Contents

Ⅰ. Financial Results For 1st Half of Fiscal 2026	
● Financial Highlights	P. 3
● Trend in Net Sales	P. 4
● Operating Income – Change Factors	P. 5
● Assets, Liabilities and Equity	P. 6
Ⅱ. Progress of the New Management Policy “Early Realization of ROE of Over 10%”	
● Establishment of New PMVV Statement	P. 8
● Path to "ROE of Over 10%"	P. 9
● “Selection and Concentration” in the Automotive & Transportation Business	P. 10
● "Structural Reform" of the Industry Machinery Business	P. 11 – 12
● Profit Increase in the Growth Area	P. 13 – 17
● Strengthening Corporate Governance	P. 18
Ⅲ. Financial Forecast for Fiscal 2026	
● Orders Received by Region	P. 20
● Financial Forecast	P. 21 – 22

This presentation material contains forward looking statements that reflect the Company’s business plans, performance projections, and management strategy. Such statements are based on information currently available to the Company. However, changes in the operating environment may cause actual results and achievements to differ from those anticipated in this corporate presentation material. Also, please let you know that this presentation material includes reference information that are not exactly accounts indication matters.

Ⅰ. Financial Results for 1st Half of Fiscal 2026

Copyright THK CO., LTD. 2026. All rights reserved.

Financial Highlights

Consolidated Revenue （Continuing Operations）

- **¥151.0 billion (+32.4% YoY)**
  - The outlook of the global economy remained uncertain amid concerns such as increasing geopolitical risks including the situation in Ukraine and in the Middle East, continuing inflation, and U.S. tariff policy.
  - Despite this situation, in the industrial machinery business, orders remained strong and revenue increased due to expanded capital investment, primarily in the semiconductor industry, driven by demand for AI.

Consolidated Operating Income （Continuing Operations）

- **¥22.4 billion （+268.9% YoY)**
  - The industrial machinery business was affected by negative factors such as inflation, rising U.S. import tariffs, and one-time expenses of ¥700 million associated with the implementation of the Next Career Support Program. However, the volume effect of the increased revenue and the benefits of structural reforms offset the negative factors, resulting in higher operating income.

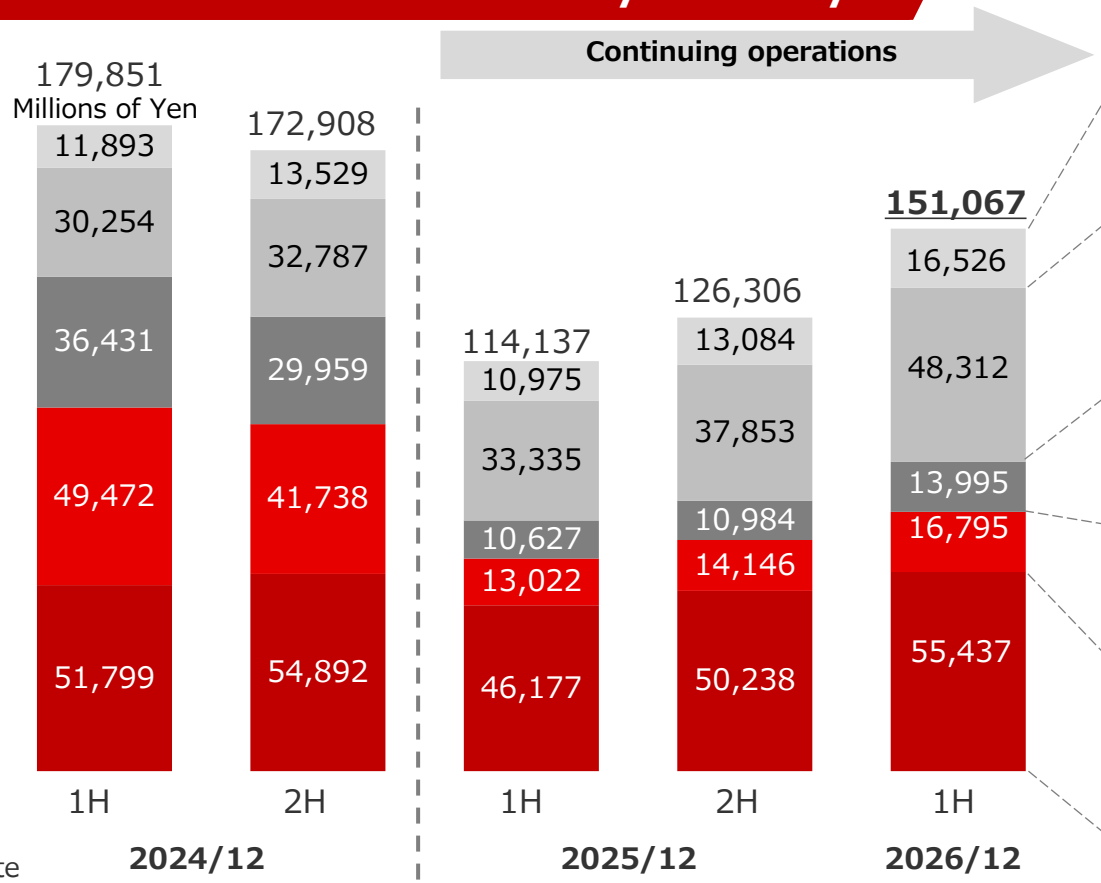

Key Point

- **Revenue and operating income exceeded the revised plan set in May 2026 by ¥13.0 billion and ¥7.0 billion, respectively.**
- **THK recorded a gain on transfer of business of ¥16.4 billion, which is mainly attributable to a reversal of the foreign currency translation adjustment resulting from the transfer of the automotive & transportation business.**

Establishment of New PMVV Statement

Refreshing our Mission and Values to drive sustainable corporate value enhancement

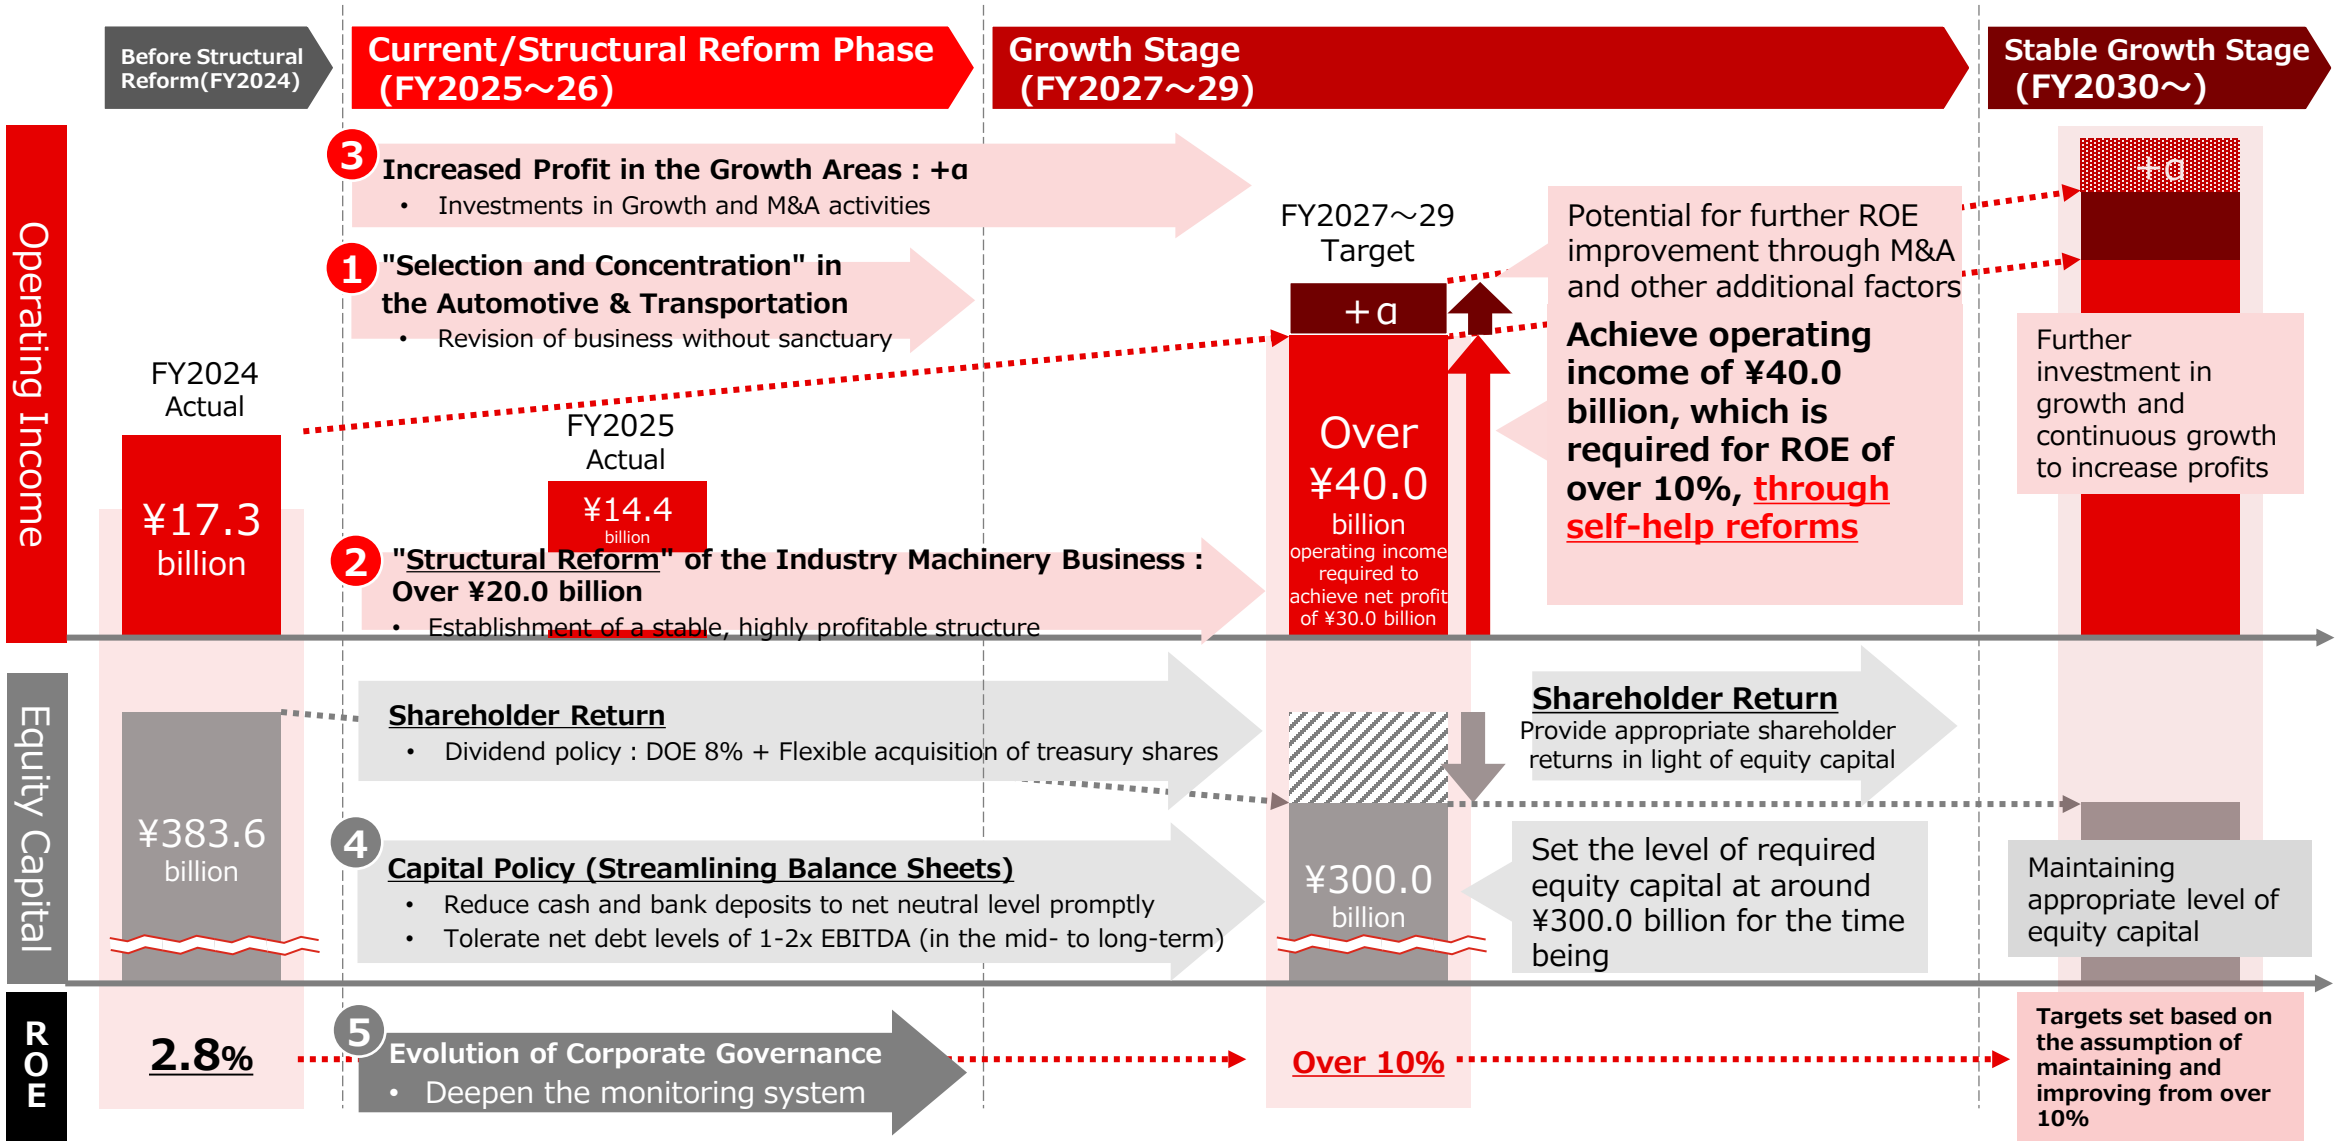

[1] "Monozukuri" is a philosophy of manufacturing, craftsmanship, and innovation.

[2] Our company has a foundation in technologies that enable the linear motion of machines through rolling motion, and we provide solutions that combine mechatronics products with IoT and other digital connection technologies. Based on the idea that "added value in the manufacturing industry is created in the *gemba*," we help customers around the world solve problems and work toward the realization of a sustainable society. "Mechatroedge" is a term that combines mechanical components, mechatronics, and IoT/edge computing services provided by THK.

[3] In addition to supplying products, we aim to go beyond the boundaries of the manufacturing industry and offer new value to our customers by providing high-value-added services that utilize digital technologies such as AI and IoT.

1 "Selection and Concentration" in the Automotive & Transportation Business

Completed "Selection and Concentration" by proceeding in stages based on the policy of “Without ruling out any options or possibilities"

Background to Date

Operating Loss → Turnaround → Structural Reform

- 2017
- 2018
- 2019 — Recovery plans initiated
- 2020 — Impairment losses recorded
- 2021
- 2022 — Impairment losses recorded
- 2023
- **2024** — **“Selection and concentration” announced**
- **2025** — **“Selection and concentration” executed**
- **2026** — **“Selection and concentration” completed**

Implementation details

Structural Reform without Sanctuary

Completed “Selection and Concentration” by transferring the automotive & transportation business (Completed on June 1, 2026)

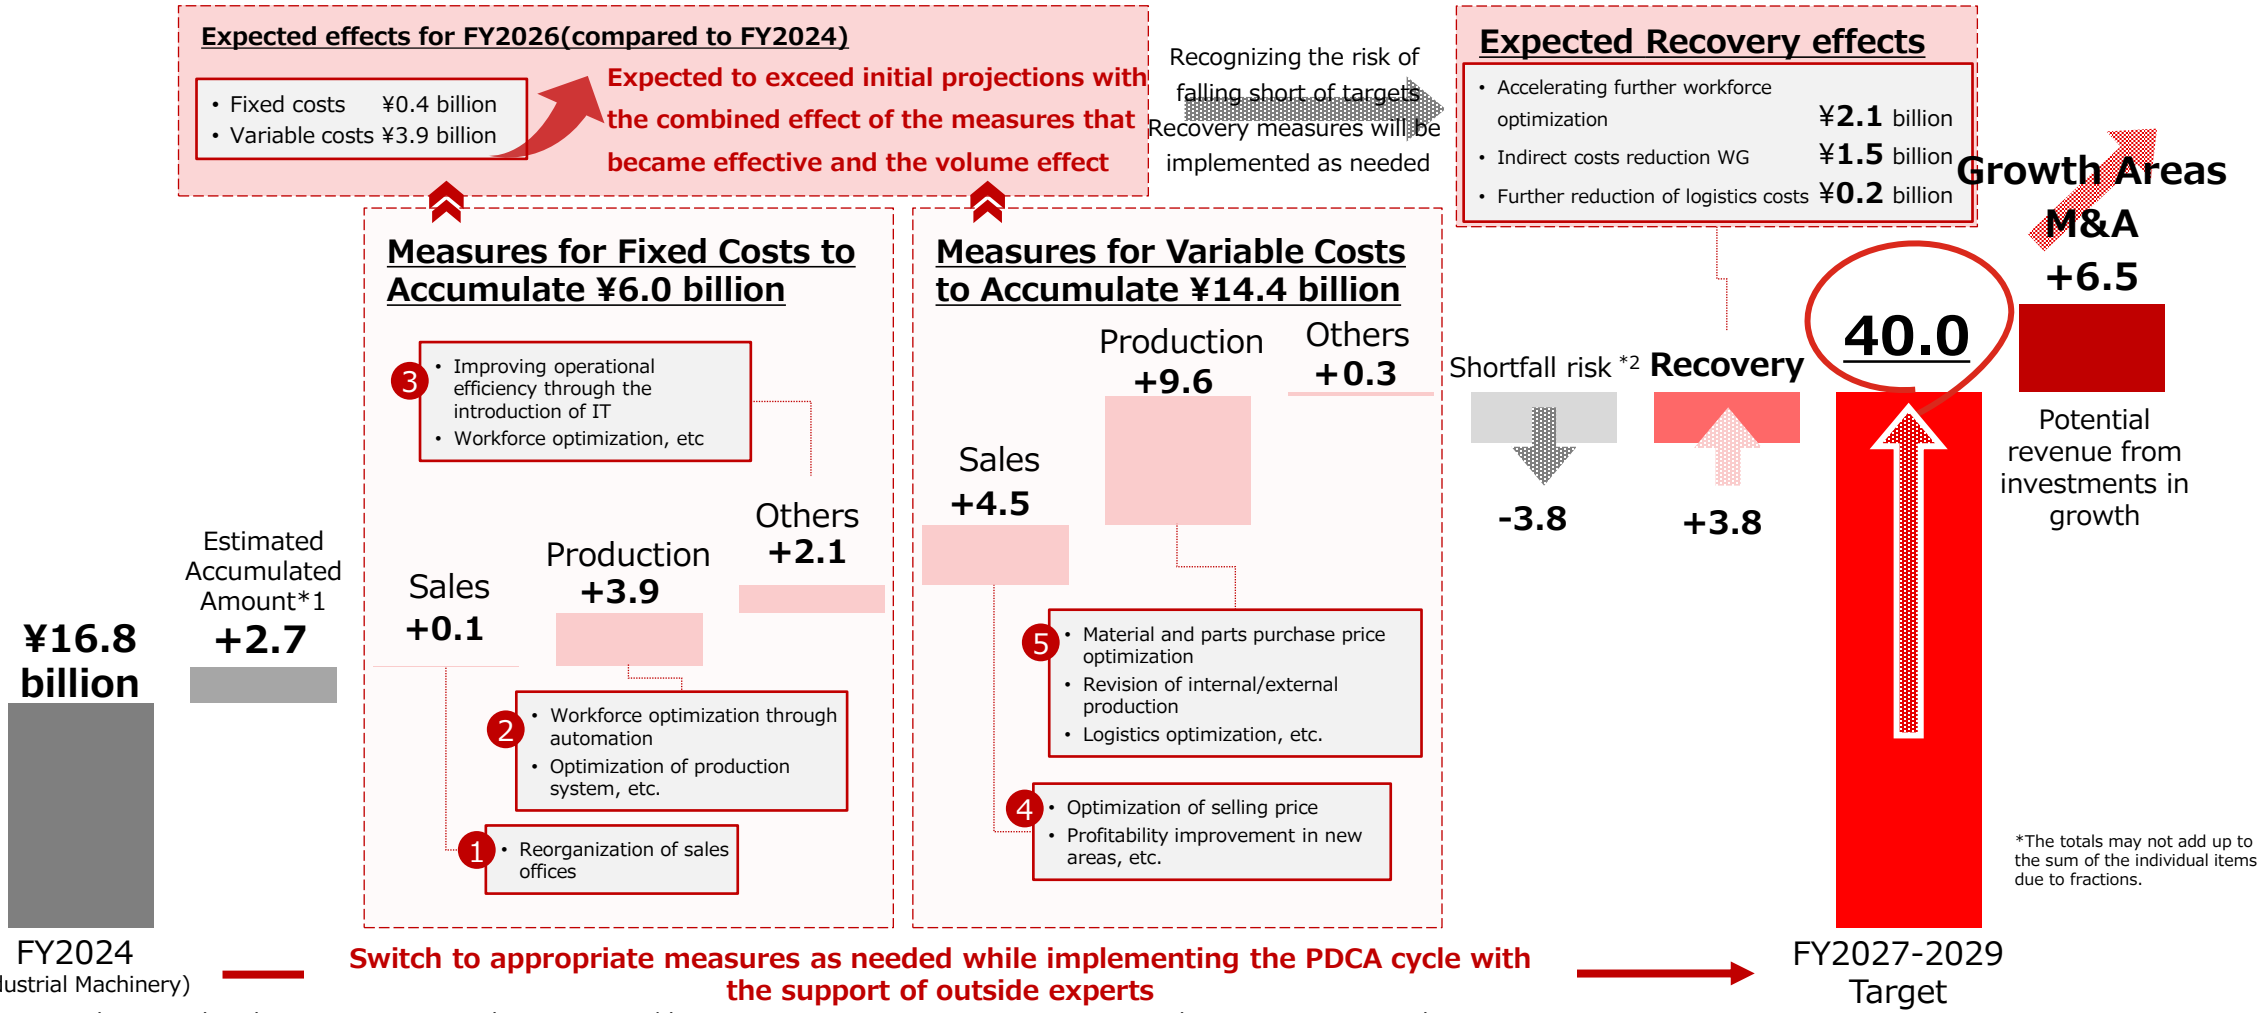

The circumstances leading to the implementation

- THK has concluded that transferring the business was the best option after thoroughly examining the anticipated cost of capital and the return on invested capital (ROIC).
- THK has entered into a transfer agreement for all the automotive & transportation business, including TRA Holdings, CO., LTD., which has THK RHYTHM CO., LTD. as its group company.

Copyright THK CO., LTD. 2026. All rights reserved.

② "Structural Reform" of the Industry Machinery Business

Advancing each initiative while incorporating recovery measures to build a high-profit structure

*The totals may not add up to the sum of the individual items due to fractions.

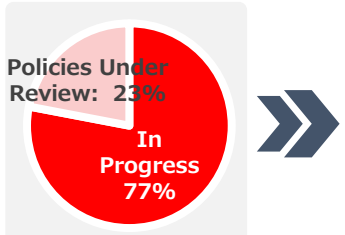

*1 :Estimated accumulated amount : Estimated net increase/decrease in FY2025 at new management policy announcement plus FY2026-2029 assuming 2% growth in sales and slightly more than 4% increase in labor/personnel costs per year

*2 :Excluding the temporary negative factors and the negative impact of volume effects in FY2025

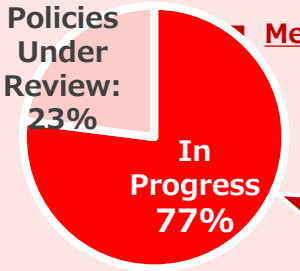

Copyright THK CO., LTD. 2026. All rights reserved.

2 "Structural Reform" of the Industry Machinery Business

Steadily implement existing measures and introduce additional new measures to further accelerate the structural reform

As of FY2025 : 78 measures

As of 1st half of FY2026 : 88 measures

Measures Identified and Implemented for the structural reform (Total: 88)

- **Reduction effects accumulated** with the existing measures steadily implemented
- **Additional measures implemented by 11%** in 1st half of FY2026
- Scheduled to be implemented in phases starting FY2026 (including an increase in bulk order for parts and the expansion of duty-free zones)

~FY2029

Estimated Impact

+Over ¥20.0 billion

		Progress and Initiatives Achieved by the End of FY2025	Planned Initiatives for FY2026	Estimated Impact	Number of Measures
Fixed costs	1 Sales	✓ Initiated in sequence	✓ Continue the implementation of FY2025	+0.1	(1)
Fixed costs	2 Production	✓ Reviewed production items and optimal production locations across all global sites	✓ Continue the measures and implement initiatives in sequence	+3.9	(14)
Fixed costs	3 Others	✓ Formulated personnel optimization plan	✓ Streamline staffing and restrain personnel increases through the implementation of established measures	+2.1	(4)
Variable costs	4 Sales	✓ Implemented appropriate adjustments to sales prices based on market conditions and cost trends	✓ Expand the regional coverage and target markets and implement appropriate pricing to ensure sustainable profitability	+4.5	(6)
Variable costs	5 Production	✓ Planned centralized ordering of components, review of in-house vs. outsourced production, reevaluation of processing steps, and reduction of logistics costs. Improved monitoring function for existing measures while ensuring thorough implementation and deepening their effectiveness	✓ Implement fundamental review of production processes and operational workflows, and further cost reduction of materials used	+9.6	(59)
Variable costs	6 Others	✓ Strengthened collaboration with group companies and expanded revenue in new fields	✓ Continue the implementation of FY2025	+0.3	(4)

③ Profit Increase in Growth Area: Growth Strategy

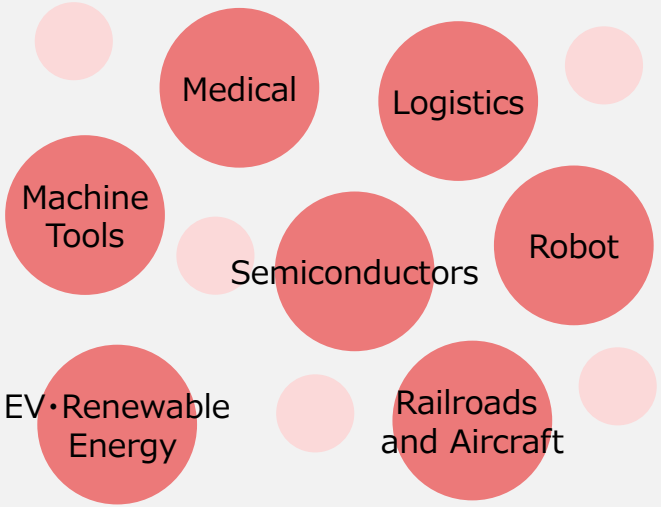

Copyright THK CO., LTD. 2026. All rights reserved.

③ Profit Increase in Growth Area: Machine Component Parts Business

Establish a virtuous cycle of product launches for expanding top-line growth and improving profitability by accelerating the business cycle after identifying needs

Deploy task forces in the seven key areas where high growth is expected

[Target markets]

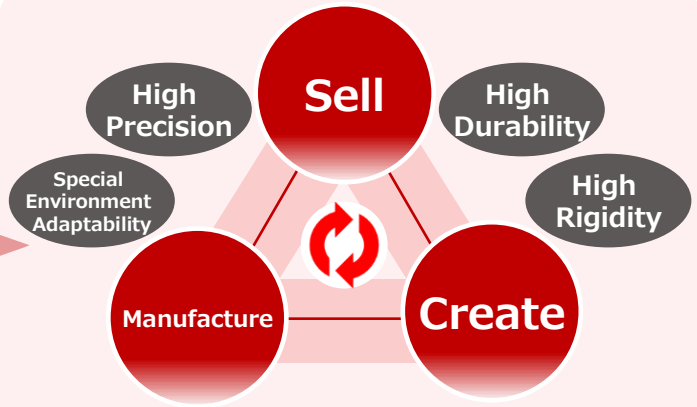

Significant increase in the number of needs identified

- In the 1st half of FY 2026, the number of needs identified was approximately 2.6 times the cumulative total for FY 2020–2024

Significant increase in the number of new products and services

- The number of new product releases in FY2026 is expected to increase to approximately 2.7 times the previous year

Develop and launch new products and services that meet customer needs

Drive top-line growth and improve profitability by accelerating the cycle of "sell, create, and manufacture"

Copyright THK CO., LTD. 2026. All rights reserved.

③ Profit Increase in Growth Area: Growth of FA Solution Business

Give smart subsystems to the world with actuator technology x sensing technology x control technology

Expected Market

Addresses the needs of a wider range of machine users in addition machine builders

Machine users (Production technologies・Sier)

Machine builders

■ **Provide high value-added products and solution services by combining three elements**

■ **Support physical AI for factory automation and advanced manufacturing**

1.Machine Component Parts (Mechanical)

・LM Guide etc.

2. Mechatronics Modules

・Actuators
・Modules

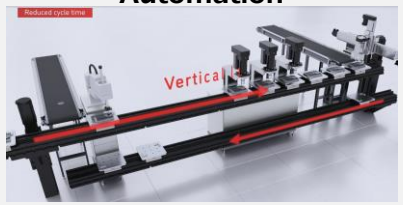

3. IoT・AI

・OMNIedge

Maximization of Added Values

Mechatronics Modules Lineup

Process Automation

Versatile Transport System VTS

Actuators for Automation

Process-Optimizing Robot PPR series

Electric Actuator

Transportation Between Processes

Autonomous transfer robot SIGNAS

IoT Solution (OMNIedge) Lineup

- **Condition Monitoring AI Solution**
  - ✓Linear Motion Components
  - ✓Rotary Components

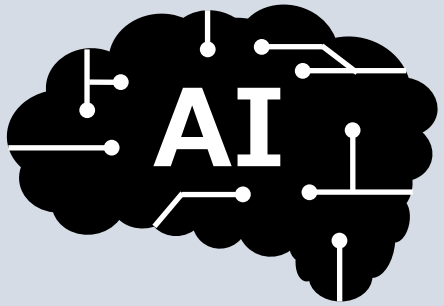

- **Monitoring AI Solution for Cutting Tools**
- **Skill Management AI Solution**
- **Maintenance Integrated Management System**
- **GX Solution**
  ※ Visualizing Factory-Wide Energy Use

Copyright THK CO., LTD. 2026. All rights reserved.

3 Profit Increase in Growth Area: THK's Technology That Supports Physical AI

Support physical AI with THK's smart subsystem powered by actuator technology x sensing technology x control technology

Instructions

Data

Optimal Solution

Data

Simulation

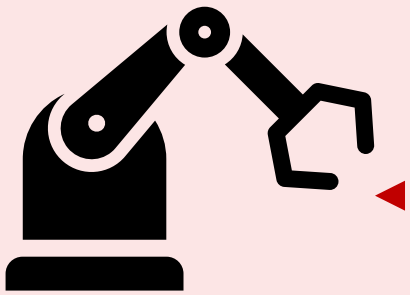

Virtual Space (Digital Twin)

Case study: Supporting Sony Group's cutting-edge research and development to enable robots to play table tennis at a level on par with humans

THK provided the Linear Motor XY Axis Unit

Achieve precise movements exactly as directed by the AI

- **Machine component parts with minimal quality variation, precise operation, and high durability**

Provide data that corrects the gap between simulations in the real world and virtual spaces

- **Actuator technology x sensing technology x control technology**

Real Space

Copyright THK CO., LTD. 2026. All rights reserved.

③ Profit Increase in Growth Area: Strengthening Global Production Capacity

Has decided to strengthen its production capacity for the growing customer demand anticipated in the mid- to long term (Construction of THK DALIAN Plant—2nd phase)

THK DALIAN（CHINA）

New plant extension
To be completed in Dec. 2027

Target products : Ball Screw
Floor space : About 27,000 ㎡

✓ Carry out necessary investments with discipline
✓ Continue pursuing the company-wide structural reform

Copyright THK CO., LTD. 2026. All rights reserved.

5 Strengthening Corporate Governance

Plan to continue strengthening measures and make revisions to the code to pursue more substantive governance

Major trend in corporate governance

Establishing the format | **Enhancing independence and transparency** | **Pursuing substantiality**

2015 — 2018 — 2021 — 2025 — 2026 …

Establishment of the Corporate Governance Code (“CGC”)

- Outlines basic principles, such as ensuring shareholders’ rights and equality, and request compliance and explanation as a listed company

CGC Revision (First and second)

- Request for substantive corporate management and Board operations
  - ✓ Increased proportion of outside directors, disclosure of directors’ skills, establishment of the Nomination and Compensation Committees

CG guidance for strengthening “Earning Power”

- Highlighted the importance of executing growth investments, building a value creation narrative, and engaging in dialogue with shareholders and investors

CGC Revision (Third)

- **Toward a code that requests pursuing substantiation**
  - ✓ Thorough explanations, accountability and verification regarding the allocation of management resources, strengthening the functions of the Board Secretariat, and others

Transition of corporate governance structure and reforms

- Transition to a company with Audit & Supervisory Committee
- Establishment of the Nomination Advisory Committee and the Compensation Advisory Committee

- Review of systems (director skill matrix, executive compensation and performance evaluation systems, and others)
- Announcement of a CEO succession plan policy

- Implementation of third-party evaluation of the effectiveness of the Board of Directors
- Outside directors appointed as chairpersons of the Nomination Advisory Committee and the Compensation Advisory Committee

Measures for further substantiality

- Continuation and further development of governance enhancement measures implemented by 2025
- Response to the CGC revisions
  - ✓ Strengthening the functions of the Board of Directors Secretariat already started
  - ✓ Review and revise compliance/explanation procedures, and incorporate changes
