Summary of results for H1 FYE2027

Revenue increased while core earnings and EBITDA decreased year-on-year

Japan

- Rising ingot and material costs intensified, and as benefits of price optimization was limited, profitability temporarily deteriorated
- In particular, LHT experienced a year-on-year decline in core earnings due to the cost impact of rising aluminum prices and a lower renovation sales ratio
- LWT Japan business achieved a year-on-year increase in core earnings, supported by a recovery in renovation sales

International

- While housing demand in the U.S. and China remained sluggish, core earnings increased YoY driven by solid performance in Europe and the IMEA region

Others

- Full-year earnings and dividend forecast remains unchanged
- Resolved interim dividend of JPY45 / share

KEY HIGHLIGHTS (JAPAN BUSINESS)

Continuing renovation sales recovery for water-related products and aiming for H2 recovery through and expansion of renovation sales, including subsidy-eligible products for LHT

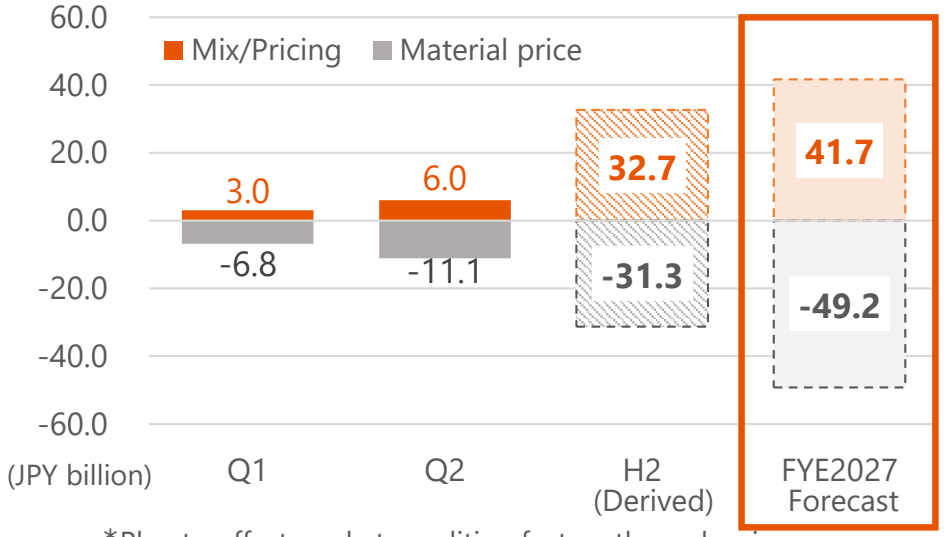

H1 Results

- Ingot and material cost increases intensified from Q2
- Further price optimization set for Aug/Oct, with limited H1 impact
- Water-related renovation sales recovered in Q2, after Q1 supply concerns led to prioritizing new housing

H2 Forecasts

- Benefits of price optimization expected to materialize, but the impact on sales volumes requires monitoring
- Renovation sales for water-related products expected to sustain the recovery
- LHT renovation sales expected to recover in Q3 due to seasonality and subsidy-eligible products
- Volume and product mix impacts on profit requires close monitoring

Price optimization and Material price trend

*Plan to offset market condition factors through price optimization and cost reductions

Aluminum price trend

KEY HIGHLIGHTS (LWT INTERNATIONAL BUSINESS)

LWT International revenue and core earnings increased YoY. Maintained profit growth by the price optimization and structural cost reductions, offsetting material inflation and elevated freight expenses

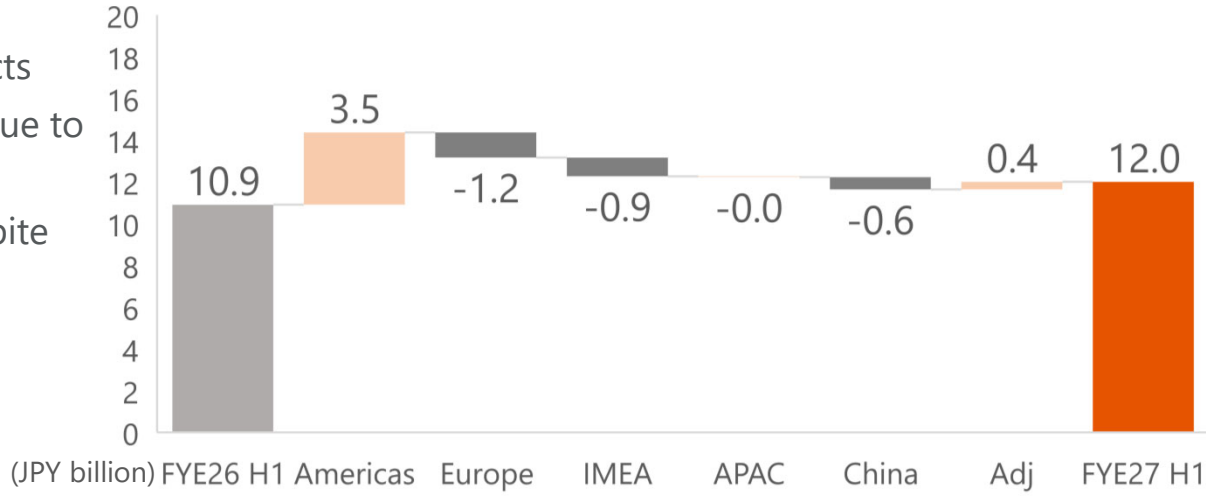

H1 Results

- Americas: Reduced loss driven by structural reform effects
- Europe: Profitability impacted by softening in demand due to interest rates and inflation
- IMEA: Core earnings declined due to cost increases despite solid revenue
- APAC: Maintained recovery trend
- China: Overall market contraction continues

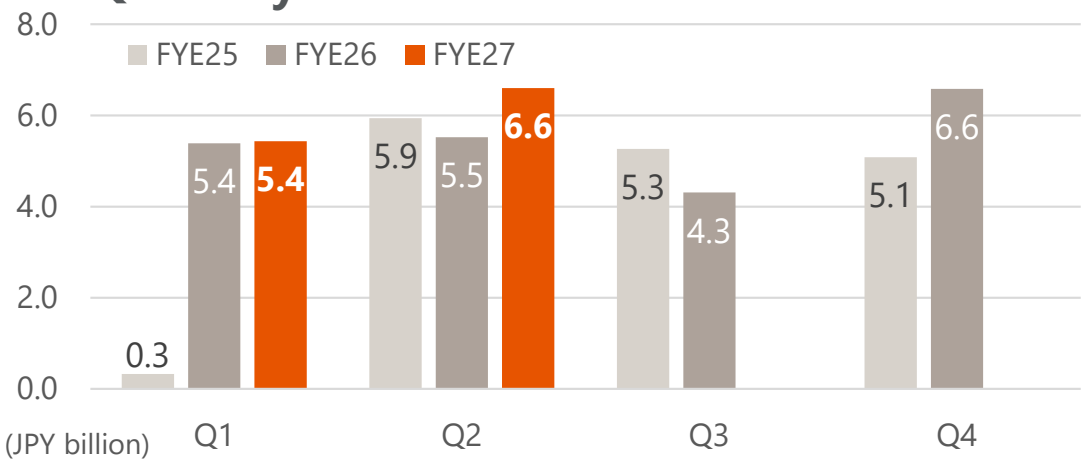

H2 Forecasts

- Americas: Further deterioration in the housing market is a concern
- Europe: Recovery stalled by political instability; warrants close monitoring
- IMEA: Closely monitoring Middle East conflict impacts; implementing price optimization and product mix enhancements to offset cost inflation
- Rising copper, logistics, and fuel costs remains a concern

CE breakdown by region in LWT Int'l in H1(1)

Quarterly CE trends in LWT Int'l

(1) Regional breakdown figures are on a management basis

KEY HIGHLIGHTS (LWT INTERNATIONAL BUSINESS)

Europe, IMEA, and APAC continued revenue growth, while the Americas reduced its loss on flat revenue growth

Americas

- **Market Trends**

Rising mortgage rates leads to further weakening of housing demand

- **Current Situation**

Reduced loss by structural reform effects continued in H1

Promoting sales expansion by segmenting GROHE and ASB and leveraging their respective strengths

- **Outlook for H2**

Housing market remains sluggish

Targeting revenue improvement by the sales recovery and price optimization, while protecting margin through cost reduction

Europe

- **Market Trends**

Political instability stalling recovery across countries; watching demand trends closely

- **Current Situation**

Maintained YoY revenue growth; price optimization helped offset material inflation, but rising copper, logistics, and fuel costs remains a concern

- **Outlook for H2**

Monitoring market deterioration (e.g., France); sustaining profitability by the high-value-added new products and maintaining cost control

IMEA

- **Market Trends**

Signs of slowing growth in the Middle East due to escalating tensions

- **Current Situation**

Revenue expected to grow through market share gains, but profit trending down due to front-loaded cost increases (surging ocean freight & procurement costs) tied to Middle East tensions

- **Outlook for H2**

Aiming to expand market share amid ongoing demand volatility and to maintain profitability through price optimization and product mix improvement

APAC / China

- **Market Trends**

Growth in Vietnam and Indonesia offset the weakness in Thailand

Continued real estate market slump in China

- **Current Situation**

Maintained profitability in APAC through revenue growth and cost control

Earnings remained positive while revenue fell in China

- **Outlook for H2**

APAC continues to optimize its supply system

Maintaining cautious operations while securing profitability in China

Americas

- ✓ Revenue held flat (+0% YoY), as strong price optimization and slight retail growth offset volume softness across trade channels
- ✓ Profitability improved significantly driven by structural SG&A cost savings and U.S. tariff refunds

Europe

- ✓ Revenue increased, driven by strong sales in Germany and Eastern Europe offsetting weakness demand in France
- ✓ Despite sales volume growth, CE decreased YoY, due to cost increases such as higher ocean freight rates and increased SG&A expenses

IMEA

- ✓ Revenue increased due to higher sales volumes and solid demand in key markets such as India, GCC countries (excluding Saudi Arabia) and North West Africa
- ✓ CE declined as sales volume growth was offset by cost increases from Middle East tensions, higher SG&A expenses to strengthen sales operations, and foreign exchange impacts

Asia Pacific

- ✓ Revenue increase as strong sales growth in Vietnam and Indonesia offset the weakness in Thailand
- ✓ CE held flat YoY due to higher SG&A despite improvement of product mix and higher gross profit

China

- ✓ Revenue declined despite E-commerce growth due to on-going project channel weakness, driven by the ongoing real estate market slump
- ✓ CE declined driven by lower sales volume, but remained in the black due to tightly managed SG&A

Revenue

- **Japan:** Revenue decreased YoY due to a slowdown in renovation sales
- **Int':** Increased YoY, driven by selling price impacts linked to rising aluminum prices

Core earnings

- CE dropped significantly YoY; while price optimization partially offset soaring raw material and component cost, performance was dragged down by a slowdown in renovation sales and the loss of inventory valuation gains
- Building Business: CE remained sluggish due to fewer high-margin property handovers, higher raw material and component costs, and the absence of inventory valuation gains from Q1

APPENDIX: BUSINESS AND ESG-RELATED TOPICS

Contribute to a Low-Carbon Society and Circular Economy

Reuters Global Sustainability Awards 2026
LIXIL Wins the "Circularity" Award(1)

- Won the category's top award at this prestigious global program, recognized for initiatives leveraging pioneering recycling technologies toward realizing a circular economy
- Deploying recycled low-carbon aluminum "*PremiAL*" and circular material "*revia*" (made from waste plastics and wood) to promote resource circulation and build a sustainable foundation
- Promoting the global expansion of both materials through "LHT Global," LHT's new overarching organization established in October, balancing reduced dependency on virgin resources with global business growth

Enhancing Value Creation Through Innovation

Japanese Electric Bidet Toilet Honored with "IEEE Milestone"(2)

- Development efforts by three companies, including LIXIL, were recognized with an "IEEE Milestone" by IEEE—the world's largest technical professional organization in electrical and electronics engineering—as a historic achievement that established the culture of washing with warm water in Japan
- Since Ina Seito (now LIXIL) introduced Japan's first electric bidet toilet "*Sanitarina 61*" in 1967, LIXIL has advanced hygiene technology for over half a century
- Innovations such as dedicated feminine-wash nozzles and "*AQUA CERAMIC*" support LIXIL's high-value-added product strategy, built on technology and reliability

BUSINESS AND ESG RELATED TOPICS

Advancing Climate Action

"The Liveable Home, Liveable Planet Project 2026" Linking High Home Insulation to Aid via UNICEF (1)

- Launched in October 2026, the project combines home decarbonization with support for children affected by climate change
- Now in its fourth year, the project has generated approximately JPY 80 million in donations since 2023. Through UNICEF, funds are utilized for emergency relief, disaster preparedness, and environmental education for children exposed to climate risks and natural disasters (2)
- Contributing both climate change mitigation and adaptation by promoting highly insulated products alongside charitable giving

Sustainable Growth by Addressing Social Issues

Sponsoring the 48th WorldSkills Competition Supporting Future Trade Professionals (3)

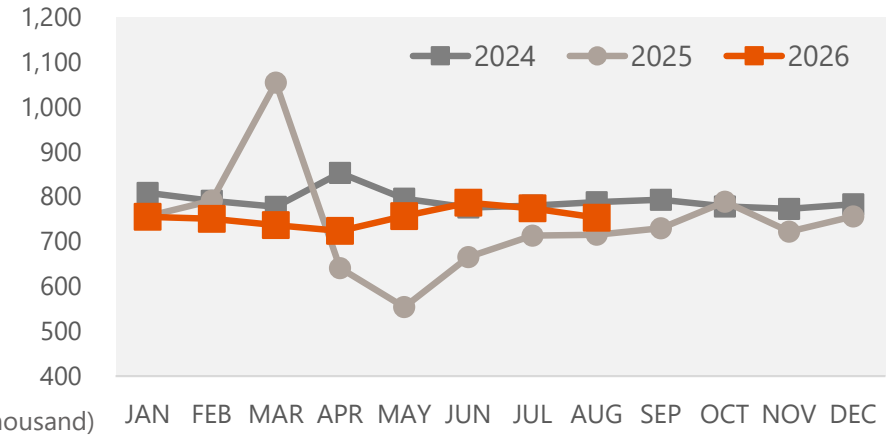

- LIXIL sponsored the competition, providing advanced GROHE products to support young trade professionals amid a global skills shortage
- The company is helping develop skilled tradespeople worldwide, strengthening essential infrastructure and professional networks to address water resource challenges
- In addition to sponsoring WorldSkills International, the company also continues to foster installer training initiatives across Japan, Europe, and the US to further support the next generation
