I G Petrochemicals Limited

Investor Presentation – August 2026

Safe Harbor

This presentation and the accompanying slides (the "Presentation"), which have been prepared by **I G Petrochemicals Limited (the "Company"),** have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

This presentation contains certain forward looking statements concerning the Company's future business prospects and business profitability, which are subject to a number of risks and uncertainties and the actual results could materially differ from those in such forward looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, our ability to manage growth, competition (both domestic and international), economic growth in India and abroad, ability to attract and retain highly skilled professionals, time and cost over runs on contracts, our ability to manage our international operations, government policies and actions regulations, interest and other fiscal costs generally prevailing in the economy. The Company does not undertake to make any announcement in case any of these forward looking statements become materially incorrect in future or update any forward looking statements made from time to time by or on behalf of the Company.

Performance Highlights: Q1 FY27

Particulars (Rs in Crs)	Q1 FY27	Q1 FY26	FY26
	Standalone		
Total Revenue^	625.1	480.9	1,953.7
EBITDA	120.0	13.0	130.4
EBITDA %	*19.2%*	*2.7%*	*6.7%*
PBT	94.9	-10.8	31.4
PAT	71.0	-8.2	23.2

Key Highlights

- Strong quarterly performance, with revenue reaching ₹625 crore, marking a 30% YoY growth, driven by improved margins across all products.
- EBITDA jumped to Rs. 120 crore (19.2% Margin) in Q1 FY27, as compared to Rs. 13 crore in Q1 FY26 reflecting a strong recovery in profitability.
- Revenue from the Non-Phthalic business stood at Rs. 49 crore, led by an improvement in overall realizations in DEP and MAN
- Exports contributed approximately 10% of total revenue during Q1 FY27, reflecting continued progress in expanding our international presence.
- Plasticizer plant is expected to start production in Q2 FY27 & the CBG Project in Q3 FY27.

Company Snapshot

*PAN - Phthalic Anhydride, MAN - Maleic Anhydride

Vision & Mission

Vision

To be a well-diversified chemicals company with a leadership position in Phthalic Anhydride Industry

Mission

To consistently focus on delivering superior quality products by technological upgradation and utilizing the expanded production capacities to provide the consumers maximum value at the most competitive price

ISO 9001:2015 (Quality) and ISO 14001:2015 (Environment) certified across the complex.

Process safety management and 5S standards embedded in daily plant operations.

CSR focus: Skill development, Education infrastructure, Environment sustainability and Healthcare.

Reduced greenhouse gas emissions by ~70% through steam optimisation and captive rooftop solar generation.

Product Portfolio

IGPL operates five Phthalic Anhydride plants at its integrated Taloja complex (Raigad, Maharashtra), with ~50% of India's PAN market. IGPL is India's sole domestic Maleic Anhydride (MAN) producer, with four MAN Plants paired directly to the PAN plants. Plasticizer plant at the same complex — forward integration into PAN's largest end-market.

PHTHALIC ANHYDRIDE (PAN)

- PAN is a white crystalline solid which transforms to colourless liquid upon heating. It is a versatile intermediate in organic chemistry for the production of Plasticizers, Unsaturated Polyester Resins, Alkyd Resins, Paints & CPC Pigments.
- Over the years, PAN has witnessed innovative applications backed by increasing research activities.

MALEIC ANHYDRIDE (MAN)

- MAN is an organic chemical intermediate used in various fields of industrial chemistry.
- IGPL is India’s only manufacturer of MAN made from wash water, which is derived through production of PAN.

BENZOIC ACID

- IGPL also produces Benzoic Acid from wash water which is derived while manufacturing PAN.
- Benzoic Acid finds its application in pharmaceuticals, perfumes & fragrances, industrial application, etc.

DI-ETHYL PHTHALATE (DEP)

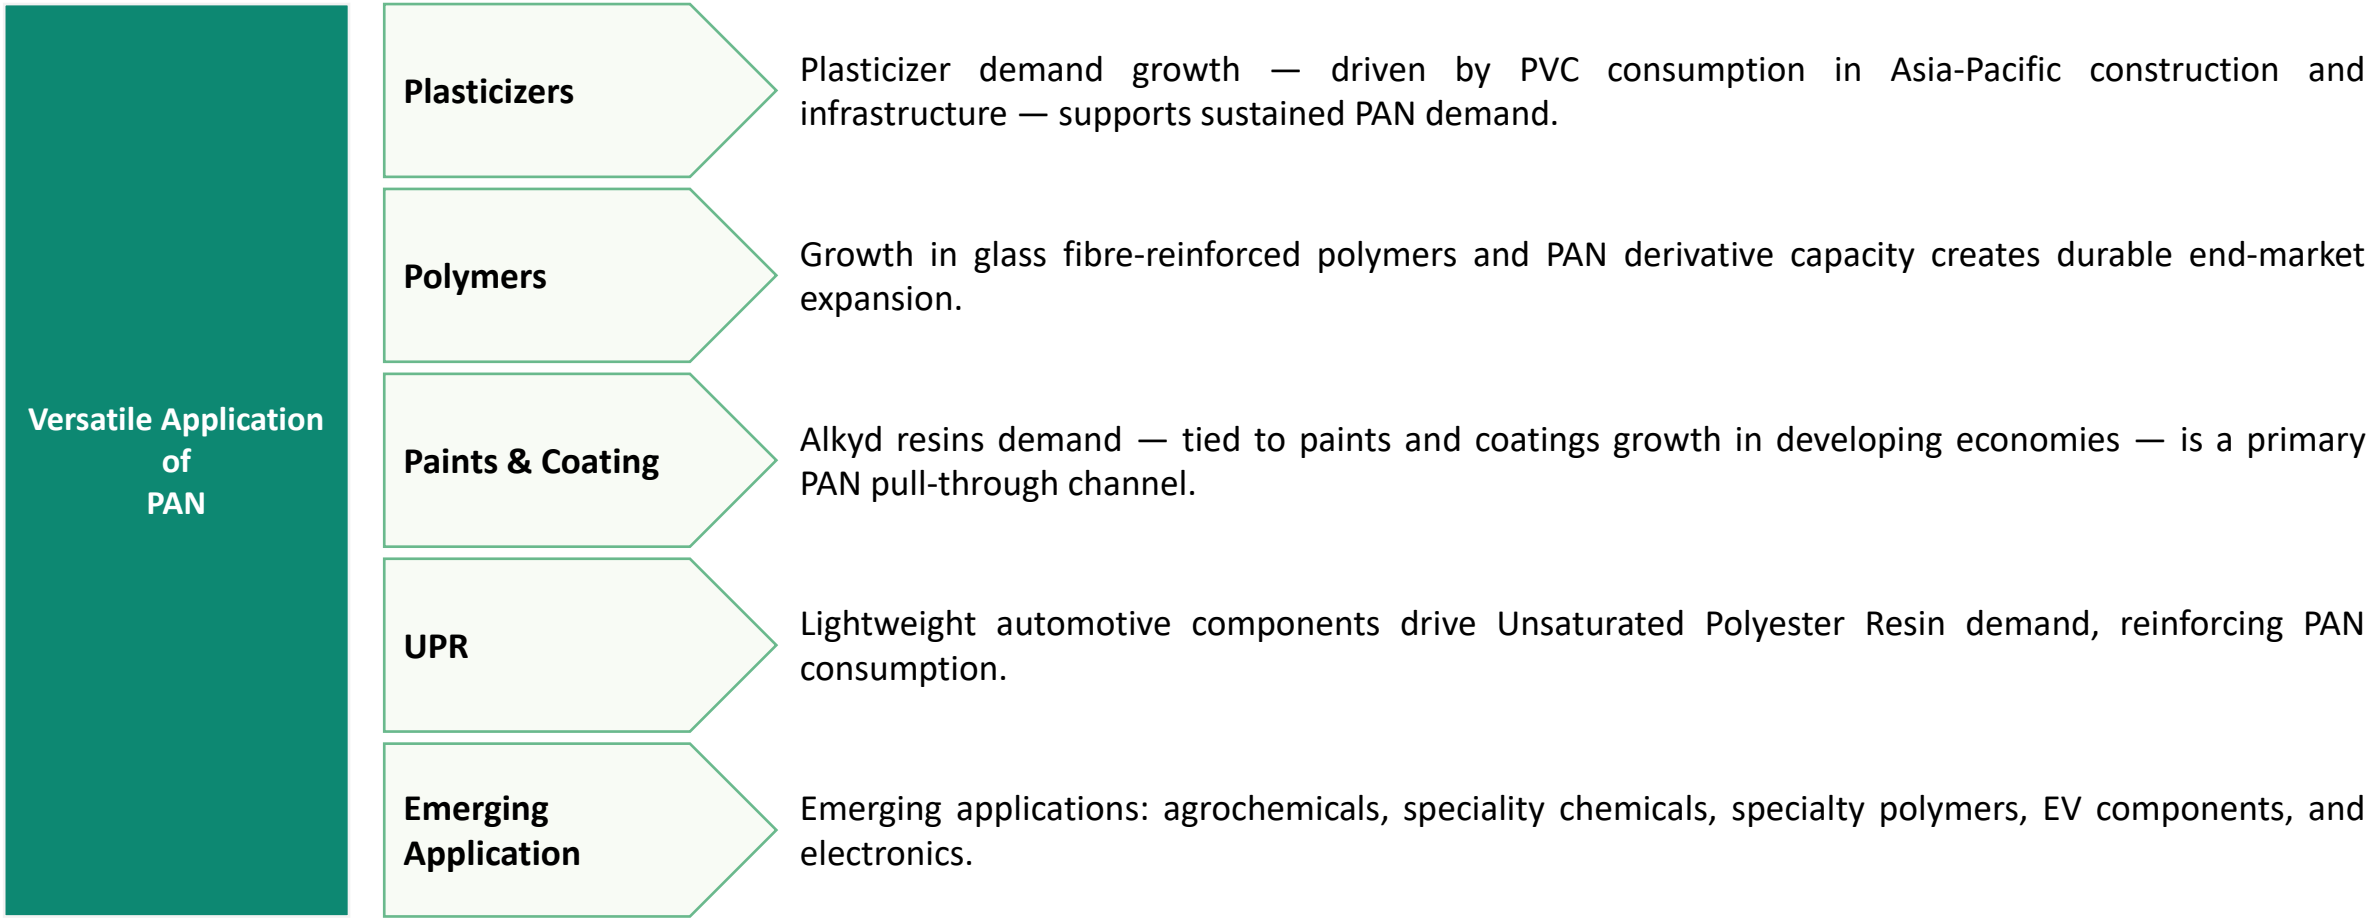

- DEP is a downstream derivative of PAN. IGPL forayed into the manufacturing of DEP in FY22, which is primarily used in personal care products, incense sticks, cosmetics and toiletries.
- Increased DEP capacity through debottlenecking.

PLASTICIZERS

- Plasticizers are used in the production of wires & cables, flexible PVC film, flexible pipes & tubing, and other end user industry applications.
- Achieved Mechanical completion of the plasticizer plant in March 2026.

Versatile Application of PAN

Phthalic Anhydride (PAN) is a downstream product of Ortho-Xylene (OX), used to produce Plasticizers, Unsaturated Polyester Resins, and Alkyd Resins & Polyols. End markets include paints, inks, coatings, packaging, and composites.

Manufacturing Facilities at a Glance

5	4	1	1	1
PAN Plants	MAN Plants	BA Plant	DEP Plant	Plasticizer Plant

Taloja, Maharashtra

Our Edge

Catalytic Oxidation

Ortho-xylene is oxidised with air over a V_2O_5/TiO_2 catalyst in a fixed-bed tubular reactor, exothermic reaction is controlled by a molten salt cooling system.

High Selectivity

The Von-Heyden process is optimised for yield and selectivity. PAN purity reaches ≥99.8% through a two-stage distillation and purification system.

Energy Recovery

Steam generated by the exothermic reaction is recovered for process heating and utility purposes, reducing overall energy consumption per tonne of output.

Integration

DEP esterification on-site extends the value chain from basic PAN to specialty downstream without additional transport.

Structural Advantages

Scale Leadership

Largest single-site PAN complex; shared utilities, storage, logistics
Second largest Manufacturer of PAN globally.

Integration

Downstream integration from PAN to MAN / BA / DEP / Advance Plasticizers

Incumbency

Over three decades of long-standing relationships and annual supply contracts with some of India's largest chemical manufacturers.

Sole MAN producer domestically

India's only domestic Maleic Anhydride producer, creating a strong structural advantage in MAN supply within the country.

Key Certificates

BUREAU VERITAS 1828 BUREAU VERITAS

STAR-K KOSHER

GPC EUROPE

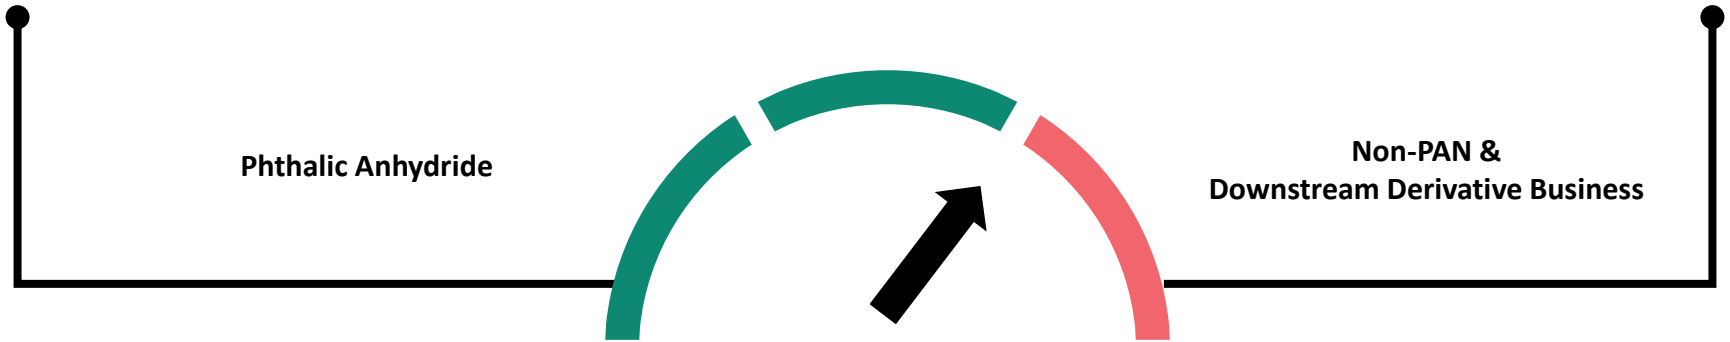

Growth Strategy, Forward Integration & Diversification

Exploring adjacent downstream chemistries.

Compressed Biogas (CBG) — organic waste to biogas.
Mechanical completion targeted Q2 FY27.

Plasticizer plant — downstream PAN derivative
Mechanical completion done in FY26.

Diversifying revenue mix to reduce single-product dependence.

Led by Stable Demand

Paints & Resins

Plasticizers

Specialty Chemicals

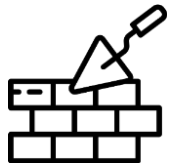

Medical Device

Synthetic Leather

Lubricants

Building & Construction

Cables & Wires

Construction

Packaging Films

Personal Care

Perfumes & Fragrance

Sustainable Growth

Infrastructure Development

Higher private and government spending on social and industrial infrastructure leading to Strong & Constant domestic demand for the Products

Make in India Push

Govt. Initiative to encourage companies to manufacture in India and incentivize dedicated investments into manufacturing

Increase in Consumption

Increase in consumption fueled by rising demand for plasticizers, paints etc.

High Demand in Asia Pacific

Over 60% of global PAN consumption is in ASIA Pacific, which is anticipated to expand because of increased private and government spending.

Value Proposition

Market Leadership

- India's largest single-site Phthalic Anhydride complex with ~50% share of domestic PAN capacity.
- And India's sole Maleic Anhydride producer with over three decades of strong customer relationships across paints, plasticizers, PVC, UPR, specialty chemicals, CPC, fragrance and pharmaceuticals etc.

Integrated Value Chain

- Fully integrated operations from Ortho-Xylene to PAN, MAN, BA, DEP, and the Plasticizer plant enable efficient utilization of a single feedstock to produce multiple value-added products.
- Integrated operations at the Taloja facility, supported by shared utilities, captive steam, and logistics synergies, continue to drive operational efficiencies and cost optimization.

Diversification Pipeline

- Strategic investments in downstream and value-added products continue to strengthen the business portfolio.
- The DEP debottlenecking and Plasticizer plant are expected to support long-term growth and expand the earnings base over the coming years.

Balance Sheet Discipline

- Capex funded largely from internal accruals.
- Maintained a zero net debt position with a healthy Debt-to-Equity ratio.

Sustainability : Commitment to a Better Future

Set up of roof top **Solar Electric Panel** to reduce dependence on MSEB Grid ~ promoting Green Energy in Plant Operations.

Various Initiatives undertaken for the conservation of key resources like **recycling of wastewater** used in cooling towers. Overall Water consumption and discharge reduced.

Disposing of inevitable wastes in an **environmentally friendly manner**

Reduction in **green house gas emission by 70%,** by minimizing leakages of steam used for electricity generation.

Enhancing **environmental awareness** amongst all our staff, workmen, suppliers, visitors and other stakeholders.

CSR Initiatives

Skill Development & Livelihood Enhancement

Equipped **201 underserved youth with industry-aligned vocational training in technical trades** combining a job-ready curriculum with hands-on exposure to sharpen employability, build technical depth and open pathways to stable livelihoods and lasting economic independence.

Advancing women's economic empowerment, the Company trained 150 women from underserved communities in Taloja and surrounding communities in industrial sewing and allied livelihood skills building vocational capability, unlocking financial self-reliance, and creating durable pathways to income generation and stronger socio-economic participation.

Education Infrastructure

The Company **upgraded school infrastructure across nearby communities and in Vrindavan, Uttar Pradesh**, delivering safer, more inclusive, and better-equipped learning spaces that raise the quality of everyday education and support stronger long-term academic outcomes for students.

Environmental Sustainability

The **watershed development initiative at Shirvali Group Gram Panchayat near Taloja** is set to benefit more than 2,800 villagers by improving access to water, recharging groundwater, building agricultural resilience, and securing long-term water and ecological sustainability for rural communities.

Healthcare

Partnered to deliver **rehabilitation and care for more than 300 individuals suffering from Parkinson's disease.** Reached over 500 adolescent girls across 5 schools in the Taloja region through menstrual health and hygiene programmes—building health literacy, improving hygiene practices, and normalising open conversations on adolescent wellbeing and dignity.

Board of Directors

Shri Nikunj Dhanuka
Chairman and Managing Director

Associated with the Company since 1998 and has played an instrumental role in the growth of the Company over the last several years. He possesses diverse experience and extensive knowledge on the functioning of Chemical Industries, Finance and Banking and in charge of the overall affairs of the Company.

Shri Mayank Dhanuka
Executive Director & CEO

Over 26 years of experience in chemical industry business operations, development, plant management, procurement and imports. He is a commerce graduate and has done Financial Management from Harvard University, Graduate from Owner President Management at Harvard Business School.

Shri Shrikant Somani
Non-executive & Independent

Has two decades of experience across sectors including renewable energy, small hydropower and the chemical industries. He has built strong relationships with a wide range of stakeholders, including industry associations, NGOs, CSR organizations, statutory bodies, private and multilateral agencies and business chambers.

Smt. Girija Balakrishnan
Non-executive & Independent

Graduated from the National Law School of India University in 1993 and heads the general corporate and commercial advisory practice at Malvi Ranchoddas & Co. Has over 31 years of experience and specializes in Corporate Laws, Mergers and Acquisitions, Commercial Laws, Foreign Direct Investments, Joint Ventures and Foreign Collaboration.

Shri Sagar Jadhav
Executive Director

B.E. in Chemical Engineering from Pune University with more than 33 years of experience in chemical industry operations across a range of products, functions and multiple plants at different locations. Oversees the operations of the plants of the Company.

Shri Jyotin Mehta
Non-executive & Independent

Has experience of 40+ years in the areas of finance and accounting, internal audit, corporate governance, risk and controls, Company law, legal and regulatory compliance, customer service across various industry domains such as banking, manufacturing and technology services. He is versatile finance, Governance, Risk, and Compliance professional with excellent academic credentials.

Shri Sanjoy Datta
Non-executive & Independent

A seasoned leader with over 36 years of experience across financial services, consulting, and corporate leadership in India and the Asia-Pacific region. He has deep expertise in strategy, M&A, finance, and governance, and has mentored several founders and CEOs. He has played multiple leadership roles including Strategy & Innovation Leader, Industry Leader – Financial Services, and Strategy Practice Leader, driving business transformation and leading the industry vertical.

Senior Leadership Team

Shri Pramod Bhandari
Chief Financial Officer

Strategic finance executive with 24 years of leadership experience across corporate finance, M&A, international listings, investor relations, and business strategy. Adept at managing complex transactions, including billion-dollar acquisitions, global debt syndications, and international capital market operations. Recognized for driving transformation, building high-performance teams, and delivering shareholder value in highly regulated sectors.

Shri Sanjay Gupta
President – New Business Initiatives

Chemical Engineer from IIT Kanpur and CFA from ICFAI, Hyderabad with 32 years of experience in various roles in Polymer and Chemical Industry. His last assignment was with Deepak Fertilizers where he headed Strategy PMO, in past he has experience of heading Farm produce business of DFPCL as CEO and setting up coated fabrics business of Garware-Wall Ropes as Business head.

Shri Panchaksharaiah M Pungnoor
President – Production

B. E (Chemical) and possess over 41 years of experience in the field of production function, process engineering, revamp of plants & project implementation.

ABOUT IGPL

IG Petrochemicals Ltd. (NSE: IGPL | BSE: 500199) is India's largest single-site Phthalic Anhydride manufacturer, with 275,110 MTPA of installed capacity across five plants at its integrated complex in Taloja, Maharashtra. Founded over 30 years ago, the Company commands approximately 50% of India's PAN market and is the sole domestic producer of Maleic Anhydride. It supplies a broad range of phthalate derivatives — including MAN, Benzoic Acid, and DEP — to customers across paints, plasticisers, and composites industries.
