent limitations as they reflect the exercise of judgments by Veeva’s management about which items are adjusted to calculate its non-GAAP financial measures. Veeva compensates for these limitations by analyzing current and future results on a GAAP basis as well as a non-GAAP basis and also by providing GAAP measures in its public disclosures.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Veeva encourages its investors and others to review its financial information in its entirety, not to rely on any single financial measure to evaluate its business, and to view its non-GAAP financial measures in conjunction with the most directly comparable GAAP financial measures. A reconciliation of GAAP to the non-GAAP financial measures has been provided in the tables below.
