Forward Looking Information

Q2 2026

This presentation contains forward-looking information within the meaning of applicable securities laws. Words such as "may", "will", "should", "anticipate", "plan", "expect", "believe", "predict", "estimate" or similar terminology are used to identify forward-looking information. This forward-looking information is based on assumptions, estimates and analysis made in the light of the Company's experience and its perception of trends, current conditions and expected developments, as well as other factors that are believed by the Company to be reasonable and relevant in the circumstances. Forward-looking information involves known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements to be materially different from those predicted, expressed or implied by the forward-looking information.

Additional information on the risks and uncertainties on the Company's business can be found in the Company's current Annual Information Form, annual and quarterly reports and in other reports and filings made with the securities regulatory authorities and available at www.sedarplus.com and www.mattr.com. The forward-looking information is provided as of the date of this presentation and the Company does not assume any obligation to update or revise the forward-looking information to reflect new events or circumstances, except as required by law. The complete text of Mattr's statement on forward looking information is included at the outset of the Company's Second Quarter 2026 Management Discussion and Analysis (MD&A) report, which is available on SEDAR and on the Company's website at mattr.com.

Q2 Highlights – Strong Execution Delivers Record Performance

Execution

- **Record quarterly Revenue and Adjusted EBITDA** for Continuing Operations
- **New production records** for both Xerxes and AmerCable
- Strategies to **enhance exposure to higher-margin wire and cable end markets** deliver continued success
- **Operational efficiency progression** on-schedule across both segments

Growth

- **Sequential revenue growth** driven primarily by strong demand for products supporting retail fuel, mining and utility applications
- Broad-based **growth in wire and cable demand across mining, utility, oilfield and data center applications**
- **Successful first 8-inch Flexpipe deployment completed with backlog extending into Q4**

Financial Results – Q2 2026

Total Continuing Operations

Revenue

$396.2M

+ 23%

Adj. EBITDA

$62.8M

+ 48%

Adj. EBITDA Margin: ***15.8%***

Connection Technologies

Revenue

$227.9M

+ 29%

Adj. EBITDA

$38.7M

+ 75%

Adj. EBITDA Margin: ***17.0%***

Composite Technologies

Revenue

$168.3M

+ 16%

Adj. EBITDA

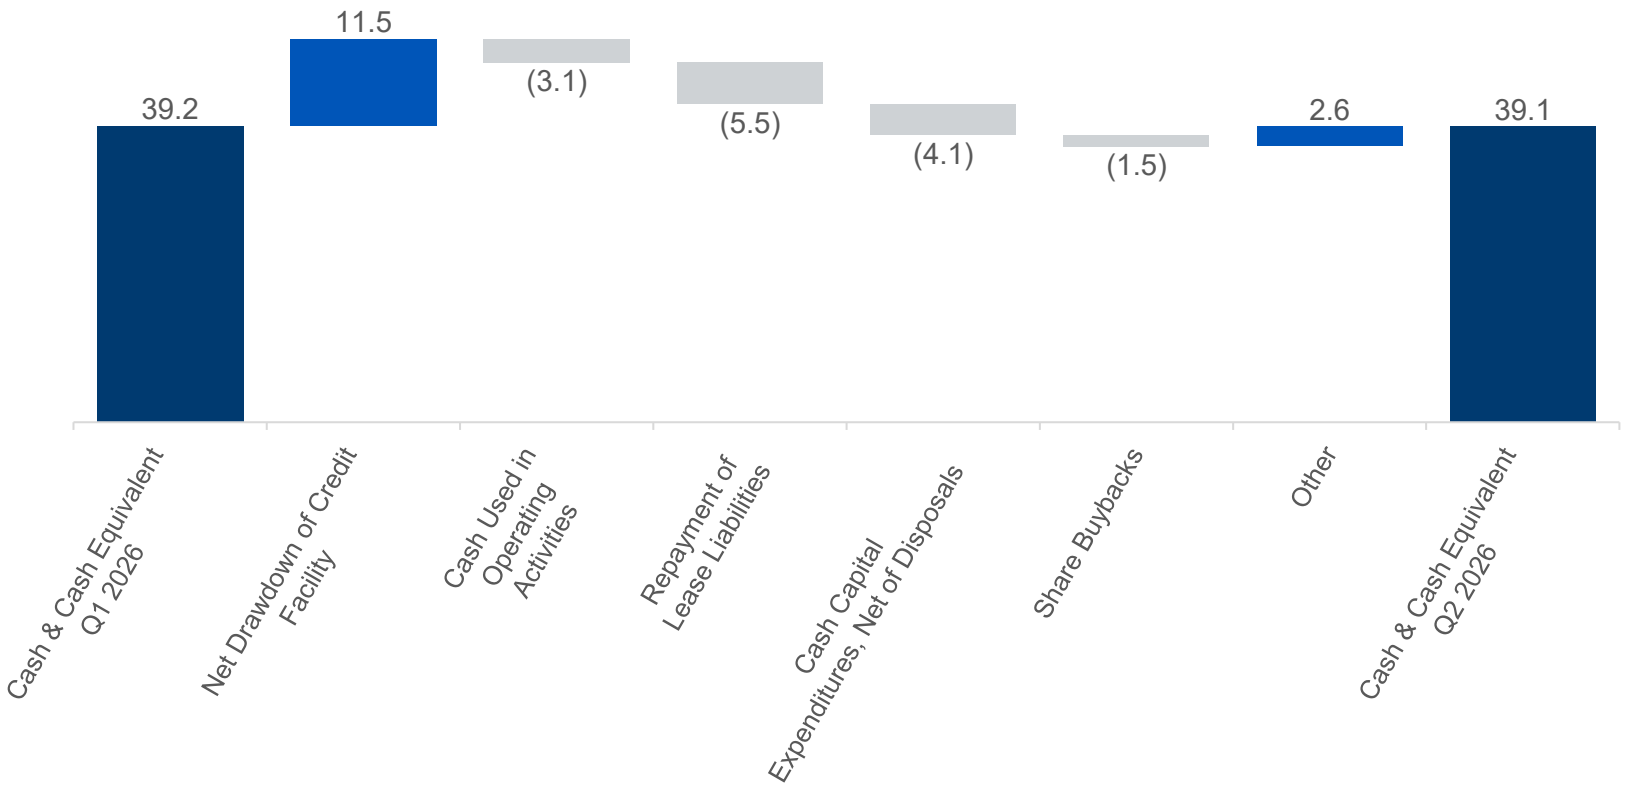

$31.4M

+ 26%

Adj. EBITDA Margin: ***18.6%***

Note: % change provides comparison vs. prior year quarter

Cashflow and Net Debt – Q2 2026

CAPEX

$35-$45M

Estimated FY 2026 vs Normal Course Range of

$40-$50M

Cash deployment primarily into higher working capital during Q2 to support rising activity baseline

2026 Market Assumptions – Rapidly Changing Macro-Environment Persists

Markets listed in order of relative significance

CONNECTION TECHNOLOGIES

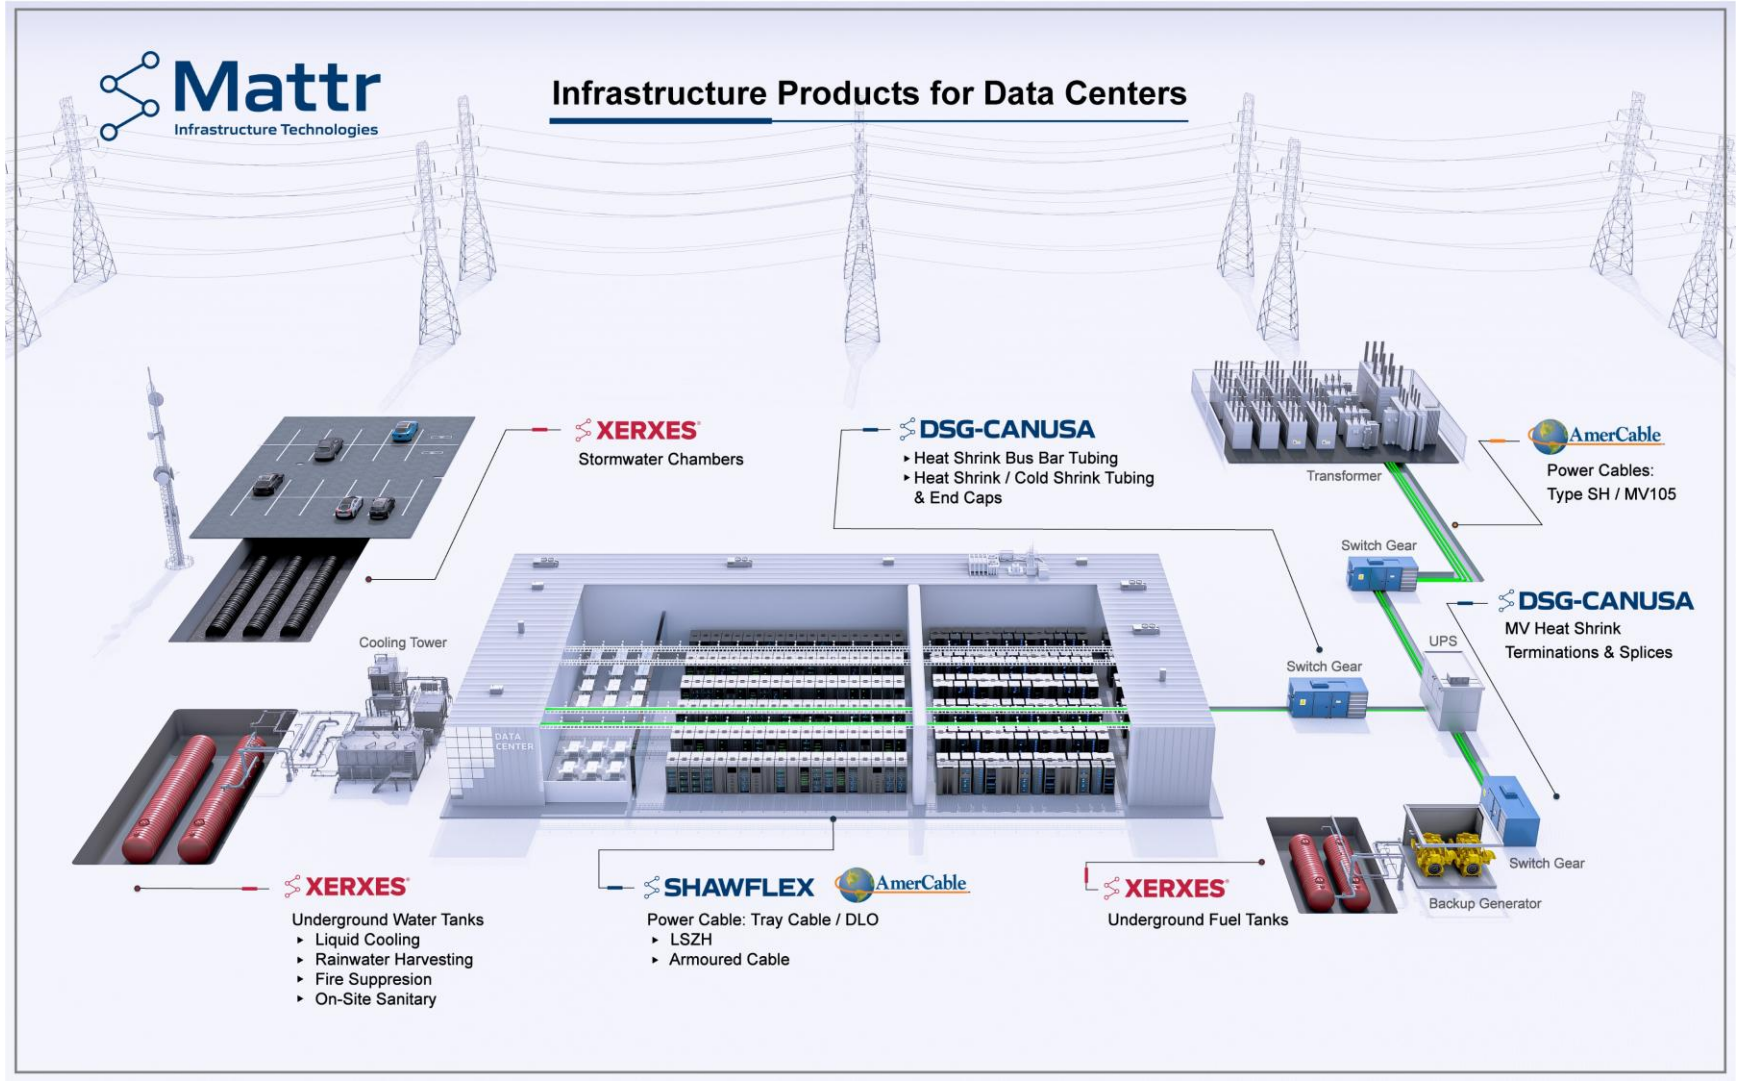

- Global Mining Activity
  - Activity stable in US and improving in Canada, with favorable outlook
  - International activity rising with favorable outlook
- North American Power Generation and Distribution Activity
  - Continued expansion with favorable outlook
- Global Automotive Activity
  - Production forecasts modestly declining
- Global Oilfield Activity
  - 2026 activity below 2025
  - Recent commodity price elevation creates potential for future activity rise
- North American Data Center Activity
  - Continued expansion with favorable outlook
- Canadian Industrial Stock Wire & Cable
  - Lower tier products facing significant over-supply
  - Upper tier product demand limited by modest new industrial construction

COMPOSITE TECHNOLOGIES

- North American Retail & Back-Up Fuel Storage Demand
  - Continued expansion with favorable outlook
- ▲ Onshore Oilfield Completion Activity
  - North America land entered 2026 at cyclic-low after multi-year decline
  - Modest H1 activity increases expected to continue during H2 given commodity price landscape
  - Improving international opportunity landscape
- North American Water Management Construction Activity
  - Continued expansion with favorable outlook

▲ Notes improvement vs. prior quarter view
▼ Notes deterioration vs. prior quarter view

Data Centers: Rising Exposure Across Many Businesses

- **Xerxes**: Large project potential where designs utilize underground fuel or water storage; a single data center can require 20+ tanks versus 3-6 for a typical gas station.
- **Wire & Cable**: Strong demand environment for modest complexity products; Mattr targets fast-turn, higher-margin opportunities.
- **DSG-Canusa**: Opportunity to accelerate growth into electrical protection and identification products.

2026 Outlook and Priorities

2026 vs 2025 Adjusted EBITDA Outlook

Total Mattr
Higher than 2025

Connection Technologies	Composite Technologies
Higher	Higher

Q3-26 Adjusted EBITDA expected to be similar to Q2-26

H2-26 Adjusted EBITDA expected to be similar to H1-26

2026 Strategic and Operational Priorities

Growth

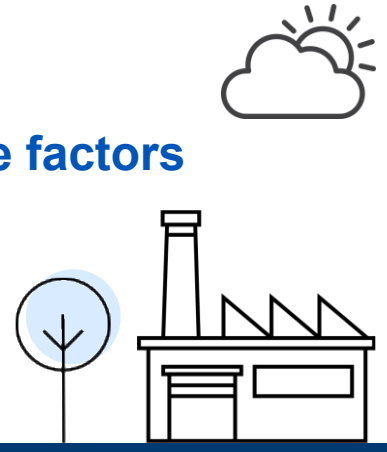

- Capturing growth in Xerxes fuel and water markets
- Enhancing exposure to higher-margin wire and cable end markets
- 7-8” Flexpipe market penetration
- Growth capex primarily focused on new Flexpipe products & capacity expansion within AmerCable

Execution

- Levering improved manufacturing footprint to deliver rising efficiency across both segments
- Increasing production from Xerxes factory network
- Incremental international Flexpipe order capture
- R&D focused on expanding nuclear, defense and aerospace solutions
- Contingency plans in place to navigate range of possible external factors

Positioned to Deliver Long-Term Value

- Serving critical infrastructure markets through highly respected brands & differentiated technologies
- Operating from a modernized manufacturing footprint with rising productivity & efficiency
- Benefitting from long-term critical infrastructure fundamentals
- Abundant long-term growth opportunities and investment grade customer base
- Strong liquidity position & optimally deploying capital
- Driving expanding margins & increasing full-cycle returns by focusing on controllable factors
- GICS classification changed to 'Industrial – Electrical Components & Equipment'

Thank you.
