INDIA KA PRANAM HAR KISAN KE NAAM®

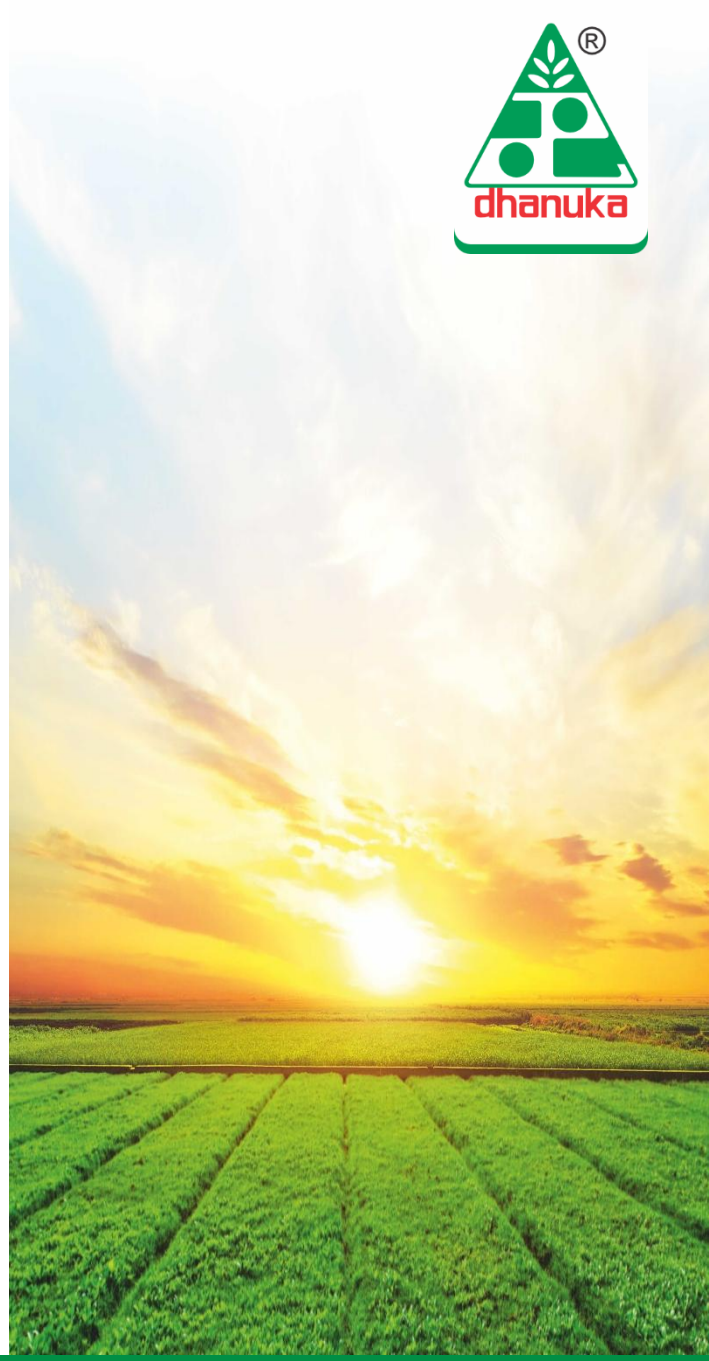

# Disclaimer

This presentation contains statements that contain “forward looking statements” including, but without limitation, statements relating to the implementation of strategic initiatives, and other statements relating to Dhanuka Agritech Limited (“Dhanuka Agritech” or the Company) future business developments and economic performance.

While these forward looking statements indicate our assessment and future expectations concerning the development of our business, a number of risks, uncertainties and other unknown factors could cause actual developments and results to differ materially from our expectations.

These factors include, but are not limited to, general market, macro-economic, governmental and regulatory trends, movements in currency exchange and interest rates, competitive pressures, technological developments, changes in the financial conditions of third parties dealing with us, legislative developments, and other key factors that could affect our business and financial performance.

Dhanuka Agritech undertakes no obligation to publicly revise any forward looking statements to reflect future / likely events or circumstances.

# Chairman Message

Dhanuka Agritech is a leading Indian agrochemical company. Dhanuka is working with the vision of Transforming India through Agriculture. We have a Pan-India presence in all major states to reach out to more than 10 million farmers with our products and services. Dhanuka's key focus has been on introduction of novel chemistries and extensive product development distinguishing us from the rest of the industry.

With four manufacturing units and 41 warehouses across India, we cater to around 6,500 distributors and 80,000 retailers. Dhanuka has a strong Sales and Marketing team to promote and develop new products. Over last couple of years we have set up, 2 research and technology centers to enhance our focus on innovation and research. One of the centers is focused on applied chemistry and working for establishment of new products and new formulation development. The second laboratory is focused on innovation in process technology for generic and late stage patented products.

Agrochemical sector in India is experiencing a weak and highly subdued earnings season for the second Quarter of FY 2026-27. Performance across major players is impacted by erratic and uneven monsoon rainfall, and persistently high raw material procurement costs. The monsoon rainfall was lower by a sharp 13% with significant regional and monthly variations across key agricultural belts. This has led to compressed volumes and margins across the industry. This weather disturbance significantly disrupted traditional farming cycles, delayed crop-care applications, and led to a marked contraction of consumption at farmer level. Due to the dry weather, performance of herbicides was significantly impacted while Insecticides segment has grown.

Despite all these challenges, I am pleased to report that our company delivered resilient performance. Our diversified geographic footprint allowed us to capture demand from regions which had availability of water resources.

Further, Our Dahej Plant will hit 70.75% capacity utilization by this financial year end. So, we will be doing capacity expansion within this unit. In addition, the Dahej Plant will also commence manufacturing the products acquired from Bayer AG.

At Dhanuka, we continue to believe that sustainable business growth must go hand in hand with farmer prosperity and national food security. Our continued engagement with Agriculture Universities, Krishi Vigyan Kendra's, and other scientific institutions remains an important part of our farmer education and technology dissemination efforts.

I would like to thank all our investors, analysts, business partners, and stakeholders for their continued trust and confidence in Dhanuka Agritech Limited. Wishing you all a very Happy Diwali and Festive season ahead.

# Why Dhanuka Agritech?

### Creating breakthroughs in Chemical Synthesis

Synthesis plant at Dahej supported by Fully equipped R&D Lab with 30 Chemists to master new chemistry

### Rural FMCG Play

41 warehouses, 6,500+ distributors and 80,000+ retailers to service the needs of over 10 million farmers

### Diverse Product Portfolio

300+ registrations across Herbicides, Insecticides, Fungicides and Plant Growth Regulators, ~90 Products across all segments

### Global Innovator Tie Ups

World's leading agrochemical companies from the US, Japan and Europe have partnered with Dhanuka Agritech to introduce latest technology to Indian farmlands

### Robust Pipeline

Focus on margin accretive "9(3) product" portfolio. Target to launch Several new products across all segments including "me-too" over the next two years

### Profitable Growth

Higher contribution of specialty products, growth in volumes from existing products to drive return ratios

### Global Expansion

The acquisition of Bayer AG's renowned fungicide brands marks a key milestone in Dhanuka's evolution from a domestic agrochemical leader to an emerging global player. With access to 20+ international markets and manufacturing integration through the advanced Dahej technical synthesis facility, Dhanuka is well placed to accelerate export and expand its global business.
